**EXTENSIVE CHANGES  
IN STEAMER LUDLOW**  
Ferry Superintendent Reported  
to Committee Yesterday on  
Work to be Done—Repairs  
to the East Side Floats.

There was a brief meeting of the  
ferry committee yesterday afternoon,  
but very little business was transac-  
ted. Ald. Potts presided and the mem-  
bers present were Aldermen Sproul,  
and Wigmore, with the superintendent  
and the common clerk.  
The report of the superintendent  
dealt with the repairs to the ferry  
steamer Ludlow, and the east side  
floats. The Ludlow is at present in  
Rodney slip undergoing repairs, and  
will have her tail shaft raised, her  
boiler opened and cleaned, new felt  
and sheathing placed on the deck and  
the projections on the cabins shorten-  
ed so as to clear the piling and lessen  
the danger of accidents. It will also  
allow of a wider view from the pilot  
house. Permanent seats will be fitted  
in the place of the benches out-  
side the cabins and the boat davits let  
in close to the cabins to avoid the  
possibility of their being carried away.  
The repairs to the east side floats  
have reached such a stage that it  
will be necessary to take the float out  
for a day and on that day it is pro-  
posed to run the ferry steamer for the  
foot passengers alone. The report  
was received by the board and or-  
dered to be filed.  
T. H. Ledford wrote complaining  
that he had been compelled to pay  
fines for two children. The superin-  
tendent explained that the children  
had walked through the turnstiles and  
the letter was left with him.  
It was suggested by the superin-  
tendent that a policeman should be placed  
on duty at the floats at the rush  
hours to enforce the regulations with  
regard to the teams.  
No action was taken on this and  
the board adjourned.

## JAMES PENDER ASKS CITY TO GRANT TAX EXEMPTION ON EXTENSION TO PLANT

His Firm Plans to Enlarge Their Business and  
Develop Export Trade With Other Colonies  
—Treasury Board Holds Application Pending  
Conference With Board of Trade.

At the meeting of the Treasury  
Board, last evening, a proposition by  
James Pender gave rise to a long  
discussion on the question of encour-  
aging the extension of local indus-  
tries by tax exemption of all invest-  
ment over a certain amount. It was  
decided to let the matter lie over till  
the Board of Trade had an opportu-  
nity to express an opinion. Two hun-  
dred dollars was voted to enable the  
chief of police to go to Vancouver.  
Other business of routine character  
was dealt with.

Before the meeting was called to  
order the chairman asked the repre-  
sentative of the Telegraph who was  
present if he would undertake not to  
report matters which in the opinion  
of the board should be withheld from  
publication.

The reporter replied that he had no  
authority to give such a pledge.  
The chairman then requested the  
Telegraph's representative to with-  
draw, which he did and the business  
was proceeded with.

Ald. Baxter presided and Ald. Potts,  
White, Hayes, Sproul and McGoldrick  
were present with the common clerk  
and the comptroller. Premier Hazen  
and James Pender were also present.  
A communication was read from  
James Pender stating that his com-  
pany was taxed higher than other  
companies doing a larger volume of  
business. It added that the firm was  
planning to enlarge their business and  
develop an export trade with the  
West Indies and Australia and New  
Zealand, if they could escape taxa-  
tion on the extension of their plant.

**Mr. Pender Asks for Level Rate.**  
Mr. Pender, who was heard in this  
connection, said that what his firm  
wished was that the tax assessment  
should not be increased for ten years.  
This, he thought, was a modest re-  
quest, as the cotton companies were  
exempt from taxation altogether.

In regard to the proposed develop-  
ment of his plant it would involve an  
expenditure of \$50,000. He hoped to  
develop an export trade, but was not  
sure that it would be very profitable.  
During his visit to New Zealand and  
Australia he had found a large de-  
mand for nails and a sentiment in  
favor of developing an intercolonial  
trade. St. John, with the inaugura-  
tion of a direct steamship service to  
New Zealand, would be in a better  
position than any other town in Can-  
ada for breaking into this Australian  
market. Upper Canada was troubled  
with mercuritis. The steel merger  
would tend to make it difficult for the  
nail men of upper Canada to compete  
with St. John, which would be able to  
get its raw material from Sydney.

**Merits Consideration.**  
The chairman said that the request  
coming from a man who had done  
much to develop manufacturing in St.  
John, merited serious consideration.  
He understood the board of trade  
was trying to formulate some plan  
whereby manufacturers doing a cer-  
tain amount of business might be ex-  
empted from taxation on any extra  
investment to enlarge their business.  
St. John was not a large manufactur-  
ing city and probably a limit of \$100,  
000 would be sufficient. If the city  
got no taxes from the additional busi-  
ness, the citizens, at any rate, get  
the benefit of the increased business,  
and employment. The tax exemption  
might be granted for a period of ten  
years.

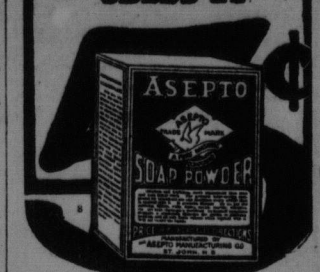

Ald. McGoldrick said the council by  
a two-third vote had the right to ex-  
empt new non-competitive industries.  
He thought they would have to be  
very careful how they exempted in-  
dustries from taxation. Other manu-  
facturers would claim the same privi-  
lege as Mr. Pender.

The chairman—We could exempt all  
corporations on all investment of over  
\$100,000; that is on actual investment,  
and not on watered capital.  
Ald. Potts said Mr. Pender's propo-  
sal was along the lines of his pro-  
tection policy. As to Ald. McGold-  
rick's contention that the common  
council was competent to do anything  
it pleased, He thought the principle  
might be extended to other trades  
with modifications based on trade con-  
ditions; for instance the shoe manu-  
facturers might be allowed tax ex-  
emption on all investment of over \$50,  
000. Personally he thought Mr. Pen-  
der's proposition to develop export  
trade with Australia would mean a  
good deal to St. John. It would mean  
more employment and more money in  
circulation.

**A Difficulty in The Way.**  
The chairman—The only difficulty I  
see is that the large manufacturer  
would be able to undersell his small  
competition in the local market.  
Ald. Hayes favored the principle,  
but thought it would be somewhat  
difficult of satisfactory application. He  
thought they should not place the ex-  
emption beyond the reach of the small  
manufacturer. The policy might have  
a tendency to promote mergers for  
the purpose of getting exemption.  
Premier Hazen, who was present,  
said that if St. John was to crowd,  
it would be largely through the develop-  
ment of its industries. Mr. Pender,  
he said, came before them as a man  
whose proposal had something behind  
it. He had seen an opportunity of de-  
veloping a new trade, and if he re-  
ceived sympathetic treatment from  
the council, the extension of his busi-  
ness would bring more ratepayers into  
the city and give more employment.  
He thought it would be hard to lay  
down a fixed principle to govern the  
question raised. Each case would have  
to be treated on its merits.

**Question of Local Prices.**  
Mr. Pender said his object was to  
develop an export trade. A larger  
plant would decrease cost of produc-  
tion, but it was not intended to take  
advantage of this to undersell local  
competitors. The Pittsburgh company  
charged 10 cents more for nails in  
Pittsburg than in New York, though  
the freight rate to N. Y. was 16 cents.  
Premier Hazen—Are not local prices  
fixed by your association?  
Mr. Pender—The association is
