Patrick McKenney and Dr. J. H. Simon Were the Names Before the Meeting, and the Chairman Had to Decide Against One and

for the Other.

A special meeting of the slaughter house commissioners was held yesterday afternoon to apoint an inspector for the board, and Dr. W. H. Simon was the gentleman chosen. There were present Chairman Hay and Commissioners Gleeson, Berryman, Gallag-her, Frink, Shaw and Drake. Commissioner disconter moved that Mr. Patrick McKenney appointed inspector, explaining that Mr. McKenney was the killer at the Damery slaughter house and had much experience. Ommissioner Drake, who seconded the mo-tion, said that Mr. McKenney had practical mowledge, which would exceed the know-ledge of a veterinary. Ourmissioner Frink thought that before any motion was dealt with that the duties of an inspector should be defined. There had been something said at the board meet-tings about the inspection of meats. He thought the board had nothing to do with this matter, but that it lay with the board of health.

Commissioner Snaw said that the board had not so much to do with the inspection of meats, but their duties were to see that the animal was inspected before killing. Commissioner Gallagher thought that the man for inspector should be a practical butcher. Commissioner Frink then nominat-ed Dr. W. H. Simon for the position of in-spector.

spector. Commissioner Berryman seconded the nomination and said that if Dr. Simon was willing to accept the position that the board would get the right man. He had the know-ledge to detect incipient disease in cattle and also in the meats. Commissioner Gleeson put forth his claims for the appointment of Patrick McKenney. Commissioner Drake followed with his claims for the appointment of Mr. McKen-ney, stating that this was the best man for the position.

Grogan, jr., who was shot on July 4 last, while engaged in tabout Unredice with Fastman A beautiful collection of oils and water olors, the work of the Woman's Art As-

sociation of Canada, will be shown today when the local branch of this organization opens its exhibition at 10 o'clock this norning in Palmer's building.

The studio is especially adapted to a display of paintings, its excellent lighting showing every bit of work to the best advantage. The effective green and cream tones of the general arrangements and de-corations make a most effective setting an hour before the tragedy; the target corrations make a practice which ended in the shooting of for the paintings.

Grogan, accidentally as claimed by Eastman; Grogan's dying denunciation of Eastman as his murderer; the arrest and somewhat remarkable discharge of the in-structor after a hearing or inquest by a local judge, and finally, Eastman's in-dictament for murder by the grand jury in spite of the result of the inquest, have all combined to make the case one of the most noteworthy in the legal annals

Rev. Prof. Steen's Resignation Prevents a Breach.

Montreal, April 22-At the close of his sermon in Christ Church yesterday morn-ing, Rev. Prof. Steen made the announcement that he would leave on Tuesday of next week for New York where he intended to engage in parochial work. Bishop Pond recently took objection to certain doctrines taught by Prof. Steen, among them supporting the evolution the-ory, and he was compelled to resign. An influential section insisted that he be re-tained as preacher and a serious breach was feared. The announcement yesterday will have the effect of clearing the atmosere, although a number of his friends state their intention of bringing pressure to bear upon Prof. Steen to reconsider hi ecision to go to New York.
