COMMON COUNCIL.—By referring to our first page it will be seen that the recent proceedings of this body are not altogether devoid of interest. Aldermen Walker and Cudlip, and Councillor Rowlin and Ballentine, forming the most youthful portion of the board, have proved themselves to be active and useful members. Whenever any of the old stereotyped jobbery turns up, we invariably find these gentlemen on the alert, and the old stagers

The infusion of this new blood into the body politic has produced admirable results; had it flowed in its veins many years ago, its numerous deeds which the Chronicle has so frequently denounced, would not have been perpetrated. The city debt would have been less by one half, and the public affairs would have been managed with far greater care. As matters now stand, the old stagers are kept in check, and if more than one Felix does not occasionally trouble, which to encounter the frowns of a wholesome opposition it is because he makes up his mind, that discretion is the better part of valour and wholly to refrain from those deeds of corruption, which in the good old time he committed with impunity.

ARRIVAL OF HIS EXCELLENCY HEAD.—Our highly esteemed Lieutenant Governor arrived in this City this morning at 6 o'clock, in the steamer *Commodore* from Windsor. His Excellency left the government for England, on the 10th of May last, and recently returned to Halifax in the R. M. Steamer *America*.—Sir Edmund was received by a guard of honor from the 72d Regiment, at the St. John Hotel. The bands of departments in town, with several of our leading fellow citizens were present on the occasion. His Excellency was accompanied by his amiable Lady and their Family, and Lady Lyell; Sir Charles Lyell, the distinguished geologist, husband of Lady L., intends visiting the principal coal and other Mining districts of this and the sister Province, and will afterwards become the guest of Sir Edmund for a short period.

The Lieutenant Governor, his Lady and Family, with Lady Lyell left this morning in the 9 o'clock steamer for Fredericton.

THE BISHOP OF FREDERICTON.—His Lordship arrived from England, via Halifax and Windsor, this morning. It is his intention to proceed to the Episcopal City early next week.

His Lordship will preach in Trinity Church, on Sunday morning next, and St. Paul's Church, valley, in the afternoon.

HOWARTH'S PANORAMA.

This brilliant exhibition will make its appearance in this city next week. We have a host of testimonials in favour of its excellence, and bespeak for it the patronage which such an extensive and well executed Painting so richly deserves. We take the following notice on the subject from an American paper:

"We have been highly pleased and entertained by the magnificent representations of some of the most celebrated wonders in the world, now on exhibition at Lyceum Hall. While contemplating the accurate delineation of the mighty cataract of Niagara, our soul was lost in the profound meditation of the almighty power who created this stupendous curiosity. A view of these celebrated Falls is admirably calculated to elevate the mind, and enlarge the range of thought, incite the spectator to reflect on the awful sublimity and beauty of the noble works of God, and impress upon him the existence of the divine Architect by the lessons derived from nature.

SUSPENSION BRIDGE.

A wire suspension Bridge is about to be constructed at the Falls of Niagara, to serve as a connecting link between the Railways of Canada and those of New York, it having been established by ample experience, that good iron wire, if properly united into cables, possesses sufficient strength for such purposes, in virtue of its great absolute cohesion, which amounts to, from 90,000 to 130,000 lbs. per square inch. In connexion with this subject, we may state, that from information recently presented to us, we are inclined to the belief, that the E. and N. A. Railway will cross the river St. John, by the agency of a wire Bridge at the falls.

INTERNATIONAL JOURNAL.—The Halifax Colonist says, that this paper is discontinued. It would thus appear that annexation is not popular in the Colonies, or even *occasional* manifestations of contempt of British supremacy. Query:—Will the subscriptions in advance be returned?

☞ The St. John (New Brunswick) *Chronicle*, of the 16th ult. is the latest date of our cotemporary we have received. [*Waterford Mail* 14th *Aug.*

The *Chronicle* is regularly mailed for you every week, and should leave Halifax, once a fortnight. The *Mail* is highly prized by us, and we therefore regret that its exchange is not received with regularity. [*Ed Chron.*

☞ His Honor the Secretary, arrived last evening from Head Quarters, and took lodgings at the St. John Hotel.

Married.

On Thursday evening, by the Rev. S. Robinson, Mr. James Devores, to Lucy Ann, eldest daughter of the late Mr. Fanjoy, all of this city.

JOHN KENNEDY,

"THIRD DIVISION OF PROFITS."

THE LIFE ASSURANCE COMPANY OF SCOTLAND,

ESTABLISHED IN 1836.

AT the Third Quinquennial Meeting of this Company, held in London, 24th June, 1852, a Surplus of £42,400 Sterling, (being four-fifths of £53,

the Policy holders entitled to participate. This sum allows of a reduction of Premiums for the next five years, of £9,633 16s. 3d. Sterling, per annum, or an equivalent reversionary Bonus payable at Death, of £68,939 16s. 7d.

The reduction of Premium averages 33.22 per cent. on the Premiums payable during the next five years.

The reversionary Bonus averages 60 per cent. on the Premiums received during the last five years, or 9 per cent. on the sums Assured.

Upon the Policies which had been full five years in existence, the reversionary Bonus averages 2 1-2 per cent. Premiums on the sum assured, a result which has been seldom equalled, and will bear comparison with that of any Office.

The following Table illustrates the Bonuses declared:

	Average Reduction of Premium.	Average Reversionary Bonus.
1st Division—1842	16.833 per cent.	21 per cent
2d. " 1847	31.333 "	53½ "
3d. " 1852	35.22 "	60 "

On the 31st December last, the Existing Assurances were £1,099,813 10 2
The Capital Funds of the Company were - 230,262 15 6
The Annual Income was - 47,721 2 6
The Divisible Surplus was - 53,000 0 0

The Directors consider, and trust the Policy holders will agree with them, that the position of the Company is highly satisfactory, and hope that, taking into account the continually increasing competition they have to encounter, the progress of the Company has equalled their expectations, as the benefits actually realized equal, and in most cases surpass, those afforded by the largest established Offices.

Prospectuses, Forms of Proposal, and every information may be obtained from

RANNEY, STURDEE & CO.,
Agents for New-Brunswick.

The purchaser also to pay the value of the improvements at the time of sale, to the parties who have made them.

Terms of sale and expenses of Survey will be made known by the Commissioners.

(9w) R. D. WILMOT, *Surv. Gen.*

MYERS' EXTRACT OF ROCK ROSE.

FOR all cases of Scrofulous Diseases, Dyspepsia, Salt Rheum, Sick Headache, Canker & Nursing Sore, Mouth, General Debility, &c. &c. No Medicine has ever received such high testamonials from persons who have been afflicted with the above named diseases, as the Rock Rose. Myers' Extract is an elegant preparation, perfectly save, and a wonderfully efficacious remedy. The extraordinary Medicmal properties of the Rock Rose Plant, have become known to some of the most eminent Medical practitioners of the country; others are fast becoming acquainted with its healing virtues, and desire to have it more extensively known and used.

The following is an extract from a note on the title page of a work published by D. A. Tyler, M. D., New Haven, Conn. on the efficacy of Rock Rose. These pages were penned without any expectation of their ever being presented to the public—ince which time the plant (Rock Rose) under consideration has been more fully tested its virtues developed, and their character more fully established. They are published by with the consent of several medical friends. The object of this dessertation is to lay before the members of the profession and the public, the virtues of a plant too much neglected which undoubtedly (as an order member of the profession once remarked to me) possessed far more attractive hours than the popular sarsaparilla. I ask for the plant an impartial trial."

ITS MEDICAL HISTORY AND PROPERTIES

Are far the most important, since upon these depends its value to the community. Dr. Loudon says, that in 1799, it was so valuable in England, that it was cultivated from seeds. Ever since 1806.

PROF. IVES, OF YALE COLLEGE,

Has habitually used it with great success in *Scrofula*, and *Chronic Disease*, and through him its virtues were made known until, as Dr. Tyler says, "it is now in this section [New Haven] a common article in domestic practice, for the cure of *Scrofula* and cutaneous diseases." Dr. Whitlaw, a Scotch botanist of notoriety, while traveling in America, in 1818, learned its use in Canada. Returning to England, he employed it in meliorating his baths, when became greatly celebrated for the cure of similar diseases.

DR PARISH, OF PHILADELPHIA,

Remarks that it has been successfully used in bad cases of *Scrofulous Diseases*.

DR. J. B. THOMPSON, OF THE SAME PLACE,

Prescribed it in bad cases of Scrofulous patients a Wells' Hospital. His success attracted the attention of senior physicians. He reports the following remarkable cases of White Swelling of the right hip, in February, 1844. The lad was seven years old, and had the disease for three years. The bone was dislocated upward and outward. There was a large opening on the hip leading to the bone, into which I could thrust my finger. I counted twelve ulcers. He had been under several physicians, who had given him up. I ordered a decoction of the *Rock Rose*. In two days his night sweats ceased; I then ordered a tea spoonful of the tincture of Rock Rose, three times a day. *Thirty-nine* days after he was *entirely well.*

For sale by *Druggists Generally*, where Circulars and Certificates of cures may be obtained.
