Harmonious Electric Lighting

The modern way of house lighting is to surround the electric lamps with MOONSTONE globes and dishes which harmonize in color scheme with the wallpapers and draperies of each individual room.

The soft, diffused light makes a new and charming effect. The operating cost is less for the reason that a greater illumination is achieved at a smaller consumption of candle-power.

No. 6020. Semi-Indirect Unit.

Write for a copy of

MOONSTONE BULLETIN No. 1

If you furnish us with the dimensions, our engineering department will tell you, **gratis**, how to light every room and passage in the house.
