Residence Formal BATHURST POWER AND PAPER CO. Is Big Success

Under the swirling glitter of a thousand mirrors, dancers swayed to the strains of the orchestra, in the streamer canopied hall of the Sigma Lamba Beta Rho. For this was the night of the university's most exclusive, most exciting, and perhaps the finest Formal dance of the social year.

The orchestra started to play at 9:30 on Friday last, and within a few moments the soft lights and music enticed many couples from the balcony which varied in mood and occasion from the grace onto the floor. The dancers warmed to the beat of the music wafting of the waltz to the passion of hot-blooded Latin-American numbers.

The theme of the dance was formality itself ensured by the Recordings constant vigilence of our gracious chaperones, to whom we all had Presented to UNB been carefully introduced at the outset of the evening. However, chairs and tables had been carefully arranged so that couples could steal away, as the dance progressed, and talk or remain as silent as love's embrace.

The decorations were a fine achievement due to the hard work of the Social committee and their Symphony Orchestra. numerous helpers. The dining hall had been converted into a colorful ball-room of streamers radiating from an illuminated globe of scintillating mirrors, which spun and flashed, shooting stars into the eyes of the dancers. Below, around the pool, the dancers could relax in an air of water, surmounted only by the Sir Ernest MacMillan. shimmering silver House crest in the centre of the pool from which fountained shafts of blue-lighted

Student Riots in England

by Naomi Griffiths

Not since November 5th, 1953, have the students of London University clashed as bitterly with the police as they did last week. Then the frivolous issue of Guy Fawkes celebrations was the cause of a march on the House of Commons: this time it was international affairs which caused a crowd of around 2,000 students to gather in the Westminster district. One of my friends writes: "It is true that the Press has Miramichi Ballad Suite", a composition of Dr. Kelsey Jones, the first conductor of the Saint John Symphony Orchestra.

and the one on Thursday night was only dispersed when the mounted police rode into the crowd. There were quite a few The records are being present- casualties . . . Oxford, Man-

The letter continues: "Opinion the Saint John Symphony, will is widely divided between those present the records to Dr. Colin who hold that the Chief Rat Nasser should be put in his place, The first record features the q.e.d. the war was a Good Thing, Saint John Symphony conducted and those, more vociferous, if not by Dr. Jones; the second, the more numerous, who feel that blue magic. whole world.' Other friends write of the attitude of the Press: the Manchester Guardian being violently antigovernment and the resignation Minister has shown himself to be necessity of the bonds of the and Acadia. Empire. . . .

Student riots are inclined to peter out: I am interested to see whether the intense feelings now prevalent in London end in frustrated tirades over beer or whether the British students attempt to put into effect any of the schemes for helping Hungary and for publicising their views on the importance of using the United Nations which they have been so energetically discussing. Perhaps the most hopeful sign is found in the concluding words of another letter:

"It is the flouting of the U.N which seems to have upset people the most. It seems students be lieve in internationalism, even if no one else does!"

Thief in Town" tonight and Wed- Canadian Gypsum Ltd., Nov., Oil Co. of Canada, Nov. 30, resday only.

The Bathurst Power and Paper Company Limited has been the first contributor to Lord Beaverbrook's residence fund by donating \$10,000. Lord Beaverbrook had made his appeal on Monday of last week.

Announcement of the latest gift was made Thursday evening UNB President Dr. Colin B. Mackay. "The chancellor and the university are tremendously pleased by the immediate response to the appeal for funds by one of the leading industries in the province," Dr. Mackay said. "This substantial gift from Bathurst Power and Paper Company Limited means that the campaign is off to a very good start."

Gifts announced for the building fund to date total \$220,000 while the objective is \$400,000. Dr. Mackay stated that public contributions should be sent to Lord Beaverbrook, Post Office Box 36, Fredericton; or to the fund treasurer, Dr. A. F. VanWart, University of New Brunswick, Fredericton.

Maritime Geology Convention

Over one hundred students and faculty members from six Maritime Universities attended the annual Maritime Convention at Mount Allison University.

After the opening business session, the delegates proceeded to the chemistry auditorium that preparing oneself for a job is where papers were presented by one of the major considerations. the conference.
