

and 48 Carleton Chambers, Ottawa, and is open to accept engagements. Mr. Vogel makes a specialty of designing paper and pulp mills and water power developments. He built the pulp mill of the Thorold Pulp Company at Thorold, Ont., and has just completed the mill of the James MacLaren Company at Buckingham, Que., which is operating most successfully. Mr. Vogel will co-operate with Mr. Charles Proper, who is in a position to undertake anything in sawmill building.

Henry Holgate, C.E., of Toronto, is actively engaged in connection with the preliminary operations of the North Shore Power, Railway & Navigation Company. This company, promoted by Thomas Meaney, of Toronto, purposes establishing extensive pulp mills and other industries at Seven Islands, below the city of Quebec. Men are now at work clearing and grading the proposed railway from the harbor to the water power on the St. Marguerite river, and the building of the pulp mill will be commenced as soon as the railway can be got in operation to carry the supplies. Contracts have been awarded to Carrier, Laine & Company, of Levis, for a large quantity of iron, 25,000 barrels of cement, and a locomotive.

We have received from the promoters a copy of the prospectus of the Atlantic Pulp & Paper Company, which has been incorporated by the Ontario Government to manufacture pulp and paper in Canada. Mr. W. C. Edwards, M.P., of Ottawa, is president of the company. The prospectus states that it is proposed to erect a paper mill of 50 tons daily capacity, a ground wood pulp mill of 50 tons daily capacity, and a sulphite mill of 10 tons daily capacity. The mills will be built at New Richmond, on the Baie des Chaleurs, and about two miles from the limits. The Little Cascapedia river flows from end to end through the centre of the limits, and the large number of tributary streams does away with the greater part of the hauling usually entailed in getting out pulp wood, thereby greatly decreasing the cost. Mr. George Hardy, of New York, who has been retained by the company as consulting

engineer, estimates the cost of erecting the pulp and paper mills, and of developing the water power, at \$900,000. There is on the property a sawmill, equipped with the latest improved machinery, capable of turning out from 35,000 to 40,000 superficial feet of lumber in ten hours. The company has secured the services of Mr. William M. McIntyre, formerly mechanical superintendent for the Laurentide Pulp Company at Grand Mere, Que. Mr. McIntyre has had over twenty years experience in pulp and paper making, and will act as manager of the construction and operation of the mill.

PERSONAL.

The death is announced of Mr. Daniel K. McDonald, lumber merchant, Sunny Brae, N.S.

The death took place last month of Mr. Hugh H. Chalmers, government log scaler, of Bathurst, N. B., in his 68th year.

Mr. Robert Nobles, a well known lumberman, was taken suddenly ill at Fredericton, N.B., last month, and at last reports was in a precarious condition.

Mr. Wm. J. Rogers, Inspector of Timber for the British Admiralty Department, left England for Canada on April 24th. For the summer he will be located at Quebec.

The Conservative Association have nominated Mr. J. W. Pearce, of the Pearce Company, Marmora, Ont., as the candidate for Hastings at the provincial election.

Mr. George Porter, who has been manager of Victoria Mills at Truro, N. S., for some years, has accepted a position with Mr. Alfred Dickie, and will manage his lumber interests at Ship Harbor, N. S.

Mr. Albert McGowan, who has for some years been treasurer of the Davidson & Thackray Association, of Ottawa, was recently presented by the members with a gold locket as a token of appreciation of his valued services.

The Liberals of the New Ontario Coast, Fort William and Lake of the Woods have some time ago elected Mr. D. C. Cameron, manager of the Rat Pulp Lumber Company, to contest that riding at the provincial election this month.

Messrs. William Craig, Allan Craig, and John Simpson left Dunchurch, Ont., on April 9th, after a boom of logs in Whitestone Lake. Their boat was crushed by the ice and sunk, Mr. William Craig, owner of the saw mill at Dunchurch, being drowned.

Mr. James Kennedy, of Parry Sound, who was in Ingram River, N. S., last fall to superintend the logging of the Beardmore Lumber Company's saw mill at that place, is about to remove his family to Nova Scotia. It is understood that he will build another mill for the same company in Newfoundland.

Mr. Alonzo W. Spooner, who has for many years been connected with the oil business, has associated himself with the Grant Hamilton Oil Company, of Toronto, in the capacity of Secretary-Treasurer. The success which has attended Mr. Spooner's past will no doubt continue with him in his position.

Mr. H. H. Spicer, manager of the Spicer Saw Mill Company at Vancouver, B. C., is at present journeying in Southern California for the benefit of his health. Writing from Pomona, Cal., to the CANADIAN LUMBERMAN, Mr. Spicer says that he has a number of Canadians down there; in fact, he says there are too many there, as well as in other parts of the United States, for the good of Canada. The small town near Pomona called Ontario which, he told, was started by Canadians. Mr. Spicer's friends earnestly hope that he may be greatly benefited by the vacation.

Messrs. McEwan & Munro, of Moose Creek, have sold out their lumber business at that place to T. Gagnon.
