Political.

The St. John Sun pretends to find in our article of last week in reference to the rumor that a general election is to take place before another session of the Assembly at Fredericton, evidence on which to base the following conclusion:—

"Without being at all belligerent in tone the article clearly indicates that when Mr. Blair appeals to the people, St. John will not be the only portion of the province where his government will run up against its record with a thud."

If the Sun is looking to the North Shore for any assistance in putting down the Blair Government because of anything it has recently done, it is very much mistaken. We have our grievances against the Government, it is true, but in our efforts to obtain redress, have received but little encouragement from the men in whose interest the Sun wishes the political downfall of Mr. Blair and his associates. And it may be well for the St. John opponents of the Government to understand that many of them out a very ridiculous figure in North Shore eyes. They were but a short time since amongst the foremost in supporting Mr. Blair's policy in gross and detail, and they were amongst the most valiant of his supporters when he withdrew his claims for simple justice in the stupaage matter, yet because somebody else's man, instead of theirs, was appointed to a certain office by Mr. Blair, they have changed their political allegiance and are now as loud in condemning as they were before in praising the Government. Not only so, but they really seem to assume that their squabble over this little St. John spoils matter interests the people of other counties. Nothing that has happened in local politics for a good while has so thoroughly demonstrated the self-importance and conceit of our St. John friends, and if they are waiting for the sound of the "chud" referred to by the Sun to come from this direction, they have very good prospects of being disappointed. We feel very independent of the Government in this region, but the opposition, headed by the Sun, seems to us to be only something to be amused over, rather than seriously considered.

The Dominion Electoral Lists. The Dominion Government, which has no sole control of making up the Dominion electoral lists, has made it possible for the work to be done—like Chicago divorces—without publicity, until a time, perhaps, when it is too late for parties interested to protect their privileges. This should not be so, but as it is the law, we must put up with it. There are a good many young men entitled to have their names entered on the Dominion lists, which it is said are now being prepared for Northumberland, and in the absence of there being any provision for giving them information on the subject—so far as a large proportion of them are soon to go to their usual employment in the woods—we remind them that it is their right to apply to the Revising barrister, Judge Wilkinson, whose office is two miles above Chatham on the road to Newcastle ferry, to have their names placed on the list for the County.

Any person who is qualified under any of the following conditions is entitled to be placed on the lists; and it means almost every person who is not a criminal or insane, or a woman—and who is a British subject by birth or naturalization, and of the full age of twenty-one years.—Owners of real property, in towns, to the value of \$200 and upwards; Owners of real property in other places, to the value of \$150 and upwards; Occupants of the above property; Farmers' sons and owners' sons, if resident upon the property of their father or mother for a year; and this should appear with a statement of the age of the applicant, and whether he is the first or second son, and so on—as for each \$150 worth of property, owned by the father, (after deducting \$150 for the father's vote) a son, beginning with the eldest, may qualify—provided he is a resident with his father.

Tenants and the sons of tenant farmers paying not less than the following rents: \$2 per half year, \$6 per quarter, \$12 per half year, or \$24 per annum in money, or money's worth. Fishermen owning \$150 worth of land, boats or tackle; Indians having improvements to the value of \$150; Persons resident one year in Canada, and drawing an income of \$300 a year and upwards; Annuitants receiving \$400 a year and upwards; Sons absent at any college of learning in Canada, are considered resident with the father, for the purposes of registration. A son whose name was on the former list, but whose father has since died, will not be entitled to vote, unless upon application he show he is entitled to be registered upon other qualification than that of son of owner. This should be borne in mind by such persons; and acted upon at once. Personal property, except as above, is not a qualification under the Dominion Act. Persons who were registered as

Notes and News.

Notes and News. In many places in eastern Nova Scotia, wheat, oats and potatoes are afflicted with blight and will be a poor crop.

TORMENTINE. Work on the Cape Tormentine pier is progressing favorably, and the stone work now extends 1000 feet from the beach.

WIMBLEDON. Ottawa, Aug. 19.—The total Warnings of the Canadian team at Wimbledon was 2432, the largest amount ever recorded.

THE FATAL POOR FIT in the mines at Stollerton, N. S., is at last free of water, after nine years work. The debris is now being cleared out.

THE HATMATES around Macan, N. S., have again been stripped by a storm, which leaves the trees as bare as though a fire had run through them.

GOOD SHOT. Will Ogden, of St. John, N.B., performed a remarkable trick last week. He laid a cocked gun on the ground, stood off about 15 feet from it, threw a common glass ball into the air, turned a handspike, picked up and discharged the gun, breaking the ball before it reached the ground.

A DUKE SWINDLER. VICTORIA, B. C., Aug. 18.—The steamer from Alaska yesterday brings news that the Great Bear's Nest gold mine, recently purchased by the Duke of Sutherland and an English syndicate, have turned out to be worthless. The buildings and machinery have been abandoned, and the duke's agent has returned to Portland. The syndicate loss about \$2,000,000.

FREE TRADE THE BEST. Much has been said and written of Germany's competition with Great Britain in the market of the world. A recent issue of the London Economist shows that in the years from 1879 to 1887 inclusive British foreign exports increased in round numbers by \$150,000,000 or 15 per cent. while those of Germany increased by only \$90,000,000 or 12 per cent. This does not show that protectionist Germany is doing better than free trade England to any great extent.

A GREAT CATCH. Rockaway, Ga., Aug. 22.—Miss Louise Bates made a successful jump some days ago from a balloon with her pigeons. She ascended from Hamilton's Station at about 5.15 o'clock, her balloon taking a southeasterly course towards the ocean. When at the height of a mile and a quarter the daring young woman was seen to free herself from the balloon and descend rapidly with her pigeons. She landed in the ocean about a mile from shore and promptly began to swim towards the pier, being aided to keep afloat by a life-preserver which was fastened around her waist. Some of the life savers went out and assisted her to the shore. She was loudly cheered by several thousand people when she landed. She did not sustain any injury.

LOCAL POLITICS. (St. John's "Globe") The Chatham Advance contains an article on local politics in which it nicely considers the possibilities of a dissolution and general election. It admits that the enlarged franchise under the act of last session affords logical reason on which to excuse a dissolution, but thinks there is no general demand at the present time for a new election. In this the Advance is quite right. The people are indifferent; but, possibly, the government itself is not. Mr. Blair's administration has not been a success. His resignation will have to face an election in St. John for no less than three seats, one vacant by the appointment of the Solicitor-General to a non-political office, two vacant by the resignation of members of the administration because of disapproval of that proceeding. The government must naturally look at the matter from its own standpoint. It may think it more advisable to run a general election in which its whole policy is involved, than to run the bye-elections in one constituency, and to face a conflict with two ex-members who have resigned, and who have the prestige of resignation—naturally that may amount to—in their favor. Undoubtedly, the government have a justification in the enlarged franchise for a dissolution. And the country is disposed, we think, to accept that line of proceeding should it be decided on. The question of the time of the election is the most important one. The new act does not, for voting purposes, come into effect before 1st January next. An election at any time during the winter season is attended with very great inconvenience to all persons—outside of settled communities—who have to use the highways. Further than that a great many persons in the winter are "in the woods," and while possibly this might help to get the government out of the woods, yet it might not. However, it is a matter for serious consideration. Again, another thing which the government will have to consider will be whether or not it is well to allow the opposition to have another session. There is a certain compactness and cohesiveness among Mr. Blair's followers. The opposition now is like a rope of sand. But another session might enable them to make progress in the direction of solidification. From this special standpoint alone these considerations must weigh with the government. They seem to us to favor, as a matter of policy, a dissolution, and an election soon after the day accepted resolutions of the electorate is, as our contemporary intimates, indifferent, but it certainly would not object to an early election.

BRETHREN DISAGREE.—The Temperance Colonization Company held a meeting at Toronto on 20th inst., and the proceedings were quite scandalous. Manager Powell's lawyer cried out "Rats!" while an adherent of the party led by Mr. J. A. Livingston—who, by the way is a Richibucto man—was speaking, and the latter retorted "Yes, there have been two men rats gnawing at the necks of the Temperance Colonization Society." Manager Powell seems to have taken offence at this, and, later on, he approached Mr. Livingston from behind and, seizing him by the hair, bore him to the ground. Other parties pulled Mr. Powell away, and the affair was last reported as before the police court.

Well Sarah, what have you been doing to make you look so young? Oh nothing.

His resignation will have to face an election in St. John for no less than three seats, one vacant by the appointment of the Solicitor-General to a non-political office, two vacant by the resignation of members of the administration because of disapproval of that proceeding. The government must naturally look at the matter from its own standpoint. It may think it more advisable to run a general election in which its whole policy is involved, than to run the bye-elections in one constituency, and to face a conflict with two ex-members who have resigned, and who have the prestige of resignation—naturally that may amount to—in their favor. Undoubtedly, the government have a justification in the enlarged franchise for a dissolution. And the country is disposed, we think, to accept that line of proceeding should it be decided on. The question of the time of the election is the most important one. The new act does not, for voting purposes, come into effect before 1st January next. An election at any time during the winter season is attended with very great inconvenience to all persons—outside of settled communities—who have to use the highways. Further than that a great many persons in the winter are "in the woods," and while possibly this might help to get the government out of the woods, yet it might not. However, it is a matter for serious consideration. Again, another thing which the government will have to consider will be whether or not it is well to allow the opposition to have another session. There is a certain compactness and cohesiveness among Mr. Blair's followers. The opposition now is like a rope of sand. But another session might enable them to make progress in the direction of solidification. From this special standpoint alone these considerations must weigh with the government. They seem to us to favor, as a matter of policy, a dissolution, and an election soon after the day accepted resolutions of the electorate is, as our contemporary intimates, indifferent, but it certainly would not object to an early election.

BRETHREN DISAGREE.—The Temperance Colonization Company held a meeting at Toronto on 20th inst., and the proceedings were quite scandalous. Manager Powell's lawyer cried out "Rats!" while an adherent of the party led by Mr. J. A. Livingston—who, by the way is a Richibucto man—was speaking, and the latter retorted "Yes, there have been two men rats gnawing at the necks of the Temperance Colonization Society." Manager Powell seems to have taken offence at this, and, later on, he approached Mr. Livingston from behind and, seizing him by the hair, bore him to the ground. Other parties pulled Mr. Powell away, and the affair was last reported as before the police court.

Well Sarah, what have you been doing to make you look so young? Oh nothing.
