by Prof. McCallum. Hear it at the Royal Baseball Benefit Concert tonight at South End Club. 4-26

WINNING NUMBER OAK HALL BICYCLE CONTEST IS 1649

Harold Henderson, 129 Rothery Ave., Casts the Lucky Ballot—Presentation 4.30 Wednesday Afternoon.

The Oak Hall bicycle contest that has been running for the last three weeks, ended last Saturday night. Out of the thousands of ballots that were cast, Harold Henderson, a young twelve year old lad of 179 Rothery avenue, was the only boy to estimate the exact number of cents in the jar, which was 1649, and so he will be the happy winner of the Cleveland bicycle, which will be presented to him at Oak Hall on Wednesday afternoon at 4.30 o'clock.

GARDENS ON MONDAY, WEDNESDAY AND SATURDAY
All garden patrons are now familiar with the fact that there are but three sessions weekly, and every Monday, Wednesday and Saturday large crowds are in attendance. Watch for Novelty Flower Night, Wednesday.

SALT TO COVER THE EARTH.
Enough Salt in Ocean to Bury Land One and One-Half Miles Deep.

The ocean contains enough seasoning material to form a block of salt measuring 4,800,000 cubic miles. More graphically expressed, perhaps, is the measurement which indicates that there is sufficient salt in the vast bodies of water to form a crust more than one and one-half miles deep over the entire surface of the United States, barring Alaska. Or, expressing the volume of saline matter present in the sea in a third form, one per cent of the seasoning contents of the ocean would envelop the dry lands of the universe to a depth of 280 feet.

Some imaginary calculations, you exclaim! No, these are the figures of the Geological Survey of the United States Department of the Interior.

G. E. BARBOUR CO., LTD.

Here's an enterprising St. John firm which has made itself into one of the largest distributors of food products in the Maritime Provinces.

We know of the heaviness of their orders for lithographed labels.

One of these is for a coupon in colors to be inserted in their packaged products. It presents a list of their products and is an effective way to capitalize the good will created by one product for the benefit of others in the same family.

PORT OF QUEBEC NOT FULLY USED

Elaborate Equipment Made Use of Only During Short Season—A Remedy Being Sought.

What is the port of Quebec doing in facilitating the outward movement of grain from Canada, after, incidentally, how is that port contributing to the business of the Canadian National Railways, and how can the facilities there be improved?

These important questions, asked by Sir Henry Drayton and incorporated in an order to return, are answered in a statement tabled in the House of Commons at Ottawa last week.

So far, the total sum of money advanced by the Federal Government to the Quebec Harbor Commission is \$11,145,795.68, and it is reasonable to expect that this large Federal investment in port facilities should be used to the greatest extent for bettering the business position of the Government railways entering there, as well as helping to move to the world market Canada's most valuable product.

Quebec's port facilities are enumerated as follows: One grain elevator with a capacity of 2,000,000 bushels; a loading capacity to ships of 60,000 bushels per hour; twenty-two ocean and coasting berths, five of which are grain berths; twelve landing sheds with a combined floor area of 836,938 square feet; four locomotives operating on sixteen miles of tracks to all ship berths and sheds; also cars and railway equipment; a fifty-ton floating crane and locomotive cranes with capacity up to 88 tons.

The terminal and wharf facilities, it is pointed out, are not always fully utilized, but all of these different berths are used at intervals during the season of navigation. The five grain berths in wet docks are almost constantly used by coasting vessels and coal carriers.

As to grain berths, the loading capacity to ships is 60,000 bushels per hour with the possibility of 20 hours in each 24. The unloading capacity is 80,000 bushels per hour for the same number of hours. Regarding other berths, their possible daily loading capacity is limited by the area of the landing sheds, 836,938 square feet, fed by the commission's plant. The five grain berths were used during only four weeks last season, during which time 4,000,000 bushels of grain were shipped. They were idle during the remainder of the season.

To increase the handling capacity at Quebec, the statement concludes, a large number of works are planned for this year, which, when completed, should enable the port of Quebec to more fully repay the amount of money expended there, and enable the Canadian National Railways to greatly increase their operating revenue.

COLLECTS \$500,000 BUSINESS INSURANCE IN THREE YEARS
(Insurance Field, March 31.)
August J. Bulle of Kansas City, one of the five lost in the sea-plane disaster off the coast of Florida, carried \$200,000 corporation insurance payable to the Larrabee Flour Mills Corporation of Kansas City.

He was one of the three officers of his concern on which application was made in 1919 for corporation insurance for \$800,000, the other two being Frank and Fred G. Larrabee.

The following March Fred Larrabee died and \$200,000 was paid. The application of Frank G. Larrabee was held up until September, 1920, when he obtained a \$100,000 policy. He died in June, 1921.

This makes a total of \$500,000 corporation insurance collected for this concern on which total premiums were \$17,000.

For Fifty Years

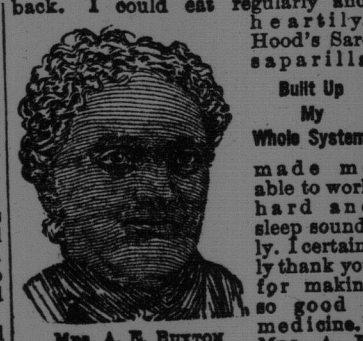

Mother Seigel's Syrup has been the world's remedy for indigestion, and it is still the best and cheapest of stomach and liver tonics.

The medicinal extracts of various roots, barks and leaves restore the natural efficiency of the digestive organs and it has banished the numberless cases of pain after eating, headaches, flatulence, acidity, biliousness and constipation. Sold in 50c. and \$1.00 bottles at drug stores. 9-221

Is Your Blood Good Blood Or Is It

Weak, Sluggish, Thin, Watery, back. I could eat regularly and without any Snap or Vitality? You can tell by the way you feel. You need Hood's Sarsaparilla to make your blood rich, red and sparkling with health for every organ and tissue. You need it if weak and tired day in and day out, if your appetite is poor, sleep unrefreshing, if humors, boils, eruptions, scrofula, rheumatism, headaches, nervous prostration. It is simply wonderful to give strength to your whole body. Why would you not get all the help Mrs. Buxton did and more? Read her letter:

"I had that tired feeling, and when I went to bed I could seldom get to sleep or have a good night's rest. I had no appetite, and what little I did eat caused me distress. The first bottle of Hood's Sarsaparilla did wonders for me. The second feeling went away, my appetite came

Mrs. A. B. Buxton
Buxton, Rear 526 Queen St., East, Toronto, Ont.
Hood's Sarsaparilla has been known as a good family medicine for nearly 50 years. You need it now as a tonic and blood purifier.

Alkali in Shampoos Bad for Washing Hair

Don't use prepared shampoos or anything else that contains too much alkali, for this is very injurious, as it dries the scalp and makes the hair brittle.

The best thing to use is just plain Mulford's coconut oil shampoo, for this is pure and entirely greaseless. It's very cheap and beats anything else all to pieces. You can get Mulford's at any drug store, and a few ounces will last the whole family for months.

Simply put two or three teaspoonfuls of Mulford's in a cup of glass with a little warm water, then massage the hair with water and rub it in. It makes an abundance of rich, creamy lather, cleanses thoroughly, and does not dry the hair. The hair dries quickly and evenly, and is soft, fresh looking, bright, fluffy, wavy, and easy to handle. Besides, it loosens and takes out every particle of dust, dirt and dandruff. Be sure you get Mulford's. Beware of imitations. Look for the name Watkins on the package.

BUSY WEEK FOR THE COMMONS

Ottawa, April 23.—Great interest is centering around the railway estimates, which will be taken up in the house of commons on Tuesday, according to an announcement made by the premier. It is expected that the railway estimates will occupy the better part of the week.

Among members the importance of the railway estimates is only overshadowed by Hon. Mr. Fielding's forthcoming budget speech which is expected to follow shortly after the conclusion of the railway debate.

The gravity with which the house regards the situation surrounding the proposed reorganization of the Canada wheat board is evinced by the decision of the committee on agriculture and colonization to sit longer hours, beginning on Monday.

DENIAL BY VATICAN

Rome, April 23.—The Vatican denies any treaty between it and Soviet Russia. It was learned at the Vatican today that there has been no re-establishment of diplomatic relations with Russia.

The holy see is preparing to send an expedition of Jesuits and others to Russia on work purely in connection with the success of the famine-stricken regions. The expedition will have no missionary or other religious aims.

YOUTH KILLED BEATING HIS WAY FOR A THRILL

Son of Prominent Bloomfield (N. J.) Man—Kept off Fast Train's Roof at Yonkers.

(New York Times.)
Coroner Edward Fitzgerald of Westchester County, was called to Yonkers yesterday to investigate the accidental death of George B. Gavin, Jr., seventeen years old, son of a prominent resident of Bloomfield, N. J., who was killed early today while on the top of a fast New York Central train.

With Kenneth Doolittle, nineteen, of 389 Randolph avenue, Jersey City, Gavin climbed aboard the "Buffalonian," when it stopped at Yonkers, and got on the roof of a sleeping car. They failed to see the Ashburton avenue bridge that spans the tracks a mile north of the Yonkers depot and the Gavin boy was struck by the bridge and thrown against Doolittle. The latter fell down between two cars and clung there. Gavin, whose skull was fractured, fell to the track below. He was probably killed instantly.

Both youths were bound for Albany to visit relatives. Doolittle said they had money and there was no need of their beating their way, but that they wanted a thrilling adventure.

VETERANS OF THE FIRST CONTINGENT

The members of the first contingent met at the Armories on Saturday night in the officers' mess and held their customary observance of the anniversary of the second battle of Ypres. The entertainment took the form of a smoker this year and there were present about forty members of the first contingent, besides their friends. The guests of honor were Colonel A. T. Ogilvy, members of the headquarters staff, and Mayor Schofield, Dr. G. B. Peat, the president, was in the chair, and there was a general interchange of overseas reminiscences. Songs were sung by Jack Rowley and F. J. Punter, and some of the members gave recitations, all of which were much enjoyed. An exhibition boxing bout was staged by two of the visitors.

In a short business session, officers for the coming year were elected as follows—President, Mayor J. F. McGowan; secretary-treasurer, Mr. Bothwell.

Mayor Schofield invited all the members to be his guests at a banquet at the next annual observance, and this invitation was accepted with much pleasure. It was decided to give the cup which the ladies of the city had presented to the members of the first contingent to the care of Mayor Schofield in order that he might have it displayed in a public place some time before the next annual meeting.

ENTERTAINED THE D. S. C. R. PATIENTS

The members of the Lend-a-Hand circle of The King's Daughters provided a splendid treat for the soldier patients in the D. S. C. R. hospital in Lancaster on Saturday night when they gave a fine programme and served refreshments. The three singing cheers and a tiger which were given in honor of the members of the circle at the close of the evening plainly declared the gratitude and appreciation of the patients. Mrs. G. Wilford Campbell, the president, was the chairman for the evening and the programme was arranged by Mrs. John Bullock and Mrs. Leslie Watters. Mrs. H. B. Peck contributed several readings, Miss Verta Roberts recited, two little girls danced the Highland Fling, with Miss Muriel Hawker as pianist, and songs by Mrs. Leslie Watters, Miss Ingham and Miss Tobin were enjoyed. Each number was heartily applauded. The soldiers sang several choruses with much enthusiasm and one soldier executed a fancy dance. The entertainment was a happy event and greatly enjoyed. All the members of the circle had some part in making the treat such an unqualified success.

CHURCH PARADE OF THE BOY SCOUTS

Attracting much attention with their smartness on the march, the Boy Scouts of the city, to the number of between 800 and 400, paraded to church yesterday morning as a celebration of the birthday of the patron saint of the association, St. George, and an observance also, St. Mary's band headed the parade which formed up to the east of King square and marched off along the south side of the square, down King street, along Mill street and Dock street and up Main street. In Main street the parade divided, the Anglicans going to St. Luke's church, the Baptists to Victoria street church and the Presbyterians and Methodists to St. Matthew's church. It was the first time the scouts had made so large a demonstration of their birthday celebrations, and the innovation was a great success, both as regards creating interest in the scout movement and in bringing the scouts together.

At St. Luke's church Rev. E. P. Wright, the curate, delivered the sermon to the scouts, taking as his text, "Be thou faithful unto death," and explaining that the corporate body of the church had the three-fold purpose of honoring the patron saint, celebrating the birthday of the scout movement and worshipping God. In the story of St. George, he said, he found an example for the scouts to emulate in the present time. There were about 200 scouts and their leaders at the service at St. Luke's church, and at each of the churches where the scouts attended in a body their presence gave a special inspiration to the service and appropriate sermons were delivered.

Rev. G. D. Hudson addressed the boys in Victoria street on "Lost Opportunity" and Rev. W. H. Spencer spoke to the boys in St. Matthew's church. Rev. Canon A. W. Daniel, in St. Paul's church, also spoke especially to the scouts who had paraded to church in Rothery.

ROBBERY OF \$600.
Malden, Mass., April 24.—Three young men, masked and armed, robbed Joseph Hart of \$600 in jitney fares as he turned into his door-yard. Hart, who operates the local bus line, was returning home after his last trip, when the men sprang at him from behind trees. Hart, holding fast to the money bag, grappled with the bandits but dropped the money when one of them fired a shot. The men seized the bag and fled. Patrolman John Murphy and a civilian who were standing on a nearby corner, heard the shot, saw the men run and gave chase, but the bandits escaped.

TURKISH WOMEN TOOK 25 PRISONERS

Constantinople, April 23.—A Turkish woman has been given the rank of lieutenant in the Nationalist army, earning her promotion in action against the Greeks, says an Ankara despatch. This is the highest rank ever held in the Turkish army by a woman.

Fatma, the lady in question, was a corporal when she led a patrol composed almost entirely of women in an attack on the enemy's rear and returned with twenty-five prisoners, including an officer.

ONTARIO PRIEST FATALLY HURT

Toronto, April 23.—Rev. Father A. J. Staley, parish priest of St. John's church at Weston, on the outskirts of Toronto and a brother of Rev. Father Staley, St. Michael's College, is in a dying condition at St. Michael's hospital from injuries received when an automobile was driving collided with a street car. Father Staley was proceeding along Bloor street when his car was seen swerve. It was struck by terrible force by an oncoming street car, the unfortunate occupant being thrown forward into the street. The skull was badly fractured when his head struck the pavement.

The Easter meeting of the W. M. S. o. Zion church was held on Friday evening at the residence of Mrs. Charles Berryman, of 20 City road, with Mrs. W. B. Thomas presiding. Mrs. Watt, Miss F. Wilson and Miss Ruth Wood took part in the musical programme and Mrs. A. L. Fleming, wife of the rector of St. John's (Stone) church, gave an address on missionary work among the Eskimoes. Refreshments were served under the convenship of Mrs. Hannah.
