

- Milk, ass's, 591, 592
 composition of, 591
 comparative composition of, 591
 condensed, as substitute for dairy milk, 596
 contamination of, 592
 cow's, composition of, 591
 cream of, 593
 lamedised, 596
 modification of, 593
 pasteurisation of, 593
 proteids of, 591
 sterilisation of, 592
 dried, as substitute for dairy milk, 593
 composition of, 597
 human, bacteria in, 569
 characters of, 588
 composition of, 588, 591
 daily amount secreted, 583
 elements of, 582
 steriliser, Soxhlet's, 595
 Miscarriage, see *Abortion*.
 Mitral stenosis and pregnancy, 176
 Mole, blood, 136
 carneous or fleshy, 136, 138
 hæmatoma, 136
 hydatidiform, 142
 clinical features, 148
 malignant or perforating, 147
 section through chorionic villus, 146
 treatment of, 149
 tubal, 165
 uterine, 136
 examination of a, 139
 symptoms of, 141
 vesicular, 142, 143
 Monsters, 92, 95, 100
 double, 435
 Montgomery's tubercles, 68
 Morning sickness, symptom of pregnancy, 78, 79
 Morphia and hydralromate of scopalamine in narcosis, 301
 in eclampsia, 508
 Mortality, foetal and infantile, 397, 400
 in placenta previa, 483
 maternal, due to tumours, 419
 in eclampsia, 500
 in rupture of uterus,
 of breech presentation, 345
 of Cæsarean section, 305
 of forceps operation, 688
 of pelvic contraction, 393
 of symphysiotomy, 721
 Moulding of foetal head, 276-278
 Multipare, 216
 Multiple pregnancy, 91
 Mummified foetus, 96, 98
 Muriform body, 11
 Murray's axis-traction forceps, 665
 Muscle, uterine, changes in, 64, 246
 over-action of, during labour, 423
 Nægeli's obliquity, 263
 pelvis, 404
 Narcosis and anaesthesia in labour, disadvantages of, 300
 risks of, 300
 technique of, 301
 in normal labour, 300
 Narcotics, administration of, 422
 Nausea and retching, 419
 during pregnancy, 73
 Navel, see *Umbilicus*.
 Necrosis in eclampsia, 413
 massive, of liver, 113
 Nephritis, chronic, and pregnancy, 179, 180
 Nephrotomy in pyelitis, 184
 Nervous excitement, rise of temperature due to, 515
 system, changes in, during pregnancy, 73
 diseases of, pregnancy and, 185
 Neuritis, pregnancy and, 185
 pressure in puerperium, 577
 Neville's axis-traction forceps, 66
 New-born child, 580
 artificial feeding of, 594
 breast-feeding of, 580
 digestive disturbances of, 600, 618
 general management of, 588
 skin of, 587
 Nipples, care of, in suckling, 582
 cracked or sore, 585
 in pregnancy, 69
 preparation for suckling, 584
 Nitrogen, urinary excretion of, 104
 Nuclei, behaviour of, during fertilisation, 10
 Oblique pelvis due to congenital dislocation of femur, 406
 Obliquity of uterus, 267
 Obstetric exhaustion, 471
 forceps, 660
 injuries of foetus, 603
 operations, 621
 Occipito-anterior position, grip of forceps in, 683
 Occipito-frontal plane, position and shape of, in normal labour, 270
 Occipito-posterior position of vertex, 272
 difficulty in delivery of head in, 319
 in normal labour, management of, 319
 mechanism of, 314
 diagnosis and general course of labour in, 315
 rotation of, 316-319
 unrotated, management of, 320
 usual moulding of head in, 321
 Occiput, backward rotation of, 271
 forward rotation of, in normal labour, 270
