

The Age of Hurry.

This is the age of hurry. More and more people are flocking to the towns and cities, where offices and factories, stores and workshops make life like clockwork. The machinery must be started at the blow of the whistle, the salespeople must be ready at the stroke of the gong, and the home must be run at the same swift pace to keep time with the busy workers. Business must be attended to, let the strain on the human system be what it may.

There is the hurry at breakfast, the hurry to work, the hurry to accomplish the daily stint, the hurry at lunch, the hurry home, the hurry to meet evening engagements.

There is no time for rest or sleep, no time for the nerves to renew their lost vitality, no time for the body to rebuild its wasted tissues, no time for digestion or assimilation of food—the spirit of hurry is everywhere, and few can escape its influence.

As a result of this constant strain you find yourself irritable at slightest provocation, and wonder why it is so. Did you ever realize before that you are almost always making an effort to be on time—that you are almost always in a hurry?

In the youth of our grandfathers paralysis, locomotor ataxia and nervous prostration—diseases so common to-day—were rarely heard of, because the nervous system was not always kept at highest tension, as it is to-day.

Heart disturbances are among the early indications of an overtaxed system. There are stomach troubles, brain fog, headache and neuralgia. You cannot rest or sleep, you start up suddenly at the slightest noise, your nerves are on edge, you are in constant dread of paralysis or insanity.

Oh, if you could only get away from it all to some quiet place to rest and to let nature restore your wasted system. But you cannot. Business must be attended to. You must be at your daily grind. Then what is to be done? Many have solved this problem by the use of Dr. Chase's Nerve Food, and now rejoice in health and strength. They were just as much run down and discouraged as you are, but persisted in this treatment until their old-time vigor and vitality were restored.

Dr. Chase's Nerve Food

The Greatest of Nerve Restoratives

Since Dr. Chase's Nerve Food is composed of the very elements of nature which go to form new, rich blood, and create new nerve cells and muscular tissue, it only seems reasonable that this should be the treatment best suited under the conditions here described. 50 cents a box, 6 boxes for \$2.50, at all dealers, or Edmanson, Bates & Co., Limited, Toronto. Refuse substitutes. The genuine bears portrait and signature of A. W. Chase, M.D., the famous Receipt Book author.

La Diva

NON-RUSTABLE

CORSET

For Short or Medium Figures

La Diva Corset No. 718 shown herewith, is a Paris design, brought over by our designer on his last trip, the only change being to adapt it to the slightly fuller and stronger forms of Canadian women. (This is why so many imported corsets pinch and hurt).

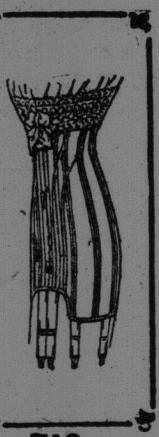

It is ideal for the short and medium figure. This model, when combined with the straight loose fit of the tailored garment, gives the wearer the fashionable effect which is so much sought after by stylishly-dressed women.

This corset is made of French coutil, delicately trimmed with lace, ribbon and bow, and has six suspenders, hook and draw string. It is boned entirely with duplex steel and stopped with silk.

La Diva No. 718 is sold by the best retailers at \$3.00 and it will be found fully equal to any imported corset at \$4.50. Like every other La Diva, this model is fully guaranteed. Other models are sold at from \$3.00 to \$7.00.

MORNING LOCALS

The annual banquet of the Bible Study Department of the Y. M. C. A. was held last night. Each group provided its own table of fare and decorated its own table. The Crusaders, led by A. H. Greig, won the prize for the best decorated table. The Triangles, led by S. K. Smith, came second. The announcement of the awarding of the Bennett cup will not be made for several days.

W. W. Greig, secretary of the N. B. Fish, Fur and Game Protective Association has just received word from the minister of marine and fisheries, that the

department will supply speckled trout fry for Loch Lomond. The fish will be placed in two streams which will be cleared of native trout, and screened off for some distance in order to keep the small fish from being devoured.

At a special meeting of the Presbytery of St. John yesterday arrangements were made for the induction of Rev. E. B. Wyllie, M. A., B. D., into the pastorate of the Presbyterian church in St. Stephen.

The ceremony will take place on May 13 and the officiating clergymen will be Rev. W. W. Haines, Rev. J. A. McKelgan and Rev. M. J. Macpherson.

The course of educational lectures arranged by the Women's Canadian Club for the school children and their parents was brought to a close last evening by an interesting lecture delivered by Wm. McIntosh in Centennial school. The attractions and advantages offered by New Brunswick formed the speaker's theme and his remarks were illustrated with lantern slides.

Joakim Reasley, caretaker of the Odd-fellow's Hall, in Union street, came very near losing his life last night by taking carbolic acid in mistake for cough mixture. His wife got the bottles mixed, Doctor G. O. Baxter and E. J. Froelich were summoned and brought him out of danger. His mouth and lips were burned.

DR. PEARSON

CANDIDATE IN

KINGS COUNTY

Popular Sussex Physician Says Yes to Request—Rousing Liberal Rally in St. Martins

Sussex, N. B., May 10.—A strong delegation of Liberals from Sussex and vicinity, accompanied by A. B. Copp, M. P., P. E. leader of the opposition, waited on Dr. G. N. Pearson tonight and requested him to allow the name to be presented as a candidate for the local legislature to the Liberal convention at Hampton next Thursday.

Dr. Pearson replied favorably, and there was great satisfaction expressed by the delegation. Dr. Pearson is very popular throughout the county and there is little doubt he will be nominated and elected.

St. Martins, May 10.—One of the most enthusiastic political meetings held in these parts in a long while took place tonight in the Masonic Hall, when the Liberals of St. Martins and vicinity met to select delegates and candidates to the Liberal convention, which is to choose candidates for the county in the forthcoming provincial contest.

The meeting found the party in excellent condition and in fine fighting mood and things never looked better for the election of a full Liberal ticket. Robert W. Skillen occupied the chair and W. E. Skillen acted as secretary. Rousing speeches were delivered by James Lowell, ex-M. P., A. F. Bentley, M. P., and W. E. Foster, and all predicted that the party would reform itself in the elections soon to be held.

That the large audience was in full sympathy with the speakers was evidenced by the rounds of applause that greeted the many points made against the Flemming government.

The following delegates were chosen: T. H. Nugent, W. J. Walsh, John A. Howard, Fred M. Cochran, and F. J. Shank.

Those elected as substitutes were: Thomas Nugent, Captain Thomas Carson, R. W. Skillen, Benjamin Black, James J. Creaser.

MORNING NEWS OVER THE WIRES

The United Mine Workers will stop even repair work in the Lehigh coal fields. The only men they will permit to work are those who are needed to keep the mines from flooding.

The following delegates were chosen: T. H. Nugent, W. J. Walsh, John A. Howard, Fred M. Cochran, and F. J. Shank.

Those elected as substitutes were: Thomas Nugent, Captain Thomas Carson, R. W. Skillen, Benjamin Black, James J. Creaser.

Hon. Sam Hughes, minister of militia, arrived in Halifax yesterday afternoon and composed the military honors. The minister of railways arrived by special train three hours later. Mr. Cochrane will be detained at dinner at Halifax this evening.

There is feeling in Ashcroft over the move in which Hon. Mr. Cochrane yesterday received a delegation who sought better transportation facilities or at least who asked for a consideration of their demands. The minister told Mayor Fager, C. L. Marton, and Percy Black, who composed the delegation, that he was unable to hear them at present and they would have to see Mr. Rhinley. Another civic group was not given a chance even to speak to "His Highness."

William Davidson was yesterday acquitted in Toronto on a charge of having murdered his wife. She died as the result of a criminal operation, she accused her husband of having advised her going to the physician for that purpose.

Hon. T. W. Cochrane, in Ottawa, has proposed the establishment of permanent boards of arbitration in industrial centres throughout the country for settlement of labor disputes.

Among the students who were granted honors in the graduating class of the faculty of applied science, McGill University, are K. M. Campbell, of Fredericton, D. McLeod and J. J. Stevens of Hillboro.

The first sod to be turned in connection with the Valley Railway, will be at Woodstock on Tuesday afternoon next. There will be speeches made and a big time.

Hon. J. K. Fleming and officials of the road were in Woodstock yesterday making arrangements.

The White Star liner Adriatic arrived at Southampton yesterday afternoon having on board J. Bruce Ismay, managing director of the line, who was one of the survivors of the Titanic disaster.

Ottawa, May 10.—The new four-dollar bill is to be withdrawn gradually from circulation, and the government will issue a five-dollar bill, the first of that denomination. The "Shin-plasters" is also likely to be withdrawn at no distant date.

Ottawa, May 10.—There will be no tariff changes before the budget speech is delivered next session. This is certain in spite of reports in leading government organs throughout the country that tariff changes are now under consideration, and are likely to be announced before the provincial election in Saskatchewan.

HOT SHOT FOR

HON. MR. LANDRY

Has One Story For the Platform, The Opposite in Reports of Department

(Richibucto Review.)

We wish to call the attention of the electors of Kent county to a few of the misleading statements to be found in the minister of agriculture's speech.

In discussing the decline in the number of cheese and butter factories, he said: "This decline is due to the indiscriminate subsidizing of factories by the old government."

In the report of his own department, signed and approved by himself, we find the following: "The advent of the farm cream separator is responsible for much of the decrease in the number of factories. The hand separator makes butter making at home easier and to that coupled with the increase value of sweet skimmed milk over whey, the falling off in cheese 'can largely be attributed'."

Let the reader compare the two statements given above. In so doing, the question must flash across one's mind: When was Doctor Landry telling the truth? Was it when he spoke in the legislature, or was it when he signed the report which contained the last statement cited above? At one time or the other, his statements were at variance with the truth.

And still another statement made by the minister of agriculture which goes to prove beyond a doubt that he has no respect for the facts contained in his own departmental records, is to be found in the following taken from his recent speech: "The reports show that farmers keep more milch cows than formerly, hence the greater production of butter."

While the doctor in his speech states that there has been an increase in number of cows, on page 109 of the agricultural report of 1911, he writes: "There has been a shrinkage in the number of milch cows in the province." Which one of the two statements is the lie?

Would it not be well for the minister of agriculture, in future, to look more carefully into his printed report before he undertakes to make a speech.

DYSPEPSIA MISERY

IS RELIEVED IN

FIVE MINUTES

Diapiesin Makes Heartburn, Sour Stomach, Gas and Other Distresses Vanish

You can eat anything your stomach craves without fear of indigestion or dyspepsia, or that your food will ferment or sour on your stomach, if you will use Diapiesin occasionally.

Your meals will taste good, and anything you eat will give you no trouble. Diapiesin does not turn into acid or poison or stomach gas, which causes belching, flatulency, or fullness after eating. Nausea, indigestion (like a lump of lead in stomach), biliousness, heartburn, water brash, pain in stomach and intestines or other symptoms.

Headaches from the stomach are absolutely unknown where this effective remedy is used. Diapiesin really does all the work of a healthy stomach. It digests your meals when your stomach can't. A single dose will digest all the food you eat and leave nothing to ferment or sour and upset the stomach.

Get a large 50-cent case of Papie's Diapiesin from your druggist and start taking now, and in a little while you will actually brag about your healthy, strong stomach, for you then can eat anything and everything you want without the slightest discomfort or misery, and every particle of impurity and gas that is in your stomach and intestines is going to be carried away without the use of laxatives or any other assistance.

Should you at this moment be suffering from indigestion or any stomach disorder, you can surely get relief within five minutes.

PETTY POLITICS OF THE

CONSERVATIVE PARTY

The public generally will be interested to know that the name of the dredge W. S. Fielding has been changed, the lettering painted out, and that the dredge is now known as Dredge No. 1. This change for Hon. J. D. Hazen, minister of marine and fisheries, has also been carried out with other vessels of the government service and it is noticeable in the harbor dredging has been christened the Hazen. In view of the changes made it will be interesting to learn if the names of such important government steamers as the Lady Laurier are to be wiped out and something with more of a Tory tinge substituted.

To Prevent Chapped Skin

—use warm water and

Baby's Own Soap.

The warm water opens the pores of the skin and the minute particles of pure refined vegetable oils which form the creamy, fragrant lather of Baby's Own Soap are absorbed into the skin, keeping it soft, healthy, and preventing cracks and chaps.

A perfect rinsing, then smart rubbing when drying guarantees a fine smooth skin in any weather.

50,000,000 Corns

Some time ago a chemist discovered how to completely end a corn. In 48 hours the whole corn comes out, root and all. No soreness, no discomfort. You feel nothing at all. He made a wax—the B & B wax—which forms the heart of a Blue-jay plaster. This little plaster has since then removed fifty million corns. It is applied in a jiffy, and the corn they did.

A in the picture is the soft B & B wax. It loosens the corn. B protects the corn, stopping the pain at once. C wraps around the toe. It is narrowed to be comfortable. D is rubber adhesive to fasten the plaster on.

Blue-jay Corn Plasters

Sold by Druggists—15c and 25c per package. Sample Mailed Free. Also Blue-jay Bunions Plasters (15c). Dealer & Black, Chicago and New York. Makers of B & B Handy Package Absorbent Cotton, etc.

Hurt Him? No!

Do Him Good.

Vaseline

If Baby should "Vaseline" himself all over and eat some as well, it would not hurt him.

"Vaseline" is so pure and harmless that a little of it would merely "limber up" his throat. And the "Vaseline" he smeared over himself would be the best thing possible for his skin. Just ask the doctor who brought him into the world.

Use "Vaseline" plenty of it—for the skin. Just try it on your face and hands and see how it softens and freshens them. Taken internally, it is excellent for colds and for the voice.

You should understand there is no substitute for "Vaseline." "Vaseline" is the registered trade-mark of the Chesebrough Mfg. Co. If you are offered anything else when you ask for "Vaseline" you are being deceived.

Our free booklet on the different preparations and the various uses of "Vaseline" is full of interesting information that will be of practical use to any family. Write for your copy today.

THE DRUMMOND WORKS

John J. Drummond of Montreal, his chief engineer, Mr. Parsons and J. P. Edwards, manager of the Londonderry, N. S. plant, who were in the city yesterday, left this morning for Londonderry, via Digby. Mr. Drummond said that the work at their mines in Gloucester is progressing very rapidly. Their railway line connecting with the docks has been extensively used for lumber and general business in addition to their own work. One of the finest shipping docks in America with a capacity of 1,000 tons an hour has been erected at Bathurst. Development work at the mines has been carried on all winter and 80,000 tons are ready for shipment. A concentrating plant for standardizing the ore will commence operations next week and shipments will commence about the 20th.

Mr. Edwards said yesterday that the management had not come to any decision

about a proposal to remove their plant to St. John from Londonderry.

A party of friends of Mr. and Mrs. Samuel Hovos, of 27 Peter street, called on them last evening, the occasion being the eleventh anniversary of their wedding, and presented to them a handsome buffet and rocking chair.

It is generally thought about Boston that Clarence Richeson will meet death in the electric chair for the murder of Avis Linnell. Governor Foss has been inclined to refer the commutation petition to his council, but many of them are opposed to mercy being shown. Mayor Fitzgerald has written a letter to the governor saying that the majority of Boston people demand Richeson's execution.

"Ah, kind friend," said the moralist, "it is dead, not words, that count." "Oh, I don't know," replied the woman. "Did you ever send a telegram?"
