

country who are privately engaged in teaching music, and public school teachers, whose principal opportunity for taking lessons and perfecting their musical studies is during the summer vacation. The course of instruction will be found to be peculiarly adapted to the necessities of these students, and will be made as comprehensive and thorough as the limited time will permit. Those intending to enter the Conservatory for this course are requested to notify the Director, in advance, and, if possible, state what particular branches of study they wish to pursue.

Residents elsewhere desiring to come to Toronto and study in the Conservatory during the Summer Normal Session, need not be deterred through a fear of excessive heat. And it may be well to mention here, that owing to the charm of its summer—cool and yet not cold—its water privileges, its proximity to Niagara Falls, and the frequency of private, society, and public excursions there and elsewhere, both by rail and by steamer, Toronto has become a recognized summer resort. Students of the Conservatory can have abundant opportunities for participating in many of the popular forms of pleasure at a very moderate expenditure.

Regular students of the Conservatory desiring to do so may continue their ordinary studies without interruption through the Summer Normal Session.
