The annual meeting of Germain street United Baptist church was held Tuesday night in the church parlors. The pastor, Rev. W. W. McMaster, presided and a large and representative gathering of the congregation was present.

The treasurer, Donaldson Hunt, gave a very interesting financial report for the past year. The balance on hand from 1905 was \$121.93 and the amount collected during 1906 was \$7,900.18.

The church clerk, T. H. Belyea, reported that during the past year, as a united body as well as in the different departments of its activities, the church work was regular, systematic and encouraging.

Early in the year, to the great regret of the congregation, the pastor, Rev. Dr. G. O. Gates, resigned his charge to accept a call to the Westmont Baptist church, Montreal. His farewell to the church and congregation took place on Sunday evening, April 1. On August 1 Rev. W. W. McMaster, formerly of the Fourth avenue Baptist church, Ottawa, in consequence of a unanimous call from the church, entered upon his duties as pastor.

During the five months of his pastorate both he and his wife have entered heartily into their arduous duties in connection with the church work and are rapidly finding a warm place in the hearts and homes of the congregation.

The number of deaths during the year was four, viz: Mrs. Diana Jewett, Miss Minnie Duval, Mrs. Hatfield and Walter Lane.

The present membership is 480, of the number 100 being non-resident.

Encouraging reports were submitted as regards the poor fund, benevolent and denominational fund, collection of pew and ground rents, and from the finance committee, Sunday school, music committee and other branches of the church. Officers for the ensuing year were elected as follows:

Winter Made Maple Sugar.

The Telegraph has received from S. H. F. Sherwood, of Sussex, a sample of maple sugar which, Mr. Sherwood writes, was made from sap drawn from the tree on Dec. 29, 1906. Mr. Sherwood sees in this a pointer for Mr. Kipling, and says that the fact that "the maple sap will run in Canada when England is frozen up and snowed under" will be information for the poet.

FAMILY AT LARGE
KILLED WITH TRACHOMA

Came Here Via Newfoundland and Prevented from Going to States

Five in Number and All Declared to Be Affected--Not Known What Will Be Done to Prevent Spreading of Disease to Others.

There arrived in the city Tuesday morning a Russian family, consisting of father, mother and three children, all of whom, with the exception of the father, entered Canada from Newfoundland on their way to the United States. They were stopped by U. S. immigration officials here, and are now at large in the city, every one of them being declared affected with trachoma. As it is a contagious disease, there is danger of its being contracted by others who may come in contact with them.

The father of the family had been in the United States, and had gone to Newfoundland to meet his family and bring them to his new home. A suspicion as to their condition of health was aroused in the mind of a United States immigration official, and he took them from the train here, bringing them before the immigration board and for medical inspection, and the result was that they were declared all to be suffering from trachoma, and were refused admission to the States.

This, it is stated, ends the connection of the United States immigration board with the matter until such time as the family may again seek to cross the border. There is at North Sydney a Canadian immigration station, established some time ago by Mr. Anand, the Canadian agent at Halifax, on the occasion of a body of Syrians seeking to enter the country via Newfoundland. The mode of travel from Newfoundland to Sydney is by the steamer Bruce, and the Canadian department put the Bruce on the same basis as ocean steamers in the matter of immigration, and a medical examiner was placed at Sydney. It is presumed that this family came by Sydney and, if they passed the immigration authorities there, they are legally admitted into Canada; but it may be that they have eluded the inspection there.

However, it is not clear at the present time whose duty it is to take precautions against infection of others by contact with the family, but possibly some action will be taken today.

The people were of the Jewish faith, and it was understood that some of their compatriots in the city were caring for them last night.

TUG SEA KING
SUFFERS BY FIRE

Department Called to Indiantown for Blaze Which Did Considerable Damage.

Fire Tuesday badly damaged the tug Sea King, owned by Tapley Bros. The tug was lying at their wharf at Indiantown, when a fire broke out in the engine room. The fire was caused by a gas leak from the engine, which ignited the oil in the engine room. The fire spread rapidly and the tug was completely gutted. The damage done is considerable, and the tug will probably be a total loss.

The tug's house was pretty well burned by the time the flames were extinguished. Tapley Bros. could not put any definite figure on the damage last evening, but some say it will probably reach \$2,000. Insurance to the amount of \$5,000 was carried on the tug, \$4,000 in the Commercial Union, and \$1,000 with the North British Mercantile Company.

The cause of the fire was difficult to ascertain, but it was thought by some to have caught from a stove.

MADE GOOD RUN

Schooner Margaret May Riley Fourteen Days from Apalachicola to St. John.

Fourteen days from Apalachicola (Fla.) to this city is the record established by the three-masted schooner Margaret May Riley, Capt. C. S. Richard, which arrived here last Saturday afternoon.

The schooner left Apalachicola on Dec. 21 loaded with pitch pine lumber consigned to J. A. Lively, of this city. The time usually taken for the trip is eighteen or twenty days and the schooner in making it in fourteen days has shown her self to be a "good one." She is owned by Pades & Mills, of Annapolis, and on Tuesday, when her cargo will be discharged, she will be towed to Annapolis, where she will again load lumber for a West Indian port.

Richard and Mate Emerson, who are both Nova Scotia men, the vessel carries a crew of six.

Shortly after the ceremony, which was performed by Rev. Father Carson, the happy couple left for St. John. On their return they will reside at Seelye's Cove.

Alex. Prince and Miss Myrtle Moffatt, both of Kingston (N. B.), were married at 4 o'clock Tuesday afternoon at the residence of the officiating clergyman, Rev. D. Lang, Duke street. After the ceremony, Mr. and Mrs. Prince started on a twenty-three mile drive to their home in Kingston.

The happy couple left by the evening train for a honeymoon trip to Boston and New York, and on their return will reside in St. John.

Among the wedding gifts, which are numerous and beautiful, may be mentioned a Persian lamb coat, trimmed with mink. Both bride and groom have many friends who will wish them every happiness in wedded life.

The bride wore a handsome costume of cream hand embroidered East Indian silk, richly trimmed, and she carried a bouquet of white roses and carnations. She was attended by her sister, Miss Lottie Dunn, who wore a costume of cream tulle and carried a bouquet of white carnations.

The groom was attended by Theodore Bates, son of Rev. T. H. Bates, of Sussex, (P. E. L.) A large number of very handsome presents were received from Coburg street Christian church and many relatives and friends.

After a wedding dinner the happy couple took the train for Montreal for an extended visit among relatives in the United States, during which time Mr. Floyd will probably take a special course in Kentucky University.

CHILD CONTRACTED
DIPHTHERIA IN HOSPITAL

Son of Rev. Mr. Puddington Dies of Disease Which Attacked Him While a Patient.

Lyster, the three-year-old son of Rev. J. H. Puddington, pastor of Cumberland Bay Baptist church, Grand Lake, died in the epidemic hospital here Wednesday from diphtheria, contracted in the main institution where, for the last five months, he had been under treatment for bone abscess.

Dr. Malcolm, the resident physician at the hospital, when asked what explanation could be given for a patient in the institution contracting diphtheria while there, replied that it was a sporadic case and he could not define the source of contagion. All he could say was that the child was taken ill on Monday and passed away Wednesday.

GRAIN TRIMMERS HAD
UNCOMFORTABLE TIME

Caught and Nearly Buried in Hold of Steamer Pomeranian.

On Wednesday afternoon fourteen longshoremen working in one of the holds of the Allan liner Pomeranian had a narrow escape from being buried while loading grain. The work of putting grain into the hold was started Wednesday afternoon and fourteen men were put to work in one of the holds.

After shoveling for some time the men ordered for the grain to be stopped to let them catch up, but there was no answer from the man who was attending the hold. The grain continued to pour into the hold so fast that the men say it was soon over their heads, and as a result the fourteen men were pinned in. Frank Lamoreaux, a hobo, who went down in the hold to see that the work was progressing, was also pinned in.

The men gave some lusty shouts but were not heard. Those trimming on one side of the hatch started to shovel their way out but were soon over come by the dust and were so exhausted that they threw down their shovels, giving up hopes of getting out.

James Ross and Bernard Woodworth, who were together, after trying every possible means of escape, were about to give up when Ross sighted daylight and he and Woodworth, after considerable trouble, ploughed through the grain and worked their way out of the hold. They reported the plight of the others and soon all were removed from the hold. The men say the trouble was caused by the hatchmen leaving their post to put the dinner cans where their contents would be wanted.

UNION CLOTHING CO.

BETTER HERE THAN IN THE UNITED STATES

After a year and a half spent in United States and Canada, studying the conditions of the Scandinavian people, Hugo Arvidsson, of Gothenburg, Sweden, is in the city on his return home. He is at the Grand Union, and will sail on the steamer Empress of Britain today. It is Mr. Arvidsson's intention to write a book on his impressions. When asked if he had any part of the book written, he said: "I have the ingredients in my trunk." He said it would take him more than a year to complete the work. He expected to make enough out of the book to reimburse him for his expenses while in America. He had, he said, written several novels. Mr. Arvidsson said that the condition of the Scandinavian people generally throughout America was not one to be proud of. Of those who emigrated to the United States, seventy-five per cent. would be happier and better off at home. In Canada, he found his compatriots in better circumstances. More people owned farms and were independent. In Chicago and other large cities they were just like so many cattle. He believed that Canada was a better country to which to emigrate than the United States. "This fearful immigration to America from Sweden," he said, "is a serious problem for us. Our people have an American fever which is not good for Sweden or good for them."
