

THE
FIFTH ANNUAL REPORT
OF THE
FRESH-AIR FUND
COMMITTEE,
MONTREAL, 1891.

To the Subscribers and Friends :—

The work of the Committee during the past season, having been carried on practically upon the same lines as former years, calls for only a brief report.

The impression deepens as to the importance of the work and the growing need of the comparatively rich and intelligent coming to the assistance of their poorer fellow citizens. During the heated term of July and August, it will be for the benefit of those living in the less favoured parts of the city that the mothers and children have, at least, a fortnight of pure fresh air and healthy surroundings.

The Inaugural Meeting was held in "The Star" Offices on the 9th June, 1891, when the Executive Committee was formed, as follows :—
Reverend John Nichols, Chairman (re-elected); Mr. Charles Alexander, Hon. Treasurer (re-elected); the Reverends James Patterson, Vice-Chairman, Samuel Massey, H. J. Evans, E. McManus, James Watson, (Chambly), G. H. Butler, (Chambly), and Messrs. George Kemp, Peter McLeod, H. F. Lunan, Peter Sinclair, Donald Campbell, J. M. M. Duff and S. H. Parsons.
