

Trees and Underwoods; describing the usual Growth and Size and the Uses of each sort of Tree, the Seed of each, the Season and Manner of collecting the Seed, the Manner of Preserving and Sowing it, and also the Manner of Managing the Young Plants until fit to plant out; the TREES being arranged in Alphabetical Order, and the List of them, including those of America as well as those of England, and the English, French, and Latin name being prefixed to the Directions relative to each Tree respectively.—This work takes every tree at ITS SEED, and carries an account of it to the cutting down and converting to its uses.—W. A TREATISE ON COBBETT'S CORN.

COBBETT'S CORN-BOOK (*Price 5s.*); or, A TREATISE on COBBETT'S CORN: containing Instructions for Propagating and Cultivating the Plant, and for Harvesting and Preserving the Crop; and also an Account of the several Uses to which the Produce is applied, with Minute Directions relative to each Mode of Application.—This edition I sell at 5s. that it may get into *numerous hands*. I have had, even *this year*, a noble crop of this corn: and I undertake to pledge myself, that this corn will be in general cultivation in England, in *two or three years* from this time, in spite of all that fools and malignant asses can say against it. When I get time to go out into the country, amongst the labourers in KENT, SUSSEX, HANTS, WILTS, and BEKS, who are now *more worthy* of encouragement and good living than they ever were, though they were always excellent; I promise myself the pleasure of seeing this beautiful crop growing in all their gardens, and to see every man of them once more with a bit of meat on his table and in his satchell, instead of the *infamous potato*.—W. It is the A, B, C, of paper-money learning. Every young man should read it with attention.—W. C.
