

I Cured My Rupture

I Will Show You How To Cure Yours FREE!

I was helpless and bed-ridden for years from a double rupture. No truss could hold. Doctors said I would die if not operated on. I fooled them all and cured myself by a simple discovery. I will send the cure free by mail if you write for it. It cured me and has since cured thousands. It will cure you.

Fill out the coupon below and mail it to me today

Holstein Heifers

in call to **Carline Calamity Ormsby.**
W. A. BRYANT, CAIRNGORM P. O., ONTARIO

What good is an asbestos curtain, says?
It keeps the show from being roasted

GOSSIP

FERTILIZERS ON ENGLISH MEADOWS

This is the ninth season of the grass-manuring experiments, conducted by Ernest Park, at Kington, reports our English correspondent. Portions of two fields of naturally poor quality are left unmanured. These yielded 11 cwt. and 15 cwt., respectively, of hay per acre this season. In one of the fields, the remaining portion was manured with 3 cwt. of superphosphate, and 1½ cwt. of nitrate of soda per acre. The yield of hay from this portion was at the rate of 13 cwt. per acre. The other field being deficient in lime, the remaining portion was treated with 5 cwt. of basic slag, and 1½ cwt. of nitrate of soda. The yield of hay was 44 cwt. per acre.

This increase of almost 14 tons per acre was secured at a cost of under 30 shillings (\$7.50). Both fields are mown every year, and the aftermath is grazed off by stock. Mr. Park describes the herbage on the manured portions as luxuriant, consisting of good grasses mixed with clover, while the herbage of the unmanured portions is thin, wiry and abounding in weeds.

DISPERSION OF THE MEADOWVALE SHORTHORN HERD

After a lifetime spent in the breeding of Shorthorn cattle, age, which is no respecter of persons, coupled with failing health, is the cause that has led S. J. Pearson, of Meadowvale, Ont., to decide on the dispersion of the large herd of Scotch and Scotch-topped Shorthorns. The firm now known as S. J. Pearson, Son & Co., have therefore decided that on Wednesday, December 14th, 1910, at the farm, one mile from Meadowvale Station, and two miles from Streetsville Junction, both on the C. P. R., 20 miles west of Toronto, the entire herd will be sold, without the slightest reserve. There are 45 head all told, of the Nonpareil, Mina, Jilt and Marchioness families, and a number of that grand old milking tribe, the Lady Brants, at the head of which is that remarkably well-fleshed bull, Royal Diamond 2nd =58469=, begotten in quarantine, by the Marr Roan Lady bull, Royal Diamond (imp.), dam Imp. Mina of Kinellar 7th, by the Cruickshank Lavender bull, Lucky Archer, by Scottish Archer. He is a solid red, six years old, immensely deep-fleshed right to the hocks, one of the great sires of the day, as his get to be sold will prove. He is right in every particular, a high-class stock bull for a high-class herd. Among other bulls to be sold is a roan yearling son of Royal Diamond 2nd, a Nonpareil, whose grandam, Nonpareil 60th, also to be sold, is a 60-lb-a-day cow, whose milk has tested 5½ per cent. of butter-fat, and his dam is a 5½-lb-a-day cow. This is probably one of the most desirable young bulls in Canada for anyone looking for a bull bred on high milk-producing lines. Then, there are two others, both May calves, and both reds, got by the same sire, one a Nonpareil of the same family as the above bull, the other a Lady Brant, and his dam is also a good milker. Parties wanting bulls bred so richly as these on dairy lines, should make a point to attend the sale. The females are up to the average of the good herds of the country, many of the younger ones the get of the Jilt-bred bull, Royal Scot =49813=, a son of Imp. Scottish Pride, and out of the Jilt cow, Imp. Rosie 3rd. Others are sired by Imp. Scotland's Fame, Imp. British Statesman, and a number of the younger things about one year old, the get of the Ramsden-bred bull, Royal Luxury =65622=, a son of Royal Diamond 2nd, and out of Gloucester 9th (imp.), by Luxury. Royal Luxury was a marvelously-fleshed bull, and had he lived, without doubt, have proven one of the most noted sires this country has produced, as his get are put up on show lines, every one. In next week's issue, fuller particulars of the females will be given. Look up the advertisement, and send for a catalogue.

A correspondent writes: "Why is a dishonest dairyman like the whale that swallowed Jonah? Because he takes a Prophet's profit out of the water." It is time this joke was chanted.

Perfection Seed and Grain Separator

The only mill manufactured that will not blow clover, timothy and weed seeds out with the chaff. Other mills are being discarded everywhere that they come into competition with the PERFECTION. Grain travels over 8 ft. of screen where the fan-blast strikes it. A child can turn it, though it has large capacity. The PERFECTION is the only mill made that has compound shake and motion, galvanized deflectors and other advantages not found in other mills, and too numerous to mention here. See nearest agent, or write for circular "C" giving fuller particulars, to
