Prognosis

The Game: U of A Golden Bears hosting the UBC Thunderbirds on Friday and Saturday, the 30 and 31 of October at 7:30 p.m. in Varsity Arena.

Strengths: Clare Drake is the best college coach in Canada. The Bears have 14 players returning from last year and thus have greater experience than before. Both goalies are returnees and looked good in exhibition play. The defence rushes the puck well and the forwards were able to score well in exhibition games.

Weaknesses: The defence is full of rookies. How well they respond to pressure is as yet unknown. They have had trouble handling the puck in their own end. The forwards can score but have had a tendency to let up in previous games.

UBC Thunderbirds.
Strengths: Have ten veterans coming back including Ron Patterson in goal who is considered one of the best in Canada West. Bill Holowaty is returning on the forward lines and gives the Thunderbirds a proven scoring threat.

Weaknesses: The T'birds have undergone a coaching change this year and this sometimes can have an unstabling effect at the start of the year. Defence is suspect. How well the team responds to the new system under new coach Jack Moores will be a determining factor.

Outlook: Give the Bears home ice advantage and Friday's game by three goals. Saturday's will be closer but again give the nod to the Bears by a goal.
