JUST PUBLISHED,
Price 2s. Sterling,
THE SCIENCE OF LIFE;
OR How to Live and What to Live for; with ample rules for Diet, Regimen, and Self-Management; together with Instructions for securing Perfect Health, Longevity, and that sterling state of Happiness only attainable through the judicious observance of a well-regulated course of life.
BY A PHYSICIAN.

OPINIONS OF THE PRESS.
"There is a vast deal of good sense in this little volume. The rules relating to the important operation of eating are admirable. The moral rules are as good as the physical, and the writer is well entitled to be heard."—*London Atlas.*
"The work before us is written in a plain homely style, and the information which it contains in connection with all matters relating to health and diet, is of an extremely valuable and useful kind."—*Sunday Times.*
"A little book abounding in sound, sensible, and practical advice for the management of health from infancy to old age. The writer's instructions are eminently judicious. This is a manual which every household should possess, and which young and old will read with profit."—*Critic.*
"Here we have sure and practical rules laid down for adoption, which, if followed accurately, will tend to the comfort if not to the longevity of life. As a manual for general use, it is so prepared as to avoid everything that is offensive, whilst treating upon topics requisite to be considered."—*Bell's Weekly Messenger.*
"The design of this essay is extremely laudable, it being intended to promote a most useful and important study—the study of diet and morals—which is at present too much neglected. There are scattered through the work several useful and important observations."—*Weekly Times.*
Sold by Messrs. H. CHUBB & Co., St, John, N. B.; and MORTON & Co., Halifax, N. S.—Price 2s. sterling.
2d April, 1850.—6w.
