It is stated that as a result of the construction of the Northern Colonization Railway through the country north of Montreal, there have been established already fifteen large pulp and lumber mills in that section, representing an investment of over a million dollars. It is not unpleasing to be told, moreover, that the most fertile part of the region had not yet been reached, and only will be when the Colonization line is extended through to the L'Original Rapids district. Besides having the most fertile district this is also the one in which the best water power is situated, and different firms are said to be only waiting for the line to be extended to locate there. The Colonization Railroad is now being operated by the C.P.R.
