## ELECTRICAL REGULATIONS.

**Manufacturers Decide to Support the System of Outlet Boxes.**  
A largely attended meeting of the members of the Electrical Industries' Association of the city was held in the rooms of the Employers' Association yesterday afternoon. Gray & Co., Rogers Electric Co., Jas. Morrison Co., Reeves-Jackson, John Ritchie Co. and McDonald & Willson. The object of the meeting was to secure the standardizing of all the electrical interests of the city and discuss ways and means for the carrying out of the more stringent provisions of the latest bulletins issued by the Canadian Fire Underwriters' Association. It was decided that the same go into effect when some details now under consideration are finally settled. The date of the approval will be announced at a later stage. All the other requirements of bulletin 8 were unanimously adopted. On motion of Messrs. Taylor and Shields the hearty thanks of the meeting were accorded to Chief Inspector Strickland of the Canadian Fire Underwriters' Association by the members present.

## LONDON BRIBERY CASES WILL NOT BE TRAVERSED

Crown Ready to Go on When Reached Next Week—Grand Jury Adjourns.

After returning true bills against Oscar Rinker for theft of \$46 and Nick Wagner for perjury, the grand jury at the criminal assizes yesterday adjourned until next Monday, when the London conspiracy case and the O'Meara and Lewis perjury cases will be dealt with.

Mr. Lynch Staunton, K.C., of Hamilton, who will conduct the conspiracy prosecution, stated to The World last night that he would be ready to present the case to the grand jury at the beginning of the week.

"It is generally understood that the London conspiracy charges and the perjury cases against John O'Meara and Tom Lewis will be traversed." "That is all wrong," was the reply. "The crown are going right on with the charges, at least those are my instructions. There was some delay, of course, owing to the change in counsel, but that will make no difference and these cases will not be traversed."

Two civil cases were disposed of before Justice Britton yesterday, and it has been announced that the Bridan murder trial will commence the first of the week. The conspiracy charges will not go on until the week following.

Mrs. Lillian Miller appeared for removal of bail of \$4000 on the charge of supplying drugs and instruments for an illegal operation. This case will come up immediately after the Bridan murder trial.

John Murphy of D'Arcy-street, who fell off a street car in June, 1905, sustaining a severe shaking up, was awarded \$300 damages against the Toronto Street Railway. He sued for \$2000.

Richard Scott of 110 Elm-street is suing for \$2500 damages from W. H. Burchard & Son, box manufacturers, for injuries to the thumb of his right hand, while working a rip saw. The jury will return a sealed verdict when court opens this morning.

The case of Irvine v. Prendergast will probably be concluded before Chief Justice Mulock at the non-jury assizes.

### RAILWAY TAXATION.

Amounts to 8 Cents Per Head in 1901 Census Population.

Eight cents a head on the census population of 1901 is the ratio of railway taxation to be paid by the province to the municipalities under the act of last session of the legislature. For each non-paying patient in any asylum the municipality to which such patient belongs will contribute from this allowance ten cents a day. The amount collected from the steam railways was \$375,683 for 1906, against \$191,990 for 1905. For the expenses of the railway board \$20,000 is deducted, and half of the balance of \$172,844 will be distributed as above stated. The province retains the rest. The municipalities will receive about twice as much as formerly.

### TEXT BOOK COMMISSION REPORT.

The text book commission sat yesterday at the Normal school and engaged in consideration of the evidence recently taken. The full text was before the commission, and Chairman T. W. Crothers allowed it to be understood that the report was under way. An announcement will shortly be made as to the procedure to be adopted in dealing with the sale of text books during the interval which must elapse before the issue of a new set.

### "GUINEA GOLD VALUER."

**Secret's 'TWEEN TIMES SPECIALS**  
We'd like to get our full profit on everything we have to sell. But—to-day that's just about a merchandizing impossibility. Lines break up in the sizes and leave the storekeeper with odds and ends—a few of this—and a few of that—a little lot here and a little lot there—and to keep stock clear and up-to-date means price cuts. We're making substantial reductions in many lines of high class haberdashery this month, including Neckwear—Gloves—Underwear—Shirts—and other things. Store closes at one o'clock Saturdays in January and February.

### NO RECONCILIATION YET.

Definite Legal Action to Be Taken by Marlboroughs Soon.

London, Jan. 9.—The presence here of some members of the family of the Duchess of Marlborough, who was Consuelo Vanderbilt, and the expected arrival of Reginald Vanderbilt and others, has led to various reports concerning the differences between the duke and the duchess, one announcing their reconciliation and another that a deed of separation had been signed. As a matter of fact, there has been no reconciliation and there is not likely to be, although some friends of the Marlboroughs are still working to that end. The report that a deed of separation has actually been signed is equally untrue. There have been almost continual exchanges, however, between the legal representatives of the pair, and some definite legal action fixing the future relations of the couple is expected shortly. It is believed that this action will involve the custody of the children and financial arrangements. As soon as this step is completed the duchess, accompanied by her mother and brother, will go on a yachting trip to the Mediterranean.

### ASSESSMENT REDUCED.

Niagara Suspension Bridge Co. Will Pay on \$135,000 Only.  
The assessment of the Niagara Suspension Bridge Co. was reduced by the municipal and railway board to \$135,000 yesterday, as a result of the recent appeal. It was also decided that the upper part of the bridge, used exclusively for railway purposes, was assessable. This is contrary to the bridge company's contention. The decision will have an important bearing on assessment rulings elsewhere.
