The company's property is now estimated to be worth $60,000 or $40,000 in excess of the capital stock. The commissioners assume improvements were paid for out of the receipts which means that the company profits exceeded $150.000 This is regarded as a pretty good showing for work carried on only five months out of the year and under the direction of only two salaried officials.

ROTHSCHILD COLONY HAS SAILED FOR CANADA

Montreal, Feb. 13—(Special)—A special London cable says: The 109 emigrants who were afforded a new start in life by the Rothschild emigration scheme, have bidden adieu to their old homes in Tottenham. There are no "wasters" no "unemployables;" every man's life chart has undergone the strictest investigation. Every one has a situation and a home ready for him whenever he reaches the destination arranged for.

As far as the fare is concerned, it will be advanced by the Rothschild fund. Each man signs an agreement to repay the amount by monthly instalments, amounting to thirty per cent. of the wages received in Canada.

In addition to this amount, should the man leave any debts here, he agrees to pay the same at the rate of ten per cent. per month from his wages, making a total of forty per cent. per month to be returned until the whole debt is wiped off. In the case of a young man who has been in the habit of supporting his parents, an agreement will be made by which they will get a least £1 a month. As far as possible only one family will be placed in a locality in Canada, and a small amount of money has been sent to whatever point the emigrant is going to.

To those who are going Rothschild has spoken cheering words. "It is through men like you that Canada has become great," said he to the emigrants, who had a most enthusiastic send off. Thousands assembled in the neighborhood of St. Johns hall at Stamford Hill.

The emigrants will sail today on the Lake Champlain for St. John (N. B.) Mr. Preston also addressed encouraging words to the emigrants.

The committee of the queen's unemployed fund have granted the Salvation Army £2,500 for emigration to Canada. A similar amount for similar purposes will be added by the Salvation Army. The fund thus created is to be administered by a committee, on which the queen's fund will be represented.

May Be the Christopher Duff Inquired For.

To the Editor of The Telegraph:

Sir,—In your issue of the 12th inst. you ask for information regarding one Christopher Duff, late 4th Battalion, 60th Royal Rifles. I remember Lance Corporal Duff (a bugler), who served in that battalion at the period mentioned, 1867-69, who afterwards became bugle major, succeeding the late Robert Shaw, and I think went home with the regiment. Portsmouth (Eng.) was their next station after leaving St. John in 1869. Whether this would be the party sought after or not I cannot say, but if you see fit to send a marked copy of The Telegraph to the following addresses it might be the means of bringing out the desired information as all served in that battalion at the time:

Robt. Greenwald, late band master, now musical director, Academy of Music, Montreal.

H. Jarvis, late master tailor, now in business in Montreal.

Aug. Ellis, late of band, now at New York Musical Union, Third avenue and 91st street, New York.

James Lydon, band, now with the Grand Trunk Railway and living in Hamilton or London (Ont.)

T. Healy (late band) and afterwards succeeded Riveri as bandmaster 1st Battalion, 60th Rifles, now living in Clapham and is bandmaster to the London county council.

William Drinkwater Anstead (band), care Carl Escher, music publisher, Fourth avenue, New York.

Last but not least we have the present colonel in chief of the regiment, General Sir R. H. Buller, who in those good old days was a lieutenant in the battalion, but he would hardly keep run of the buglers, so let us look elsewhere. The Army Record Office, Fetter Lane, London, E. C., is, however, the proper place to apply for authentic information regarding a soldier's regimental record. All that is necessary is an order from the war office which is easily obtained, gratis. On making application to the secretary in writing you may then peruse the records from A to Z, and from personal experience I will assure you of the greatest courtesy from the officials.

Yours,
STANLEY LAWTON.

Heath Hall, Hampton (N. B.)

A Farmer's Query.

To the Editor of The Telegraph:

Sir,—Seeing by the papers that the lawyers are asking that the magistrates' courts throughout New Brunswick be done away with and some other kind of a court appointed for the collection of small debts, as probably not five per cent of the inhabitants of the province understand why a change should be made, no doubt The Telegraph would lend its columns to those wanting a change to explain what advantage the change would be to those now using magistrates' courts for the collection of small bills.

Yours truly,
FARMER.

Blizzard in the West.

Milwaukee, Wis., Feb. 13—A blizzard which set in tonight has developed into far the worse storm of the winter. The train service is being demoralized and the telegraph and telephone companies are suffering severely, particularly in the northeastern portion of the state and along the Lake Michigan shore. The prospect is that by morning the train service of the state, except over the more important lines will have been practically abandoned.

Suffered for years with Stomach Trouble

Fruit-a-tives" promptly cured her.

Stomach Trouble is usually bowel trouble. The bowels become constipated. Poisonous matter, which should leave the bowels every day, stays in the bowels, two and three days at a time. These poisons paralyze the stomach muscles, prevent the digestive juices from reaching the food, and stop the whole process of digestion.

MRS. F. H. WALLACE, St. Mary's, Ont.: "I have used most of one box of 'Fruit-a-tives,' and found them all right. I have had a good chance to recommend them as I have been in bed for a week with a bilious attack and am getting around fine thanks to 'Fruit-a-tives'."

Doctors talk of dyspepsia and catarrh of the stomach when they should talk of Constipation.

Fruit-a-tives
or Fruit Liver Tablets

cure Stomach Troubles because they tone, sweeten and stimulate the stomach and they cure the Constipation which is the chief cause of dyspepsia. These concentrated and specially combined fruit juice tablets act directly on the liver—increase the flow of bile—and make the bowels move regularly and naturally every day.

More than that, "Fruit-a-tives" regulate the kidneys—strengthen them—make them excrete more urine—and rid the system of excessive urea and uric acid. They stimulate the glands of the skin to increased action—take away pimples and redness—and keep the skin clear, soft and lovely.

A month's treatment with "Fruit-a-tives" will make you think you had a new stomach.

50c. a box or 6 boxes for $2.50. Sent prepaid on receipt of price if your druggist should not have them.

Names Heard in Connection With Nomination on Both Sides—Restigouche Lumbering Good.

Oliver Smith, a Campbellton lumberman, is at the Royal. In conversation with a Telegraph reporter last night he said that it was not yet clear who would run for the seat to be vacated by H. F. McLatchey, one of the M. P. P.'s for Restigouche, when he takes the county court judgeship to which he has been appointed. James Stuart, ex-sheriff of Restigouche, and William Montgomery, mayor of Dalhousie, are both mentioned in connection with the nomination for the opposition party, but, he added, there is no certainty of either of them coming out. Mr. Smith had not heard any names mentioned for the government party. Elsewhere, though, Wm. Murray, of Campbellton, is mentioned.

The lumber conditions Mr. Smith reports to be very good in Restigouche and neighboring counties. There is about a foot of snow in the woods and he thinks that most of the logs will be got out safely but that another foot of snow will be necessary to ensure good driving. Good progress, he says, has been made on the Restigouche & Western railroad. Mr. Malcolm, the contractor, expects to have the road built through to Grand Falls in two years.

Vesuvius At It Again.

Naples, Feb. 13—Mount Vesuvius eruption is assuming alarming proportions. The Funicular railway track has been damaged at six points, and the principal station is threatened with destruction. An effort is being made to save the station by the construction of a thick wall of masonry reinforced by embankments of sand. Streams of lava are flowing with considerable rapidity, destroying everything in their course. The authorities are taking precautions.

Isaac Paul, who died last week at Prince William Station, was well known as an Indian guide and a good one. He died of consumption and was only 28 years old. He is survived by his wife and one child.
