T. Crosby, the veteran missionary to British Colum bia Indians, will give addresses, and spe-

cial music will be rendered. At this mounting's session a communica-tion was read from Assinibola, the writer COMPETITIONS TO BE of which urged the conference to take steps to give the West a denominational paper of its own, as it was felt that the Guardian is of little service west of the Great Lekes. The communication went to the missionary committee.

NOTE ON PROHIBITION

Charlottetown P. E. I. May 11-In to further action will be taken by the King's county resterday the plebiscite of the election resulted in a vote of to 1 against the Scott act and in favor of prohibition, which comes into force atter will be alluded to in the public in thirty days after the declaration of the polls.

The whole Island will then be under prohibition except Queen's county, which is clear of Charlottetown. The plebisoite in the latter county will be

VANCOUVER.

The body of a man was found near Gibson's Landing Saturday, So far the remains have not been identified It was thought at first that it might be the body of a man named Peterson! who has been missing for some time, but some of Peterson's friends who viewed the body were quite positive it was not he. There still remains the possibiliay that it may be either T. L. Strickner or Jack Rear, two men who were drowned in the tide-rip outside the First Narrows on April 11th. The body appears to have been in the water for a considerable time, since the hair is gone from the head and the skin has partially disappeared from the face. It is that of a clean-shaven man

Mr. Hand came to the conclusion shortly after he took control that the future of the mine depended upon the western half. In us manner in which he unfoulded it. working there he found a large ore body at depth. That ore body has now been well opened up and shows good ssive one aws proceeded with by values and great extent from the 700foot to the 1,000-foot level. During the interval much other work has been rd by the secretary, Rev. A. E. done, which will greatly facilitate future operations and treatment, A system of ore chutes has been arrange ed from the mine to the mill, so that hereafter the ore can be classified, and the different grades treated separate

ly, and therefore much more economically than in the past. W. J. Francis, C. E., who has arrived from the East to succeed G. E. Revell at the Bonnington plant of the West Kootenay Power & Light Company, is man of some note in his profession He has been for over five years in the employment of the Dominion department of railways and canals as hydraulic engineer of the Trent canals. Mr. Francis went to Peterboro from Toronto University ten years ago as chief draughtsman for the Central Bridge & Engineering Company, and steel work for the hydraulic lift lock on the Trent canal, succeeding H. S. Greenwood, division engineer, who was called to South Africa. On the completion of the Peterboro-Lakefield section of the Trent canal, Mr. Francis was appointed engineer of hydraulic work both at Peterboro and Kirkfield, where the second hydraulic lift is

nearing completion. A DEADLOCK.

United States Senate Committee on Inter-Oceanic Canals Fails to Agree.

Washington, May 12.-The senate mmittee on inter-oceanic canals is in a deadlock on the question of the type of canal to be recommended. The question was taken up to-day and the vote showed five for a sea level canal and five for the lock type ommended by the minority of the board of consulting engineers. There were two absentees, Senators Gorman and Carmack. The latter telegraphed from Tennessee instructing the chairman to count his vote for the sea level type, which would have made a major-

the administration. After wrangling for an hour over the question of accepting the vote of Senator Carmack, the committee adjourn

HELD AT OAK BAY

Under Auspices of Y. M. C. A. in Connection With Victoria Day Celebration-Kennel Awards.

There was a large attendance at a meeting of the physical committee of the Y. M. C. Y. held last evening at the rooms, Broad street, when details in connection with the meet announced to take place on Saturday, the 26th inst. at the Oak Bay grounds were discussed. E. Whyte occupied the chair, and one of the first questions discussed was the appointment of officials. The names of a number of ominent local sportsmen were submitted, and the secretary will communicate with them in order to ascertain whether they will act upon that occasion. It also was decided that the prizes offered would be placed on exhibition in the windows of Fletcher Bros., Government street.

A somewhat gratifying announcement was made in respect to the probable size of the entry for the various Master W. H. Turner, competitions. This was to the effect that Vancouver would be represented by a team of athletes in charge of E. O'Callaghan, and that all the local associations would enter the majority of the contests. It is believed, therefore despite the fact that Tacoma, Seattle Mrs. Webster: 3rd, Essex Judy, Mrs. Bellingham and Everett associations Grant. will be unable to send over representatives because the Puget Sound meet Lady Nell, A. R. Eurns; 3rd, Peggy W., same date, that every event will be W. H. Walpole. keen and interesting. Entries will be received up to 8 p. m. on the 19th inst. McAuliffe. Any wishing information may obtain the same by applying to any of the 2nd, Essex Trixie; 3rd, Lady Nell, following gentlemen: E. M. Whyte, quantities has just been made on chairman of the committee; O. E. Finch, secretary; or H. B. Gregory, Novice dogs—1st, Western Dice, Mrs. J. Wallis. Other prizes withheld. Other business of little public interest was discussed, after which the meeting adjourned. The complete programme with the W. Welsh: 2nd prize withheld.

ings' cup won by Coversea Speedy: Oscar Brown cup won by Coversea Lady. Irish Terriers-T. H. McAuliff's cup won by Jesmond Magic.

> THE RIFLE. REGULAR SHOOTS

The regular weekly shoot under the auspices of the Fifth Regiment Rifle Association was held on Saturday afternoon at Clover Point. There was a poor attendance, and the weather was perhaps not all that might be desired, the wind blowing across the butts with some force, 'Some of the best scores follow:

A. R. Langley 31 32 Capt. Angus 28 Gr. Butler 27 28 Corp. Strachan 24 32 .. 25 Corp. Richardson 26 30 25 Sergt, Spurrier 26 26 28

BASEBALL STEADY TRAINING.

At Oak Bay next Saturday the Fernwood and Anacortes teams will try con clusions. The latter are strong players, while the Victoria representatives have been training steadily and should be in splendid form for the contest,

THE GREAT NORTHERN. Preparing For More Rallway Building

in Vicinity of Grand Forks. Grand Forks, May 11.-Chief Engineer Kennedy of the Great Northern Railway arrived here this afternoon and corroborated the previous report

that the Great Northern would build ome sixteen miles up the river. is the Kettle Valley Railway is at

the North Fork this spring things look -"The excursion steamer Spokane, of the Pacific Coast Steamship Company's fleet, is to be used as a mess ship and are being put in, and a new blower

has been ordered, giving the Trail restaurant for the next two weeks," says the San Francisco Chronicle. "Crews and employees of the company are to be given their meals on board, and others desiring refreshments on board will be served if they are willing 2,520 tons; Le Roi No. 2, 600 tons; Jumto pay the price. The regular lines of the company have lately been overtax- tons, and for the year 120,175 tons, ed in feeding people, and it has been difficult for the crews to perform necessary work and take the steamer to sea on schedule time. At the end of two weeks the Spokane will proceed to Puget Sound to begin excursion agreement in court to-day upon the pro-Capt. Carroll."

HEBERLEIN ROASTER Successfully Installed at Trail-Gre Saving Is Effected

The Nelson Daily News in a recent ssue says: "When, a year ago the News announced the revolution that was to be created in smelting by the adoption in this district of the Huntington-Heberlein process of roasting pres, general interest was instantly evoked, not alone by the public at large but by the mining men more nearly connected. The Heberiein process was put into operation at the Marysville smeltes just a year ago this month and proved mmediately to be a success. Negotiations were then entered into with other the Vancouver Kennel Club concluded on smelters both in and out of the prov-saturday evening. It has been a splen-ince and although Max Hebertein, one did success from every standpoint, and of the inventors of the process, had to Victoria competitors have done particulary British Columbia to attend to ers have by no means let the matter drop. The new roasting process has been in course of construction at the "From the latter reduction works.

St, Bernards-W. H. Malkin's cup won Mr. Heberlein has just returned to Nelson, after a two months' stay, where an eighty ton roaster has been successfully installed. The new roasting, which does away with the cumbrous reverbatory furnace in lead smelting, is proved to be not only economical i labor and fuel but also in space. Mr. Heberlein states that he thought that as much work was got out of his works cup won by Jesmond Birdie; Jas. Stark & at 30x100 feet as in the larger roaster building, 300x80. The reduction of copper is also facilitated by the use of the new process. Instead of roasting the ore and briquetting the product and reroasting, to bring the final product up to grade, the crude ore is first half roasted in the furnaces and then put through the new process, thereby considerably facilitating the work in every respect. The record for the production of bullion bars at Trail heretofore has been 290 in an eight hour shift. Under the new conditions 520 bars were produced in the same time last week.

"Mr. Heberlein is staving in Nelson for the next ten days or so and is here on business connected with his process and with the Hall Mines smelter, which is now finishing the last work upon its

recent extensive alterations. "The whole meaning of these recent mprovements, Mr. Heberlein's and others, which have been adopted by the smelters here and at Trail is that the smelters will, and have been able to, make new arrangements with their shippers, lessening the grade of the ore which is necessary to be shipped in order to secure a profit. Every lessening of the grade means that large and larger quantities of ore are made available lengthening the lifetime of most if not of all mines in the district and encouraging their owners to place larger and larger sums into development in order to secure that profit which is legitimaetly claimed by min-

ing as well as ordinary business men.'* MINING INDUSTRY.

Blowing-In of Pilot Bay Smelter-New Shippers on the List. Nelson, May 12 .- The seventh smelter in this district, Pilot Bay, blew in the first furnace this week, and two more will follow. Transportation con-

ditions are improving. There are several new shippers this week. The total shipments for the week were 32,023 tons and for the year 628,-

28 tons: Queen 19 tons: Payne 18 tons: Keystone, 14 tons; Cliff, 10 tons; Noonday, 11 tons, and Midnight, 5 tons

Boundary shippers were the Granby, Mother Lode, Brooklyn, Emma, Sunset, Rawhide, Skylark and Providence. Rossland shippers were the Centre Star, Le Roi, Le Roi No. 2 and Jumbo Receipts reported at the Granby smelter were 16.557 tons: Dominion Copper Company, 4,785 tons; British Columbia Copper Company, 3,164 tons; Trail, 6.766 tons; Hall Mines, 440 tons; Marysville, 500 tons. The Pilot Bay

returns for the week should be over 500 tons. Bright Outlook.

Rossland, May 12.-Work has or is being resumed on several of the mines of the camp during the last few weeks. The Velvet-Portland, the Crown Point, the Jumbo and the White Bear are among the mines that are included in this list. These mines will give employment to an increased number of men, and their output will swell to a considerable extent the tonnage of the camp for the year. There is talk of the resumption of operations on the Cliff and Idaho, and there are well defined rumors that work is to be resumed shortly on some of the properties in the south belt which have been With the idle for several years. brightening situation and the more hopeful outlook the people are indulging in the hope that there will be a repetition of the times when Rosland was in the zenith of her prosperity. At the Trail smelter they are now building a new lead furnace and startup the north Fork. He says that work ing a fifth copper furnace, making a will be commenced as soon as men and | total capacity for the output of copper outfits can be got on the ground. The between 1,300 and 1,400 tons daily, and present objective point of the Great | 350 to 400 tons of lead.
