

FACTION FEUDS  
LIBERAL PARTY

ROSEBERY'S SECESSION  
PROOF OF DISUNION

Government's Diplomacy in the Far East—Preparations for the Coronation—London Gossip.

New York, Feb. 23.—The London correspondent of the New York Tribune, Mr. L. N. Ford, writes as follows: "The English press is still talking about Lord Rosebery's secession as a fresh proof of Liberal disunion. The divisions of that party are of long standing and must always exist when it represents the more progressive elements of the general electorate. Only the commanding force of Gladstone's character imparted unity and direction to the party during the greater part of his career, and even he was not strong enough to prevent the opening of the lines of cleavage. On the Home Rule question, the Liberal party remains divided as it has been since Gladstone's death and the formation of the Liberal Imperialist group, including Lord Rosebery, Mr. Asquith, Mr. Grey and Mr. Fowler, is neither new nor startling. What is really important is the deliberate attempt of Lord Rosebery to prove that, like Gladstone, he is a necessary man, without whom the Liberals cannot be permanently reunited. Temporarily he has failed to accomplish anything, and the want of success is due mainly to the lack of constructive ability and administrative originality. He has taken away all the Liberal principles at once sweep, and he has not set up anything to replace them. A new democratic party must be formed. Till this is done Lord Rosebery cannot reunite the distracted party.

"The effect of Lord Rosebery's secession is likely to be disastrous. Sir Henry Campbell-Bannerman's leadership of the old Radical hands has tempted him to repulse Lord Rosebery's overtures for reconciliation, and he is momentarily left in supreme control of the fortunes of the Liberal party.

"No practical politician thinks that Sir Henry Campbell-Bannerman can reunite the party on the basis of pro-Boer sympathies and Irish Home Rule or in an emergency form an alternative government organization. The Rosebery group may convince the Liberals that Sir Henry Campbell-Bannerman is

An Impossible Leader, even if it does not demonstrate that Lord Rosebery is a necessary leader. In this way ultimate reunion may be promoted by the temporary secession of Lord Rosebery. He is bent upon leading a reorganized party after proving that nobody else can do it. The Unionist government is delivered from all political anxiety by the secession of Lord Rosebery to faction feuds. In South Africa it continues to plod wearily, if more hopefully. The successful ambulance, like that of the second Dragoon, might be a gradual wearing down of the resources of resistance on each side of the vial. To-day's news contains an account of the British exploit at Noolgedacht, with its own peculiarly serious character. The military reform the government remains incorrigible and incompetent. Mr. Brodrick's management of the remount scandal excites discontent, open revolt even among the best disciplined circles. The parliamentary reform procedure is making slow progress and promises no larger results than the fifty of the members' dinner hour, legislative sanction for the week-end adjournment to country houses and the curtailment of opportunities for self-government by the postponement of the question hour when the galleries are empty. These are

Not Matters of High Politics. The government will not trouble itself to give over the education question until after Easter, and it is without a definite policy in Ireland where the no-rent agitation by the United Irish League may be the sequel to evictions of Lord Dufferin's estate. The situation in Ireland is particularly serious because it is the direct result of a government scheme for buying out the landlords and winding up the agrarian discontent. The settlement of the Dillon estate by purchase has unsettled the Dufferin estate and other properties whose landlords refuse to sell out. The ministers take everything easily, even the menace of the revival of the agrarian agitation in Ireland on a large scale. They are staid but indispensable with no possible successors among the faction rent mob in the Liberal Donnybrook fair.

"The government has regained prestige abroad by stronger and more consistent diplomacy. This is evident from the change of tone of the continental press, which now regards Lord Lansdowne as a great statesman, taking the lead in diplomacy in the Far East, and having the moral support of the United States and Germany. Secretary Hay's Manoeuvres have induced the Spectator to lament that Lord Lansdowne had not joined him in joint representations instead of plunging into

An Alliance With Japan. It is difficult for even the most trustworthy friends of America and England to be convinced that no European power can ever have anything more than the moral support of the United States, and that a formal alliance is out of the question.

"Otherwise foreign questions remain in the background. The German tariff situation has not cleared the air, and the forecast of the possibilities of compromise among the factions at Brussels is premature. The conference is still deliberating and hesitating over the abolition of sugar bounties, with the prospect of no ultimate action being taken.

"The accounts of the Barcelona riots have not been intelligible, especially as

the details of the loss of life and the extent of the disturbances have been grossly exaggerated. There is no direct evidence that the anarchists have instigated the riots and the rumors that the Carlists will take advantage of the opportunity of a general outbreak are sensational. The resignation of the Italian cabinet is a small furry quickly ended.

"The cost of the coronation, as represented in the civil service, estimated, is £1,000,000. This may include the expenses of the two processions and the alterations in the abbey, but obviously does not cover the Entertainment of the Guests by the Crown and the special embassies of colonists and various others. The street decorations will be managed by a committee of property owners, the borough councils having shown little energy in making arrangements of a comprehensive scope. Club-land has already come to the front with a unique decorative scheme of St. James's Palace. Sir Wilfrid Laurier's presence becomes especially important, since the Australian premiers are begging off on one pretext or another. Sir Wilfrid and Mr. Barton will be the chief colonial representatives, and will have the places of honor in the Abbey, and probably at both conventions. Lord Strathcona will occupy a seat among the peers. The minor colonial officials are no more likely than the secretaries of the diplomatic embassies to obtain entrance to the abbey. The facilities for seeing the processions outside will be ample, and tourists need not make arrangements until the last moment.

"The activity in mining stocks remains the leading feature of stock exchange speculation. It starts up fresh after every set-back, and is maintained even when the supply of loanable capital in the open market is small and the discount rates are firm. New Rhodesia companies are forming, and there is a Renewal of Activity

all along the line. This speculative movement cannot be attributed to the war news, although that is improving with practical evidence that the burghers are now employed as scouts in the British service, and are entrapping their fellow burghers. The real secret of the Kafir boom is because the British government intends to remove the disabilities from the mining industry and convert it into a source of wealth, which will sum taken from the Bank of England. The Parrelly law imposing a heavy tax upon the output of gold is one of the Transvaal statutes, repealed by Lord Milner, and other legislative obstacles to free development of the mining industry have been removed. The capitalists class is satisfied that mining will become vastly more profitable than ever before, and speculators and investors are taking their cues from them.

"The prosecuting authorities are receiving more credit than they deserve for their success in obtaining the restitution of a large proportion of the income tax paid in Germany from Liverpool by Goude and the gang of turf gamblers. The work was easy when the forger was arrested, for he made a clean breast of everything and enabled the police to recover the bulk of the plunder. Goude was

A Unique Criminal in committing his stupendous series of forgeries, and instead of profiting by them, allowing turf gamblers to rob him systematically. This remarkable case will involve radical reform in book-keeping in many English banks.

"American buying of English iron and steel on a large scale is reported from the Midlands. The orders are similar to those received in Germany from America, and are explained in the trade as the result of enormous domestic demand for raw material in the United States.

"Dr. Newman's funeral at Christ-church, Westminster bridge, was attended by over two thousand people, including representative delegations from all the prominent non-conformist societies. Canon Fleming Michaels was the only conspicuous clergyman. An English church joining in the simple but impressive ceremonies in memory of the non-conformist champion.

CONFEDERATION ACT.

Member of Quebec Legislature Wishes Alteration Regarding Subsidies and Duties. Quebec, Feb. 22.—The following notice of motion has been given in the legislature by Mr. Perault, member for Chambly:

"That in the opinion of this House the revenues allotted to the various provinces by the British North America Act are insufficient to allow of their meeting the requirements of the public service, and at the same time of giving necessary aid to colonization, to agriculture, to the improvement of our industries, and the development of our educational system; that the interpretation given to various clauses of the constitution has endangered the existence of our local institutions, and that the government of Canada and those of the other provinces should be invited to join the government of the province of Quebec in asking the parliament of the United Kingdom to make such changes in the Confederation act as may alter the basis on which the federal subsidy is calculated, to secure to the provinces an exclusive control over their imposing export duties on products of their forests and mines, and to confer upon the government of Great Britain the right of disallowing provincial laws now exercised by that of Canada."

FIRE IS OUT.

Work of Clearing Extension Will Probably Soon Commence. Nanaimo, Feb. 24.—Yesterday No. 2 slope, Extension, was opened. This is the mine in which the explosion occurred several months ago. It is reported that the men who entered found the fire all out, and that in consequence the mine will be stopped today. Work may now be expected to commence, and the men remained in No. 2 slope yesterday for 50 minutes, so that all is believed to be set.

Books used by the blind are very expensive. The new catalogue of the National Library, in raised letters, is comprised of 40 thick volumes, the price of which is 25 shillings.

THE VACANCY IN SUPREME COURT

NEW CHIEF JUSTICE NOT YET APPOINTED

Justice Irving May Be Promoted and Gordon Hunter or L. P. Duff Made Judge.

Ottawa, Feb. 24.—The question of appointing a chief justice for British Columbia is now engaging the attention of the government. The likelihood now is that Gordon Hunter, of Victoria, will get the position of a puisne judge, and that Justice Irving will be promoted to the chief justiceship. L. P. Duff, of Victoria, is also mentioned for a puisne judgeship. The statement that Mr. Morrison, M. P., is an applicant for the position is erroneous. The judge will be either Mr. Hunter or Mr. Duff, with chances in favor of the former. All the Liberal members of parliament from British Columbia are said to be supporting Mr. Hunter. Messrs. Davis and Henry Senkler, of Vancouver, arrived here on Saturday.

Canadian Commander. If Lord Dundonald accepts the position of commander of the Canadian militia with the same conditions attached as were put in the order appointing Gen. Hutton in Australia then he will have the position. These conditions are that he be under the control of the Canadian government and subordinate to the Minister of Militia.

Chinese Head Tax. It is understood that the majority report of the Chinese commissioners will recommend an increase of the head tax to \$500. A minority report will recommend a head tax of \$300 for two years, then to be increased to \$500 if \$300 be found insufficient. The report is therefore practically unanimous.

Petitions. Petitions were introduced in the House to-day respecting the Lake Bennett railway and the Coast Railway Company. Treadgold Concessions. Hon. Clifford Sifton presented to the House to-day the different orders-in-council in regard to the Treadgold concessions in the Yukon. The latest order makes provision that the Treadgold company must supply to miners on Bonanza, Hunter and Bear creeks, 2,000 inches of water at 25 cents per inch. The first order was to charge \$1 per inch, and only to supply one thousand inches.

Reciprocity. Mr. Charlton moved his resolution in the House to-day declaring for reciprocity in trade, or reciprocity in tariffs.

ON WAY TO SEATTLE.

Steamer Bertha Being Towed South by tug Albin.

Vancouver, Feb. 24.—Steamer City of Seattle arrived this morning from the steamer Bertha in tow of the tug Albin, of Vancouver. The Bertha was taking very little water, and appeared to be but little damaged. She will arrive in Seattle to-morrow night.

The trials are reported in good condition in the North, but there is no travel out from Dawson, and express companies are cutting off part of their sleigh service.

Miss Jean MacFie, for eight years matron of Vancouver City hospital, died yesterday at Pittsburg, Pa.

Masons from all over the province will send representatives here next month to lay the corner stone of the Carnegie library.

A youth named Blackburn, aged 17, charged with stealing, was to-day identified as the person who made several hold-ups two months ago. Blackburn is the nephew of an English judge, and will inherit \$50,000 in two years.

AT LIBERTY.

Miss Stone, Mme. Talika and Child Are All Well. Constantinople, Feb. 23.—Miss Ellen M. Stone, the American missionary, who, with Mme. Silka, was captured by the brigands in the district of Salonica, September 30th last, has been released and arrived at Strumitza, Macedonia, at 3 o'clock this morning. Nobody was at Strumitza to meet Miss Stone, as the brigands had given no indication where they proposed to release the prisoners. Mme. Talika and her baby were also released at the same time. They are all well. Miss Stone immediately made herself known to the authorities at Strumitza.

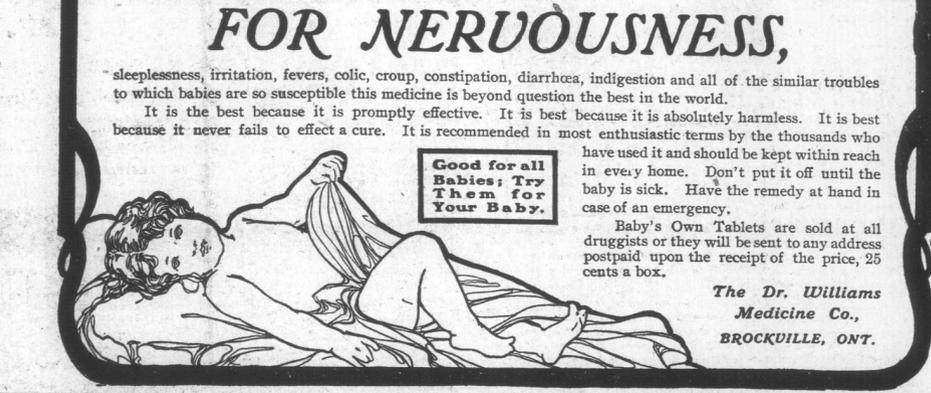

The first news of Miss Stone's release was contained in a telegram received by Mr. Dickinson, the American consul-general at Constantinople, from the American vice-consul at Salonica. The telegram gives no details of the release. As Strumitza is near the Salonica Usuk, Miss Stone will proceed to Salonica.

FAVOR EXCLUSION.

Many United States Representatives and Senators Will Support Re-enactment of Law. Seattle, Wn., Feb. 24.—The Western Labor Union has received assurances from many representatives and senators that they will support the re-enactment of the Chinese exclusion law. The union is making a canvass of the opinion in the matter in the Senate and House, and so far has received replies from 50, the majority of whom express themselves in favor of the re-enactment. In no case was an answer received in which the writer took a stand directly opposed to exclusion. Among those answering were Senators Hanna, Mason and Foraker.

BABY'S OWN TABLETS

No price would be too great to pay for the preservation of the perfect, rosy, sturdy health of a baby. No price would be too great, but, as a matter of fact, the price is very small—simply precaution and the exercise of good judgment. It is not good judgment to give the tender, little infant remedies containing opiates. It is not good judgment to give them medicines concerning which you know nothing. Stick to the true and the tried, those which have proved best by use in thousands of homes. Baby's Own Tablets is a scientific preparation prepared from Dr. Williams' own prescription. It is purely vegetable containing no harmful drugs.

FOR NERVOUSNESS, sleeplessness, irritation, fevers, colic, croup, constipation, diarrhoea, indigestion and all of the similar troubles to which babies are so susceptible this medicine is beyond question the best in the world. It is the best because it is promptly effective. It is best because it is absolutely harmless. It is best because it never fails to effect a cure. It is recommended in most enthusiastic terms by the thousands who have used it and should be kept within reach in every home. Don't put it off until the baby is sick. Have the remedy at hand in case of an emergency.

Baby's Own Tablets are sold at all druggists or they will be sent to any address postpaid upon the receipt of the price, 25 cents a box.

The Dr. Williams Medicine Co., BROCKVILLE, ONT.

PRINCE HENRY'S WELCOME TO STATES

KAISER'S BROTHER HAS REACHED NEW YORK

Arrangements for Reception Passed Off Successfully—Meeting of Prince and Admiral Evans.

New York, Feb. 23.—Prince Henry of Prussia, representative of his brother, the Emperor of Germany, at the launching of the latter's American built yacht, reached here to-day and was cordially welcomed as a guest of the nation. The land batteries sounded the first greeting of a salute of 21 guns, the rifles of a special naval squadron, assembled in his honor re-echoed the sentiments of the United States and a great crowd lined the way into the city to see and cheer the sailor prince of Germany.

The great storm against which the Kron Prinz Wilhelm had struggled for days and which had glared the Atlantic coast in armour of ice, had lost its force and resigned its sway to warm sunshine and cheery blue skies, so there were no regrets that the royal guest was a full day late for the entertainment prepared for him. The genius of Marconi reacting out from the storm swept coast, had definitely located the belated liner and made certain the hour that she would reach Sandy Hook. There was a curtain of haze off the look early this morning, and it was after 9 o'clock before the waters caught the shadowy outlines of the cautiously approaching liner.

Rear-Admiral Robley K. Evans, commander of the special squadron and honorary aide to the Prince, lent the flagship with his staff in the naval tug Nina. The Nina met the Kron Prinz beyond Fort Wadsworth and swinging around on the starboard side of the liner steamed up the bay. Prince Henry, attired in the uniform of an admiral of the German navy and surrounded by his naval and military staff in brilliant uniforms, stood on the bridge of the liner. As the naval tug drew near to the side of the steamship Prince Henry and Admiral Evans caught sight of one another and exchanged informal salutes.

As the two vessels, with a flotilla of tugs and officials craft, moved in past Fort Wadsworth, the salutes of 21 guns was fired. As the first gun sounded the Prince advanced to the end of the bridge of the Kron Prinz Wilhelm and stood at attention. As he passed the big American flag floating over the fortifications he touched his cap in salute and the members of his suite did the same. The flag at the jack-staff of the Kron Prinz Wilhelm was dipped and the German naval band accompanying the Prince played "The Star Spangled Banner." The guns of Fort Wadsworth were not silenced before those across the narrows at Fort Hamilton boomed out their salute. When that ceremony was over the Kron Prinz Wilhelm was stopped and the Nina hauled around to her port side and Admiral Evans and his staff boarded her. The passengers were gathered on the main deck, and there was a hearty cheer as the admiral came up the gangway.

Admiral Evans was escorted forward at once, and in the quarters of Captain A. Richter, master of the Kron Prinz, he and the Prince met. The Prince came forward and grasping the hand of the naval officer shook it warmly.

"I am very glad to see you, sir," said the admiral. "Everybody in the United States is waiting to welcome you. It is my pleasure, sir, to greet you formally in their behalf."

"I thank you, sir, and through you, the people of your country," responded the Prince. "I am very glad to be here and

DOMESTIC TRAGEDY NEAR DOMINION CITY

WIFE MURDERER IS TAKEN INTO CUSTODY

Man Killed While Assisting to Extinguish a Roof Fire—Despondency Leads to Suicide.

Man Killed While Assisting to Extinguish a Roof Fire—Despondency Leads to Suicide. Dominion City, Man., Feb. 24.—Miall Storchus arrived from Starnburg this morning, bringing the news that Usop Salomon, a Galician, had murdered his wife on Saturday night by battering her head and face with a club. He was arrested without a warrant by H. H. Atkinson, police magistrate. Salomon came to Storchus's house early on Sunday morning, saying his wife had fallen down a ladder way, broken her teeth, and was bleeding badly. Storchus's father and some others went to Salomon's place and found Mrs. Salomon lying on her back on the floor with her mouth bleeding and face bruised. She died as Storchus was lifting her up. Salomon is about 35 and his wife about 30. They lived near Starnburg. Storchus told her neighbors last week that Salomon told her that she must either drown or kill herself, for if he found her alive when he returned from Dominion City he would kill her if he found her alive.

Laid at Rest. Winnipeg, Feb. 24.—The funeral of Roy Mundie, who passed away at the General hospital on Friday morning, took place yesterday afternoon. It was largely attended by the hockey boys, rowing and canoe clubs and fellow bankers, who attended in a body, and others.

Swicide. Ottawa, Ont., Feb. 23.—Michael Bealar, of Pembroke, committed suicide on Saturday night. Despondency was the cause.

Killed at Fire. While John Manchester was helping Thomas Hill, of Stanley Corner, to extinguish a fire on the roof of his house on Saturday both men slipped and fell to the ground. Manchester was killed and Hill had his hip broken.

Refuses to Eat. Stanislas Lacroix, the Montebello murderer, has eaten nothing since he was informed of the government's refusal to commute the death sentence to life imprisonment, last Thursday, and is now in a serious condition. He positively refuses to eat. His death is looked for in a few days unless he alters his decision.

Bank Changes. Toronto, Feb. 24.—Canadian Bank of Commerce announces the following changes: G. K. Parkes, manager at New Westminster, B. C., to be manager at Seaford, Ont.; H. R. Davidson, accountant at Vancouver, to be manager at New Westminster.

Relatives Paid. Hamilton, Feb. 23.—The affairs of Lanehead, the absconding city librarian, were settled up on Saturday by the payment of \$1,700 by relatives.

Horses For Africa. London, Ont., Feb. 23.—Three hundred and forty-three horses were shipped from here to South Africa to-day, via St. John, N. B.

MUSCULAR RHEUMATISM produced by exposure, if neglected, develops into the chronic form with most incredible rapidity. South American Rheumatic Cure is a quick-acting, safe, simple and harmless cure, acts directly on the system, not a stimulant to temporarily deaden pain. An internal treatment that will absolutely cure most acute forms in from one to three days. Sold by Jackson & Co. and Hall & Co.—114.

THE NEW YORK FIRE.

Many Hotel Guests Rushed Into Flame-Swept Portions of Building and Were Killed.

New York, Feb. 22.—Fifteen persons are reported to have lost their lives in 57th regiment armory, 44th street, and spread to Park avenue, where fifteen persons were killed and many injured. It was the worst hotel fire since the Windsor was destroyed. The hotel was packed with guests who had come to attend the festivities to be given in honor of Prince Henry. More than 500 persons were in the house.

The guests, unable to find their way through the darkness, jumped from windows, or ran directly into the flame-swept portions of the building. It is this fact which accounts for the large loss of life, although the hotel was not destroyed.

Several hundred pounds of ammunition started on the fifth or sixth floor of the armory and detonated in a series of minor explosions, partially wrecking the portion of the walls near which it was stored. This added terror, and caused fear of greater explosions, to those who were fighting the flames.

After the flames reached the hotel scores of people were taken from the windows of an extension over the hotel dining floors of the house by firemen, and by police, many of the rescued being made hysterical from fright and terror.

Colons. Bennett and her husband, of Alabama, stood on the fifth floor, directly over the portico and main entrance of the hotel. Mrs. Bennett, thinking that no one was going to rescue her, shouted that she was going to jump. The firemen gathered in a circle below and stretched out their arms. She wrenched herself from her husband's grasp and flung herself headlong off the window, while the flames had reached the window behind her, and had almost enveloped her. She was killed. Her husband rushed back into the hall and made his escape.

Colonel Barrett, after making a desperate attempt to save his life, met death in a shocking manner. His skull was split open, and he was found shortly after 6 o'clock lying in the court yard within the hotel. He had fallen six stories. Colonel Barrett was a guest on the sixth floor of the hotel. Soon after the alarm of fire reached him, all escape was cut off. He dragged the mattress from his bed and dropped it to the roof of an extension over the hotel dining room three stories below. Then by tying the sheets together he made a rope and secured it to the window. His object was to land on the mattress, and thus reach the ground. He miscalculated the distance and fell to the court.

One of the saddest incidents of the fire was the death of Mrs. Salome O'Keefe, "the Tombs Angel," who, for fourteen years, has done service in behalf of female prisoners in the Tombs prison and other city prisons.

SURRENDERED TO POLICE. New York, Feb. 23.—Wm. Mild, a young Englishman who arrived on the Kron Prinz Wilhelm, gave himself up to the police, saying he had robbed the Birmingham firm of Walsh & Leavett of \$5,000 worth of jewelry. He had in his clothes 13 large diamond rings, some other jewelry, \$250 in American money and a few sovereigns. He declared that his loneliness and finding himself in America so depressed him that he decided to give himself up.

Michael Linkan, a passenger on Kron Prinz Wilhelm, was arrested to-day. Nearly \$40,000 worth of unset diamonds were found sewn in a belt. It is claimed he smuggled them into this country.

FIGHT IN THEATRE. London, Feb. 24.—The St. Petersburg correspondent of the Daily Express says that the police, learning that some 500 students had arranged a meeting to be held in a certain theatre last Friday night, quietly filled the galleries of the theatre with a thousand dronkies. After the performance had ended at midnight the students remained in the pit. At 3 o'clock in the morning, at a given signal, the dronkies suddenly descended and attacked the students. The students had arms, the and heads broken, and some of them were killed. A large number of them have been sent to hospitals, while others have been sent to jail.
