MAYOR IS AGAIN REPULSED

In His Second Attempt to Outflank
Crown Attorney Curry and
His Dual Positions.

THAT EARLY CLOSING BYLAW

Will Not Be Enforced, Pending the
Appeal-General Topics From
the City Hall.

Mayor Macdonald at the Board of Control yesterday thought he would give Crown Attorney Curry another fall. But the Board came to the conclusion that it was not worth the trouble.

The Mayor said: Are you content with the action of the Council in reference to Mr. Curry? Would you repeat the recommendation of this board?

Ald. Spence: I have had no change of mind.

The Mayor: All the members of Council were not present. The vote taken was only one of 7 to 7. It was a sparse meeting.

Ald. Spence: I can hardly think that the Board of Control ought to send back the recommendation that the Council has already dealt with.

Ald. Sheppard said he had been obliged to leave the Council meeting before the vote was taken.

Ald. Spence: The resolution that carried in Council expressed disapproval of Mr. Curry's conduct, although it was very mild compared with ours.

Ald. Bowman also admitted that he was not in the Council chamber when the vote was taken.

Ald. Sheppard: I think the resolution as it went thru will answer the purpose intended.

The other members were of the same view, and the matter dropped.

That Topeka Trip.
Mr. Taylor was present to explain the alleged advantages of the Topeka trip.

Mr. Taylor said he had been to Topeka, Kan., and had been very much pleased with the results of the trip.

Ald. Bowman moved that Mr. Taylor be paid the expenses of the trip.

The Mayor said he had received from Ottawa a copy of the order-in-council with regard to the Landsdowne-avenue crossing.

Ald. Bowman moved a resolution instructing the Works Committee to take immediate action under the order. This was adopted without discussion.

The Early Closing Bylaw.
The head constable reported to the Mayor the opinion of the county judge that the bylaw would be inadvisable to enforce the early closing bylaw, pending the appeal.

The Mayor: It is the poorest class of the storekeepers who are fighting the bylaw.

The board endorsed the Mayor's answer to the head constable, leaving the matter with the Police Commissioners, pending the appeal.

Augustus Webster's window had been broken by a ball, and he wrote a weighty letter to the Mayor, protesting against boys being allowed to play on the streets.

Ald. Bowman: I move that we demand that this man give up the ball.

The Mayor: There is a serious side to this matter. The city ought to supply playgrounds for the children of the city. All the controllers thought likewise.

NORTH AMERICAN LIFE

Wants to Do Business in New York State and There Are Some
Protests.

Anbura, N.Y., May 11.—At the request of State Superintendent of Insurance Francis Hendricks, the Attorney-General has rendered an opinion relative to the application of the North American Life Insurance Company of Toronto, Canada, to transact business in this State, in which he holds that the fact of the capital of a foreign life insurance corporation not having been paid in, or that at least the sum of \$100,000 of its capital has not been paid, is not of itself sufficient grounds to refuse such corporation admission into this State to conduct the business of life insurance.

The Mayor: Put it in a by-law.

Superintendent Hendricks, being in doubt as to whether or not he could under the Insurance Act extend a license to a corporation that has not a paid-up capital of \$100,000, wrote and asked the State Department to advise him.

The Attorney-General says: "I would not refuse to attach such a license to the charter of any such corporation on the grounds of such failure of capital. It seems to me that it is quite immaterial what amount of capital has been paid at the time of the incorporation, as long as a guarantee and protection to its policyholders, which in effect becomes the American capital properly applicable to the satisfaction of policy claims."

Upper Canada Trust Society.
The Board of Directors held their monthly meeting Thursday night, with the Rev. G. Weber in the chair. During March and April the co-optors of the society sold no less than 470 copies of the Scriptures and 490 volumes of the Bible. The society has been very successful in its work.

During the past month Dr. Moffat, the secretary, visited Chatham, Milton, Brampton and other places and gave 32 sermons and addresses on behalf of the steadily advancing work of the society.

Engineers Censured Freedman.
Milwaukee, May 11.—Judge Freedman of the New York Supreme Court was censured at the hands of the Brotherhood of Locomotive Engineers at last night's session. "That Wild Man."
Illustrated London News: Professor Goldwin Smith has come out as a pro-Boer of the South African war. He is regarded by masses of people in England as "a new kind of king," that is, a man who is not a member of the ruling class, and that if they are punished the civilized world, and he is a man who is not a member of the ruling class, and he is a man who is not a member of the ruling class.

FISCHER WANTS ARBITRATION
Before an Impartial Tribunal—No
"Impartial" Tribunal Can Be
Found in Britain.

London, May 11.—(4.35 p.m.)—Mr. W. T. Stead, who was the last man in Europe to bid farewell to the Boer delegates, obtained from Mr. Abraham Fischer (a member of the Orange Free State Executive Council and one of the delegates), a message to the American people, which is practically in the same words as the message previously sent thru the Associated Press. Mr. Fischer, however, added: "The Governments of the United World appear paralyzed. We hope to find a different state of things in the New World."

"We know at the very time the Jameson Raid threatened the independence of the Transvaal that the American Republic succeeded in inducing Great Britain to submit to arbitration a question which involved, not her existence, but the frontier interests of the Republic of Venezuela. As you obtained arbitration for Venezuela after England had declared it was impossible, so we venture to hope the free, enlightened public opinion of the American Republic will succeed in inducing the power attacking our very existence to stay her hand and submit the question of the future government of this region to the free judgment of an impartial tribunal."

The Humane Society.
A letter was read from the City Engineer at the monthly meeting of the Toronto Humane Society, held yesterday afternoon, stating that all the fountains and horse troughs were ready for use before the rainy weather sets in. At the present time there are 112 of these fountains and troughs distributed throughout the city. All the new fountains to be erected will have dog troughs attached. It was decided to distribute 200 copies of "Our Dumb Animals" in the various schools, in the hope that children may become interested in works of kindness to dumb animals.

Mrs. S. G. Wood reported in reference to the necessity of having additional lethal chambers established for the humane destruction of animals. She said that they would likely be provided in the summer.

Inspector Chalmers, in his report, stated that he had visited the Cattle Market and slaughter house and had interviewed the parties who were reported for cruelty. There were three complaints in the Police Court, the one in case being \$25.

Who Shot the Buildings?
A strange incident which occurred at the Parliament Buildings a few nights ago, and which has just leaked out, was the discovery of a small round hole thru the huge window of the Good Roads Department, to the west of the main entrance and facing the walk. The hole is exactly such as might have been made by a bullet, and was put there before the extra night guards were put on a few days ago.

Chief Grasset Returns.
Chief Grasset returned yesterday afternoon from Cincinnati, Ohio, where he had been in attendance at the seventh annual meeting of the International Association of Chiefs of Police of the United States and Canada. The meeting, which began on Tuesday, was the most successful in the history of the organization. Instructive and interesting papers were read by several of the members. The city prepared a most excellent program for the entertainment of the visitors, one of the features being a parade of the local police force. Included in the equipment of the Cincinnati Police Department is a gatling gun, and this was used to fire the salute on the arrival of Governor Nash. Canada was represented by the meeting by Commissioner Sherwood of Ottawa, Chief Smith, Hamilton, and Chief Grasset, Toronto. The next gathering will be held in New York City.

Will the "Jolly" Game Work?
Ahmed Pasha is going to Washington. With the object of settling a Stand-Off of Indemnity Claims. Constantinople, Thursday, May 10.—The matter of the settlement of the indemnity claims is temporarily delayed. Well-known clerics say that the Turkish Minister in Washington, Ali Ferid Bey, has given assurances of the settlement of the claims, but asks for a short delay, which is granted.

Ahmed Pasha has left Constantinople. He is going to the United States with proposals of the claims in an indirect manner. In the event of the failure of Ahmed's proposals the United States Government will resume negotiations with the Porte. The impression here is that Ahmed will not succeed.

The Porte has presented a new note to the Embassies, announcing its intention to introduce the Ottoman in Gallipoli. The object of this movement is believed to be to establish a precedent for the subsequent imposition of like duties in old towns.

It is expected that the Embassies will again refuse to assent, as the measure is contrary to the treaty.
