DROP HEAD SEWING MACHINES AT \$21.00 TO MARK 21st ANNIVERSARY SALE OF SEWING MACHINES

Today and Thursday in the Sewing Machine Department, Second Floor, Furniture Building

Twenty-One Years Ago This October the EATON Sewing Machine Department Was Opened Up---And in That 21 Years of Sewing Machine Selling There's a History of Growth and Progress Which Well Bears Out the Principles on Which It Was Founded, Namely, "Good Value and Square Dealing"

Our \$21.00 Sewing Machine 21 Years Ago

The illustration to the left is one of the first sewing machines sold by the T. EATON CO., and by coincidence, its price was \$21.00. This machine has been in continuous use in a Toronto home for the 21 years.

At our request—we wished to obtain it for display purposes—the owner consented to part with it in exchange for the best modern machine in our stock. Even then she would only relinquish it on condition that if at any time she preferred to have her old machine we would return it to her.

Another great feature, and one that will be of interest to many who are planning a campaign of household or patriotic sewing, is the offering of 200 drophead sewing machines Wednesday and Thursday at \$21.00—as shown in the illustration on the right. This machine is a special offering to celebrate the anniversary, and to emphasize the remarkable values which have ever been the keystone in the structure of progress.

Modern Drop-Head Machine, Today and Thursday, \$21.00

That a machine in such good design and with such modern improvements should be offered at \$21.00—the same price at which machines were sold 21 years ago, and that in spite of the well-known advances in costs of materials and making, transportation difficulties, etc., is an almost sensational event.

These machines are guaranteed for ten years. The working parts are specially hardened, ball bearings are placed at all speed points, making it light-running and easy to operate, and the careful, up-to-date construction eliminates almost all vibration. The drop-head is fitted with an automatic lift, which permits of its being brought into position, ready to sew, with one motion.

The machine has a positive, self-adjusting feed, making a perfect stitch, and has a self-threading shuttle. It is fitted with four drawers to hold the necessary sewing requisites, while an 18-inch tape measure is embedded under the varnish on the table in front of the sewing head, which will be found a very convenient feature. The cabinet work is well-seasoned quarter-cut oak in a rich golden finish.

A full set of attachments and instruction book go with this handsome and reliable machine. Anniversary Sale price, today and Thursday, \$21.00.

Blankets from Scotland—don't the very words suggest soft, woolly warmth and sure reliability? Of course, you need not be told of the many excellent qualities of Scotch blankets. Does it not seem that all our lives we have known that they stand for a very perfection in blanket-making?

The Bedding Department has just received a large shipment of the well-known "Lammermoor" make—blankets purchased nearly a year ago, before the raise in prices, and in consequence, representing values it would not be possible to obtain at the mills today.

Owing to the scarcity of dyes in Great Britain, and in conformity with the wishes of many customers, the greater portion of these Scotch blankets are all-white, the usual striped borders having been omitted. The edges are whipped singly.

The following items cover the range of sizes, weights and qualities in the offering. The approximate size and weight per pair is quoted in each instance:
