

WEALTHY RANCH OWNER SAYS LIFE WAS MISERABLE

Had Suffered Two Years —
Says Money Could Not Buy
Good It Has Done For Him
— Stronger Than For
Twenty Years.

"By the help of Tanlac I have gotten entirely rid of a case of stomach trouble and rheumatism that made life miserable for me for two years," was the statement made by I. C. Felger, a wealthy Calgary citizen, living at 523 23rd avenue, West, while in the Liggett-Findlay Drug store, recently. Mr. Felger, who is a large ranch owner, also owns considerable city property and is widely known and respected.

"It certainly speaks well," he continued, "for a medicine that will rid a man of my age of his troubles so quickly, for I am now sixty and, although I have just finished my fourth bottle of Tanlac, I am feeling fine already. For the past two years I have suffered from indigestion severely, and was also troubled with rheumatism in my back and hips so that getting about was difficult. My appetite was so poor that I had no relish even for the most tempting food. I would often have attacks of indigestion as gas on my stomach that would almost stop my breath. At night especially I would simply have to fight for breath and as a consequence I couldn't get sufficient sleep and rest. My back ached all the time and when this rheumatic pain struck me in the hip I could hardly walk. I was really discouraged, as the rheumatism was getting a firmer hold all the time and no relief in sight. Nothing I tried during those two years helped me and I had given up thinking there was no relief for me."

"I had not the slightest idea what Tanlac was, or what it would do, when it was recommended to me, but I certainly know now and money could not buy the good it has done me. Why, almost before I knew I had an appetite like a bear. I was afraid, at first, to eat as much as I wanted, but I gradually worked up to three rousing meals a day and soon got entirely rid of every sign of indigestion. Before taking Tanlac I could hardly get out of the automobile after a trip on account of the rheumatism, but now I can take long drives and enjoy them. Tanlac has not only rid me of the stomach trouble and rheumatism, but it has built me up so that I can stand up under work like I could twenty years ago. My friends often remark about how well I am looking these days and I always tell them that Tanlac is what has made the difference. I am glad to recommend Tanlac because I believe I am telling the people about a medicine that will help them."

REVISE TREATY OF BE-GIANS AND DUTCH

Paris, July 16.—(By the Associated Press)—July 29 has been fixed as the date upon which representatives of Holland and Belgium will meet delegates of the five great powers in Paris and begin work on the revision of the treaty of 1889.

GAS IN THE STOMACH IS DANGEROUS

Recommends Daily Use of Magnesia To
Overcome Trouble. Caused by Fer-
menting Food and Acid
Indigestion.

Gas and wind in the stomach accompanied by that full, bloated feeling after eating are almost certain evidence of the presence of excessive hydrochloric acid in the stomach, creating so-called "acid indigestion."

Acid stomachs are dangerous because too much acid irritates the delicate lining of the stomach, often leading to gastritis accompanied by serious stomach ulcers. Food ferments and sours, creating the distressing gas which distends the stomach and hampers the normal functions of the vital internal organs, often affecting the heart.

It is the worst of folly to neglect such a serious condition or to treat with ordinary digestive aids which have no neutralizing effect on the stomach acids. Instead get from any druggist a few ounces of Bisulphate of Magnesia and take a teaspoonful in a quarter glass of water right after eating. This will drive the gas, wind and bloated right out of the body, sweeten the stomach, neutralize the excess acid and prevent its formation and there is no sourness or pain. Bisulphate of Magnesia (in powder or tablet form—never liquid or milk) is harmless to the stomach, inexpensive to take and the best form of magnesia for stomach purposes. It is used by thousands of people who enjoy their meals with no more fear of indigestion.

FRANCE GRATEFUL TO HER SOLDIERS

Letter From President Poincare to
Premier Clemenceau—Last Mon-
day a Day Unique in History

Paris, July 16.—(French Wireless Service)—President Poincare, at the conclusion of the Victory parade on Monday, sent to Premier Clemenceau a letter expressing the country's gratitude to its soldiers.

"The popular feeling," President Poincare wrote, "has made no distinction between the champions of right; the popular feeling knows that the devoted co-operation grouped around the government of the republic and the Allied governments was needed to avert the most dreadful danger that ever menaced liberty."

"France may well be forever proud of the part she took in this universal war. Her army from first to last took part in the operations on the most extended and dangerous fronts; they had ever against them the most powerful and best organized armies; they accomplished prodigious deeds; they suffered the most terrible losses; they sacrificed to the future all that they could give it of the present."

"By them France has deserved that her national day henceforth shall be a date of glory for humanity. As I have in this divine moment the incomparable honor of representing the country, let me ask you to transmit on my behalf to the French armies the passionate expression of the public gratitude and admiration."

During the day President Poincare received messages of congratulation and of good wishes from King Albert of Belgium, King Alexander of Greece and others.

Paris, July 16.—(Havas Agency)—In the chamber of deputies yesterday, S. Paul Deschamps, president of the chamber, spoke in glowing terms of Monday as a day unique in history. He glorified the French soldier, dead and living, and praised the Allies.

"The moments we have lived," he said, "benefit will enlighten our entire life. We to those who would sow seeds of distrust among the nations which have mingled their blood. We to those who do not understand the sacred grandeur of such a lesson."

Premier Clemenceau, in the name of the government, said words could not express the emotion of the French people in viewing the immortal soldiers turning to their homes in their proud fatherland after having saved civilization.

RE-WED YEARS AFTER WOMAN GETS DIVORCE

Worcester, July 16.—Edwin R. Richards, aged fifty-five, of West Brookfield, and Mrs. Edith (Clark) Richards, aged forty-five, of 11 Irving street, were remarried here last week after being divorced for many years.

While they were living in West Brookfield Mrs. Richards divorced Richards and subsequently married Frank Mann, who died a short time ago. Richards remained single and soon after the death of his former wife's second husband he proposed remarriage.

Rev. Charles J. Jones of the Pleasant street Baptist church performed the ceremony, following which Mr. and Mrs. Richards left for West Brookfield to resume married life together in the home in which it was broken off by divorce.

STRIKE CAUSES A FREIGHT PILE-UP ON NEW YORK PIERS

New York, July 16.—Failure of coastwise steamers to leave port on schedule time owing to the strike of firemen, oilers and water tenders has resulted in a great accumulation of freight on the piers of the lines affected. It was estimated that 300 vessels engaged in coastwise trade were tied up here by the strike. Captain Frank Ferris, managing agent of the United States Shipping Board, seventy-one British and thirty-three Norwegian or Swedish.

Abbey's EFFERVESCENT SALT Makes Life Worth Living

After a
Hard Day's Work

Rub the tired muscles with a few drops of the soothing, refreshing, antiseptic liniment, Absorbine, Jr. You will find it pleasant and convenient to use and remarkably efficacious. This liniment invigorates jaded muscles, limbers the joints and prevents second day soreness and lameness after a strenuous, tireless day of sport or work.

America's best athletes and trainers use Absorbine, Jr., to relieve strains and wrenches and also as a rub-down before vigorous exercise to prevent such conditions.

Absorbine, Jr., is concentrated and therefore economical—only a few drops are required at an application. One ounce Absorbine, Jr., to a quart of water or witch hazel makes an invigorating rub-down and general purpose liniment. \$1.25 a bottle at druggists or postpaid. Send 10c for liberal trial bottle or procure regular size from your druggist today.

U. S. SOLDIERS NOT BEST PAID

Washington, July 16.—Popular belief in the United States that the American soldier is higher paid than those of any other country, is erroneous according to an official table issued today by the general staff. This shows the three British dominions—Canada, Australia, and New Zealand—allow materially higher prices for each grade than does the United States. For instance, in the Australian army a corporal earns \$72.90 a month, as compared with \$36 in the American army.

5,000 OUT OF WORK

Not men, but corns that were put out of business last week on the peace treaty, that the Shantung agreement was "a price paid" for Japan's signature of the League of Nations with the robbing of China as the consideration.

ST. JOHN AND THE MOVIES.

To the Editor of The Times:—Through your columns I beg to draw attention to a seemingly neglected matter on the part of the city of St. John. On April 14 last there appeared in your paper a large piece saying that two large moving picture concerns in the person of the Palestine Film Company of San Francisco, Cal., and the Gaumont Film Company, whose address I cannot just recall, were considering the opening of a large studio in St. John for the production of motion pictures on account of being impressed by the wonderful scenery to be found in New Brunswick and especially along the St. John river, which is an important element in the making of a motion picture. I, being acquainted with the methods employed in the making of motion pictures, beg to state that a better location could not be found. But the point is this: Why has nothing more matter been forgotten or neglected, or is it still in discussion? Being well acquainted with the subject, I have the feeling that one "star" or player would spend more in this city in one month. Then there are the companies' staff writers to be reckoned with and the free lance writer—the "extras," meaning persons employed from the outside to participate in a picture. When all these and others are taken into consideration you can imagine how soon our dull city could be lived up to and raised into a prosperous community.

USE The Want Ad Way

THAT \$300,000 FOR HOUSING.

St. John, N. B., July 16.

To the Editor of The Times:—

Since being relegated to private life, I have refrained from participating in the different controversies which usually take place regarding the actions of the Civic Commission and the Municipal Council. This brief communication is not to be considered as a desire on my part to make a beginning, but simply as a suggestion which may at the same time be accepted by a few at least as a warning.

At the meeting of the Municipal Council, held yesterday, a motion was passed to apply for some \$300,000 for housing purposes in the county, and I was pleased to note that the mayor criticized the wisdom of such a motion, which would carry with it a liability on the part of the city, to the extent of 86-1-2 per cent of the amount.

Why should the City of St. John participate in such a liability when the benefits direct and indirect must accrue to the different parishes in which the expenditure is made?

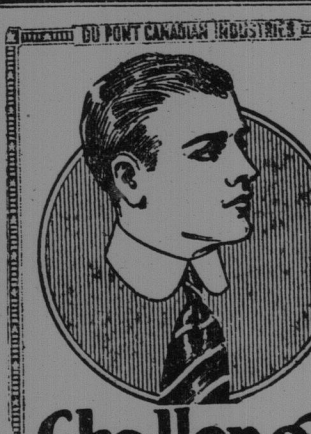

You may apply the same argument against the city expending any amount it has applied for on that piece of land in the Manawagonish road, as a demonstration plant for housing purposes and have the taxes and other benefits accrue to the Parish of Lancaster. Expend the city's money where the benefits will accrue to the city.

Surely the legislation enacted and under which the municipality is being operated never intended that the city should be liable to the extent of 86-1-2 per cent for such an expenditure, which is altogether different from the maintenance of public institutions, etc. If it is to be considered liable, then await such legislation before countenancing such an expenditure as will eliminate such a liability on the city's part and place the same upon the parishes which benefit. Respectfully,

H. R. McLELLAN.

Pilot Gets Peary Ship.

Seattle, Wash., July 16.—(By Associated Press)—Robert E. Peary's Arctic expedition ship, the steamer Roosevelt, was sold today at public auction by the Federal Bureau of Fisheries to a local pilot for \$28,000.

Challenge Cleanable Collars

No Laundry Bills

Clean your own collars just as soon as they are soiled.
