London, August 1, 4 a. m.—A sensation al Shanghai correspondent still hints that the Chinese are juggling with dates; but in face of the constantly accumulating evidence that the ministers were safe on July 22 and despite the omission from all the despatches of anxiously desired information regarding the real situation, political or otherwise, at Pekin, there are very few in London who do not believe the dangerous problem. Without doubt the ministers are held by the Chinese as hostiles, and the outcome of the ablies, not to do an act of vengeance, but to restore peace and to secure guarantees for the future. This can be done by co-operating with the value of the ablies, not ably the Japanese have been pushing their preparations with feverish hatet, or ganting a service of pack carts, trains

Today's despatches show that the allies, notably the Japanese have been pushing their preparations with feverish haste, or ganizing a service of pack carts, trains and junks. It is reported from Berlin that Lieut. General VonLessel, commanding the German forces in China, whom Emperor William has just, promoted to the rank of general commanding an army corps, has been selected as commander inchief of the allied forces.

The Chinese are strongly entrenched at Wang Tsun, from which position, however, it is believed they can be ejected without great difficulty. The danger is that, if defeated there, the Chinese will retire on Pekin and put the remainder of the Europeans to death.

It is also possible that the advance of the allies will be the signal for the Chinese authorities to compel all foreigners, every where."

A Cry for Help.

Wasington, July 31—Adjutant General Corbin today received a despatch from Lieut. Colonel Coolidge, commanding the Ninth Infantry at Tien Tsin, July 27—Following letter of Lieut. Colonel Shiba, military attache at the legation of Pekin dated July 23, arrived Tien Tsin 25 at 9 o'clock in the evening:

"Pekin, July 22 (Evening)—We are all awaiting impatiently arrival of reinforcing army. When are you coming?" All legations have been blocked since 13th last month and since the 20th we have been attacked continually night and day by the Chinese soldiers from more than ten encampments. By a supreme effort we are still defending. We are daily, avaiting with the greatest anxiety arrival of reinforced army and if you cannot reach here

It is reported from an unofficial but usually reliable source that the Chinese minister at St. Petersburg wired to Li Hung Chang intimating the possibility of obtaining favorable terms of settlement from Russia, if China would adopt a conditatory attitude and compel a cessation of the attacks on the legation. Thereupon, according to this informant, Li Hung Chang memorialized the throne, repreforeigners and missionaries.

The officials here feel certain that the attack by the Chinese on the legations will not be renewed. They are convinced that the counsels of the viceroys in the great southern and central provinces and the advice of Li Hung Chang have had effect and that whoever is in power in Pekin, whether Emperor, Empress Dowager, Ching, Tuan or Tung, now have been made to see the necessity for the preservation of the legations. The officials here, while anxious that the movement on Pekin begin at once, do not attach credence to the rumor mentioned by Gen nere, while anxious that the movement on Pekin begin at once, do not attach of tharles Tupper has changed his plans and credence to the rumor mentioned by Genderal Chaffee, that the forward march was to begin today. There are two reasons for their incredulity. In the first place Chaffee's force, his splendid cavalrymand his battery of artillery, are exactly what are needed to strengthen a weak spot in the international column. In the second place (and information on this point comes through European channels) some of the foreign commanders are still of the opinion that they cannot begin the campaign before the last week in August at the earliest. The United States government never has acceeded to this view and ment never has acceeded to this view and is relaxing no effort to bring about a change of plans of this point. Representations have been met by the almost unanswerable argument that the decision of this important question should be left to the military commanders on the spot, who must bear the responsibility for the outcome of the expedition.

A rather startling proposition was advanced today which, if adopted, might put at once to the test the Chinese profession that the Boxers and not the Chinese government are responsible for what has happened in Pekin. This was to the effect that the Chinese government should be informed that the international force was prepared to take that government at its word and join forces with it in crushing out the insurrection. The kernel of just such a proposition is to be found in the last condition laid down by the presithe last condition laid down by the press-dent in his reply to the appeal of the emperor, Kwang Su, and there may be a development in that direction speedily. Secretary Root says that nothing has been received from China either officially or unofficially necessitating any change in the instructions given Major General Chafthe instructions given Major General Chat-fee. If there is an advance on Pekin it is presumed that such of the United States forces as are now ready will participate in the movement. If despatches are re-ceived at Tion Tsin from Minister Con-ger or others in the legations at Pekin, which change the existing conditions, Major General Chaffee will act in accord-ance with such information. It is not believed that all of the equipments of the last expedition sent from Manila have been landed and it is of course apparent that the horses and most of the equipment of the Sixth Cavalry are still at sea. The Ninth Infantry and the two battalions Ninth Infantry and the two battalions of the Fourteenth Infantry, together with the marines, are the only troops of the United States actually available on Chin-

The Japanese in Pekin,

Washington. July 31—The Japanese consul at Tien Tsin telegraphs on the 27th inst., a despatch dated the 19th from the Japanese minister at Pekin to the foreign office at Tokio, which had reached Tien Tsin by special courier on the 25th. The minister says:

One of the Munich Allegemeine Zeitung prints a Washington special, claiming that the United States government is endeavoring to enforce the appointment of Major General Chaffee, as commander in chief, but that Germany and Japan oppose. The Associated Press is authorized to say that, so far as Germany is concerned, this statement is absolutely untrue. The foreign office confirms the report that the advance minister says:

"The Japanese marines and others continue, under the command of the military attache, Lieut. Col. Shiba, to reset the report that the advance to Pekin has been postponed by the admirals for military and climatic reasons. The Chinese minister, Lu Hai Huan, received to be a despatch purporting to the task is by no means an easy one, until we are relieved by the division of Japanese marines and others continued to Pekin has been postponed by the admirals for military and climatic reasons.
