Could get only his no watch he
had shown me. I then turned on
my flash light & shined on to his
identity disc and started to walk
for them when Goodie struck at me
again. I stopped back, the blow
missed. He was then overpowered
by American MP and two A/C's
and taken away by them. In my
mind Goodie was well aware of
what he was doing. In my mind
he was not under the influence of
liquor. At no time, close as I was
to him did I smell liquor. I
didn't witness anyone with him in
particular.

Cross examination by Responding Officer

The first time I saw the accused
he was on the road at an
intersection - not in dead center
of road. He was at edge of stream?
Soldiers walking by. I stopped and
went back because the soldier carried
at the vehicle in which an officer
was riding - was something that
in my estimation would be correct
I didn't anticipate at that time
any trouble. The driver of the car
saw his identity disc - but he
refused to give me his name after I
had taken his no. I went to
American M.P. Officer and asked them
to get in touch with Post. 4th, Can
the P's. After I returned with the K.O's.
I went forward to identify the accused
I asked him his no. and name -
and he gave me a different no. so
I asked all his tags. After that
arrived I tried to identify him by
my flashlight - I wanted this
man to identify himself & walk
