

IN A SCOTLAND YARD NET.

Directly a big, mysterious crime occurs in London, Scotland Yard throws over the metropolis a strong but invisible net, from which only the very lucky or the very clever criminal can escape.

When you consider that the London over which Scotland Yard has power has a radius of fifteen miles from Charing Cross you will understand the wonderful nature of the police organization.

Within a few hours of the discovery of a sensational crime, the author of which has escaped, the 6,000,000 people in London are more or less under surveillance.

Imagine a terrible murder such as that at Deptford a few days ago. The local police immediately communicated with Scotland yard, giving the facts.

It is then only a matter of a few hours before the policemen in the streets are keeping their eyes open for a fair-haired man of 40, wearing a long grey overcoat.

That business looking commercial traveler who lounges round the bookstall or near the booking office is also probably a man from the yard.

God built the pleasant mountains and blest the fertile plain, But in this sad grey London God knows I am in pain.

Prisoners have had to ink their fingers slightly all around on a prepared slab and then place them on a piece of specially prepared paper, turning them slowly round by the direction of an official, until an impression of all the skin markings has been left on the paper.

There is much less undiscovered crime than is supposed. The police often know the criminal, but lack sufficient legal evidence to prove the case.

HERE YOU ECZEMA?—Have you any skin diseases or eruptions? Are you subject to chafing or scalding? Dr. Agnew's Ointment prevents and cures any and all of these, and cures itching, bleeding and blind Piles besides.

PAPER IN BANK OF ENGLAND NOTE CAN NEVER BE IMITATED. The Bank of England note is the most easily forged of all, for it is the simplest, consisting as it does of black printing on a white paper.

DEFIES THE DEFT FORGER. Note printing is one of the highly skilled trades which are monopolized by a few hands in the city of London.

DELICATE BALANCE OF POWER. The balance of power in Europe is a very delicate one. To prevent its alteration a few powers that are interested would hesitate to appeal to arms.
