JARDINE TOLD DOCTOR HOW MURDER WAS DONE

The Girl Slipped on Cellar Steps and Struck Her Head, When a Sudden Impulse Seized Him and He Whipped Out Knife and Did the Deed.

GODERICH, April 13.—Dr. Bruce Smith, inspector of prisons, on trial to-day, told of the confession which he declared Edward Jardine on the stand for murder made to himself and Dr. A. J. Johnson, of Toronto.

"I have made private investigations," he said, "and believe that Dr. Merchant's report will contain revelations that will be startling. At any rate, I will be able to read the report intelligently and to know if it tells the whole truth or not."

"Then I could not help her, for I had a cane. I came right down after her. Instantly the devil got possession of me and I put my hand into my hip pocket and drew out a brown or black handled knife. I put it into her throat once, and then I put it in again and drew it all the way through her neck, and she fell down dead."

"I washed off the blood," Jardine said he got no blood on his clothes, but got some on his hands and knife, which he washed off at home. He did not know anything about the wound on the girl's head.

"For this crime I committed," Dr. Smith believes Jardine to be a sexual pervert, but responsible. The defence opened tonight and introduced two doctors. Dr. Smith declared Jardine went mentally, but responsible. Dr. Herald Goderich contended in the theory that a person in the circumstances would not know right and wrong at the exact moment of committing the crime.

GAS MAIN ON FIRE. A gas main broke at the corner of Gore vale and Queen at midnight and gas caught fire, going up to the height of ten feet. The firemen, who were unable to extinguish it with water, heaped mud on it to good effect.

DEMOCRATS PLAN MORE TARIFF REVISION

Now Determined on Reduction of Agricultural Schedules—House of Representatives Passes Resolution for Direct Election of United States Senators.

(Canadian Press Despatch.) WASHINGTON, April 13.—Encouraged by the smooth working of their new legislative machinery, which to-day began to grind, Democratic leaders of the house are planning to extend their tariff revision program. Until this time the only tariff tinkering determined upon included Canadian reciprocity, the free list to benefit the farmers opposed to the revision bill as it stands, and the wool and cotton schedules, but now it has been determined to revise the agricultural schedules.

The house of representatives by a vote of 168 to 16 passed early this evening the Rucker resolution providing a constitutional amendment for the direct election of United States senators. This is the first of the program measures passed by the house. Backed by a solid Democratic majority, it went through without modification and with a speed that brought protest from the republicans.

The resolution as the house approved it in the form of the Moore resolution reported by a senate judiciary committee in the closing days of the last congress. Republican opposition to the Rucker resolution in the house to-day was based on the fact that it did not contain the changes afterwards made in the Rucker bill, which assured to congress continued control over elections in the several states.
