## HOW TUBERCULOSIS IS FOUGHT IN U.S.

Money Expended in 1910 to Wipe Out Consumption Twice Amount Spent Previous Year.

In one year this country has practically doubled its appropriation for the war against the White Plague. In 1909 about \$8,000,000 was expended in the anti-tuberculosis campaign. In the year just closing the total was nearly \$15,000,000. The percentage of public expenditure over private expenditure has greatly increased in the year. More than twice as much was spent for sanatoria in 1910 as in 1909.

Washington, D. C., January 2.—During the year 1909 over \$8,000,000 was expended in the fight against tuberculosis. From reports gathered during the last two months the National Association for the study and prevention of tuberculosis is able to announce that in 1910 nearly \$15,000,000 was spent for anti-tuberculosis work.

Probably the most significant fact in connection with the statistics for 1910 is the increase in the percentage of public expenditures as contrasted with private. In 1909, out of a total of \$8,000,000 spent in tuberculosis work, over \$4,300,000 or 53.5 per cent, was derived from public appropriations, either federal, state, municipal, or county. In 1910, out of a total recorded expenditure of \$14,800,000, over \$9,250,000 or 62.5 per cent, came from public funds, and 37.3 per cent from private sources.

The following table shows the expenditures by states in 1910:

State	Public	Private
Alabama	\$2,000	\$5,500
Alaska	1,000	1,000
Arizona	4,000	76,000
Arkansas	68,000	1,000
California	88,000	316,000
Colorado	105,000	731,000

## BUDDING POET IN JACKSON PRISON

Colored Life Convict Devotes Time to Books and Frequently Breaks Out Into Verse

Jackson, Mich., Jan. 7.—Jackson prison has a poet. He is William D. Riley, colored, a life convict, better known by his comrades as "Bogie." He is forty-two years of age and was sentenced for highway robbery and attempted murder. Although he has a long record of crime he is one of the best educated men in the prison. He has served twelve years. When he came to the prison at the age of thirty years he could neither read nor write and no desire to be anything but a man of the road with a gun. To-day he is a different man. His cell is lined with books, about two hundred in number, embracing philosophy, sociology, astronomy, languages and comparative religion. Riley began his career as a highwayman and eluded the officers several years. He was finally captured and sentenced to prison for five years. At the expiration of the term he drifted back into his ways. He went to Mason, where he robbed a butcher shop. During the melee the proprietor of the place was shot and seriously wounded. Riley was arrested the next day and sentenced to life imprisonment. Riley has written a book of poems, many of which are philosophic, others dramatic. Here is a sample of his verse:

"Even here in durance vile,  
While I thers from, and pout and fret,  
I glean pleasure in a style,  
And hope for pleasures higher yet."

"I don't worry 'bout my lot,  
Nor for freedom pine and die;  
I'll find sweets in what I've got,  
And for more I'll search and try."

"As soon as we our errors kill,  
Others come creeping in,  
And for their best our life to fill  
With crime, with vice and sin."

**Shiloh's Cure**  
quickly stops cough, cures cold, heals the throat and lungs. 25 cents.

First president of the National Association for the study and prevention of tuberculosis.

Porto Rico	23,300	5,000
Rhode Island	81,500	51,500
South Carolina	1,000	6,700
South Dakota	10,000	15,000
Tennessee	16,500	54,000
Texas	46,000	122,000
Vermont	2,000	29,500
Virginia	45,500	55,500
Washington	13,000	73,000
West Virginia	1,100	2,500
Wisconsin	210,000	99,000
Wyoming	400	.....

Totals.....\$9,267,900 \$5,532,250  
Grand total, \$14,800,150.  
No more significant figures than these, as indicating the real trend of the anti-tuberculosis movement, can be given. Experts are agreed that the tuberculosis problem is too large for private resources, and that the eventual stamping out of this disease demands the co-operation and financial support of all public and official agencies engaged in health work.

In addition to the provisions for municipal work, a new heading "State work" has been added this year. This item includes state expenditures in tuberculosis work which could not with certainty be classed in any other group. The following table gives the amounts in each group for 1909 and 1910:

Class	Money Spent	Money Spent
Sanatoria	\$11,376,500	\$5,300,000
Association	700,500	975,000
Dispensaries	889,000	650,000
Municipal work	1,055,000	1,115,000
State work	719,000	.....

Total.....\$14,800,000 \$5,180,000  
In money expended New York state stands at the head, with a total outlay of nearly \$2,500,000 in 1910, as compared with \$1,660,000 in 1909. Pennsylvania still maintains second place, and Massachusetts makes a good third.

This campaign against tuberculosis has entered upon an era of increased efficiency. The methods for the solution of the problem are daily becoming clearer. These include hospital sanatoria, camps, all classes of cases, rich and poor, incipient and advanced, old and young. Dispensaries and provision for home treatment with the accompanying visiting nurse are among the pressing needs.

To interest and enlist all the social, legislative, religious, industrial and other forces of the country in the carrying out of these methods will mean the ultimate solution of the tuberculosis problem.

## CARIBOU ELUSIVE IN BRITISH COLUMBIA

Curator of Provincial Museum Returns from Trip to Queen Charlotte Islands in Vain Search for Strange Animal

Victoria, B. C., Jan. 7.—Francis Kermod, curator of the provincial museum, has returned from a month's expedition to Graham Island, the largest of the Queen Charlotte group, where he was in search of specimens of the Rafflesia dawsoni, a rare species of caribou known to exist on those islands. A hard luck story and a few bad days of search were all that he has to show for his journey. He saw nothing of the elusive caribou. He is, however, convinced of the continued existence of the animal in question and proposes to go on another quest when opportunity offers. "We spent our time," said Mr. Kermod, "mostly on the west coast of Virago Sound, where traces of these animals have been found in the past. We saw tracks of two, but these were several weeks old and of the animals themselves we obtained no sight. "The existence of this particular species of caribou was first reported in 1882, and a description was prepared by Ernest Thompson Seton from rather scanty material, as all he had to rely upon was a fragment of skull and one horn, together with a description of the skin given by a man who had seen it. From these data Mr. Thompson Seton felt warranted in concluding that the caribou was of a hitherto unknown species. "Some traces of the animal were next obtained in February, 1906, by officers of H. M. S. Shearwater, who visited the Queen Charlotte Islands for the purpose of making a search for moose, as the Indians did not know how to prepare them for this purpose, and I suppose, were not much interested anyway. "During our trip G. Pittendrigh, who was with me, and I not only saw the tracks of which I have spoken but we found the skeletons of the three

## HOW TO GET FROM SACKVILLE

New Open Air Rink At River Hebert One Of Largest In Canada—Wedding Anniversary And Presentations.

Sackville, Jan. 4.—The death of Mrs. Adam Simpson formerly of Shepstone, Rock Island, the home of her daughter, Mrs. James Lamb, Halifax. The deceased was in her 66 year. Her husband predeceased her eight years ago. Besides the daughter, one son survives, Arthur, Port Elgin. The remains will be brought to Sackville for interment on Saturday. The funeral was held from the Presbyterian church, Rev. J. H. Brownell conducted the services.

George Lund, carpenter in the Fawcett Foundry had one of his fingers taken off last week while operating a planer.

A large new open air rink has recently been opened for skating, at River Hebert. This rink is one of the largest east of Montreal with an area of 14,388 square feet. On one side of it is a curling rink. One novel feature of this rink is that the fair sex are admitted free.

The week of prayer is being observed by union services in the different churches here.

The breakwater at Pink Rock is now completed, work having been going on there since last April. Mr. Charleston was the contractor.

Mr. and Mrs. John Carter of Pt. de Beche had a pleasant surprise on Saturday evening when a number of their friends called to celebrate their twentieth wedding anniversary. A particularly pleasant evening was spent, during which Mr. and Mrs. Carter were presented with a handsome china dinner set as a reminder of the happy occasion.

Rev. Alexander Rogers, pastor of St. Stephens Presbyterian church, Amherst, was the recipient of a purse containing \$110 in gold, at the holiday season presentation was made by P. A. Curry, manager of the Royal Bank, as a token of regard from the members of the congregation.

Trinity Methodist church of the same town has fitted up a modern gymnasium in the basement of the church, where the physical development of the Methodist young men will be provided for.

The annual Christmas entertainment given by the Main street Baptist Sunday school was held in the church on Friday evening. There was a large attendance and a pleasing programme was rendered. At the close of this the children marched to the vestry where the fruit of two well laden Christmas trees was distributed.

The mild weather of the last week has had a depressing effect on the lumber business, and snow is eagerly looked for.

Dr. Anderson, of Boletown, spent part of this week with his parents, Mr. and Mrs. LeBaron Anderson.

caribou killed by Indians and brought back the big bones to be used in the mounting. It is possible to the opinion that this rare species of caribou is indigenous to the Queen Charlotte Islands; at any rate it is difficult to understand how the animal could have arrived there unless they came in the far off days when the islands were connected with the continent.

"I am sure there are two of them at least," said Mr. Kermod, "because we saw tracks of two, but I would not like to say whether there are any more."

Mr. Kermod has come back with the idea that Graham Island would have a good preserve for deer and that it would be a good idea to send some as an experiment. There are no wild animals on the island except bear and the possible caribou.

## FIRST WEEK ON LONDON 'CHANGE

London, Jan. 8.—The first week of the year on the stock exchange was not productive of as much expansion in outside orders as anticipated. This selling couplet with talk of new issues, shaded the early advances in the gilt-edged section. Reinvestment of dividends caused moderate gains in home rails and colonial stocks, but the demand slackened and speculative issues were neglected on the clouded monetary outlook.

The continued gold exports will probably delay a reduction in the bank rate another fortnight, while repayments of cash to the Bank of England left the market bare of supplies and caused an advance in discount rates at the weekend. These factors, together with the forthcoming revenue collections, indicate a scarcity of money for a time.

American securities fail to attract supporting the Supreme Court decisions in the various trust cases. During the week Berlin supported Canadian Pacific and Vail street houses bid up their favorites. Speculatively, raising values from one to three points over last Saturday.
