

## A COMMON-SENSE LETTER.

TO THE EDITOR: I see that newspaper articles are again making their appearance calling attention to matters pertaining to health, as well as to the means whereby disease may be removed and good health preserved. I am thereby reminded that I have received from time to time, pamphlet publications issued by the well-known firm of H. H. Warner & Co., which dwell upon the history and growth of kidney disease; showing how such is the cause of consumption, heart, brain and nervous disorders, which can only be successfully treated by removing the primary disease from the kidneys. At the same time care is taken to remind the reader that Warner's Safe Cure is the only means whereby the physician or the individual can successfully prevent and cure this class of disease.

Whilst I have personal cause to feel grateful to Warner's Safe Cure for the benefit which I derived from it when suffering from kidney troubles last spring, I cannot see, since that remedy is already so well known in every household, why the parties interested in its manufacture should continue to expend money in calling attention to what the public already knows so well. I am aware, Mr. Editor, that the members of the medical profession are seldom disposed to give due credit to proprietary medicines, but public confidence is likely to be even more shaken in those learned gentlemen since the startling disclosures in the Robinson poisoning cases were made in Somerville, Mass.

Here it was discovered, through the efforts of an insurance company, that eight cases of death from arsenical poisoning had occurred—seven of them in one family, and within five years, and the other that of a relative—wherein the true cause of death had not been even suspected by prominent physicians who were in attendance, but who treated the cases for other causes, and finally, when death occurred, issued certificates for such causes as pneumonia, typhoid fever, meningitis, etc.

After such an evidence of the utter incompetency of those physicians who were regarded as experts in their profession, I cannot conceive why it will be longer necessary for further advertising to be done in behalf of Warner's Safe Cure, since I deem the Somerville disclosure to be the best possible endorsement of the good sense manifested by those who take matters of health in their own hands and use a remedy which experience has shown to be fully adapted for the purposes intended, instead of trusting themselves in experimental hands.—EXPERIENCE.

## ADVICE TO MOTHERS.

MRS. WINSLOW'S SOOTHING SYRUP should always be used for children teething. It soothes the child, softens the gums, allays all pain, cures wind colic and is the best remedy for diarrhoea. 25c. a bottle.

TO THE DEAF.—A person cured of Deafness and noises in the head of 23 years' standing by a simple remedy, will send a description of it free to any person who applies to Nicholson, 177 McDougal Street, New York.

THE agony of Dyspepsia is immediately relieved by using Dyer's Quinine and Iron Wine—perfectly harmless, easily assimilated and highly recommended by prominent physicians, druggists keep it. W. A. Dyer & Co., Montreal.

THE PREMIUM PLATE.—A very large number of old subscribers are sending for the "Horse Fair." This picture, as is universally the case with premiums, was intended to stimulate new subscriptions. We have, however, arranged to accommodate present subscribers by giving the picture to all who pay to the end of 1889, and enclose 25 cents for expenses. This will give to all the average footing of new subscribers. But many send the 25 cents and forget the other part of the condition. Be kind enough to read our offer at the foot of the advertisement.

FREDERICK T. ROBERTS, M.D., Professor of Clinical Medicine at University College Hospital, London, England, says: "Bright's Disease has no symptoms of its own and may long exist without the knowledge of the patient or practitioner, and no pain will be felt in the kidneys or their vicinity. All the diseases to which the kidneys are subject and to which they give rise can be prevented if treated in time." Warner's Safe Cure is the only recognized specific. R. A. Gunn, M.D., Dean, and Professor of Surgery of the United States Medical College; Editor of "Medical Tribune," Author of "Gunn's New and Improved Hand-book of Hygiene and Domestic Medicine," says: "I am willing to acknowledge and commend thus frankly the value of Warner's Safe Cure."

## A BOSTON PAPER SAYS:

"THERE is no hotel in New York so satisfactory as the famous Sturtevant House, Broadway, cor. 29th street. Its location is central, and Matthews & Pierson, its proprietors, serve guests on both European and American plans, and their charges are very reasonable."

ONE of Mahomet's earliest resolves was to Mecca man of himself.—*Pittsburgh Chronicle*.

"LEVI, you have been advertising so long that you are selling goods at half-price, I should think you would be ruined."

"Pretty near, Misder Brown, pretty near."

"You must have been losing steadily now for ten years, that I know of."

"It's a fact, s'help me; but von ting, Mr. Brown, I will get my reward in Heaven, und don't you forget it."
