MORISON'S UNIVERSAL MEDICINE.

NOTICE.
THE subscribers, general Agents for Morison's
Pills, have appointed WILLIAM WHITFAXER,
Sole Agent for the Upper Town, No. 27, St. John
Street.

LEGGE & Co.
That the public may be able to form some idea of
MORISON'S Pills by their great consumption, the following
calculation was made by Mr. WING, Clerk
to the Stamp Office, Somerset House, in a period of
six years, (part only of the time that Morison's
Pills have been before the public), the number of
stays delivered for that medicine amounted to three
million, nine hundred and one thousand.
The object in placing the foregoing before the
public is to deduce therefrom the following powerful
argument in favour of Mr. Morison's system, and
to which the public attention is directed, namely,
that it was only by trying an innocuous purgative
medicine to such an extent that the truth of the
Hygeian system could possibly have been established.
It is clear that all the medical men in England,
as in this world, put together, have not tried a system
of vegetable purgation to the extent and in manner
prescribed by the Hygeian. How, therefore, can they
(much less individually) know any thing about the
extent of its properties.

PROSPECTUS
OF
THE LITERARY GARLAND,
A Monthly Magazine,
TO BE DEVOTED TO LITERATURE AND SCIENCE.

WHILE so many publications of a political cha-
racter find a liberal support in public intelli-
gence and generosity, it surely will not be deemed
presumptuous to hope that one of a purely literary
nature may find a corresponding degree of favor and
encouragement; tending, as it would, to form a
species of relaxation from the tedious of political
speculation, and to entertain, in a trifling degree,
some of the hours which might otherwise be bar-
tered with ennui.

In this hope, it is proposed, by an Amateur in
Literary Horticulture, to devote a few leisure hours
to the cultivation of the nearly broken ground of
Canadian Literature, fearing not that a field so fair
and promising will fail to yield an abundant return
for the labour expended in reclaiming it. He does
not, scruple to confess, that the flowers with which
the literary garden will, for a time, be decked, will
be principally culled and borrowed from the parterres
of more productive climes; but, as such only will
be selected as can be selected as can be readily ac-
climated, there is little danger but that they will ex-
pand as fully as in their native soil, while, by im-
planting in native hearts the germ of honorable emu-
lation, they may assist in fostering into strength a
growth of native flowers as rich and luxuriant as
the most beautiful of their foreign rivals.

With this view, it is proposed to issue, monthly,
a Magazine corresponding to the above title, contain-
ing the usual variety of poetry and prose, of tales
and sketches, historical and fictitious, with access-
sions, they may assist in fostering into strength a
growth of native flowers as rich and luxuriant as
the most beautiful of their foreign rivals.
The work will consist of forty-eight royal octavo
pages, and will be printed on good paper, with
beautiful new type, and in as fair a style as it is pos-
sible to attain. The price is fixed at Three Dollars
per annum in advance—postage being, as mat-
ter of course, added to those who favour us with
orders from the country. The first number will be
issued as soon as a sufficient number of subscribers
have been obtained to guarantee a reimbursement
of the funds expended in the mechanical part of the
undertaking.

No payments will be expected before the appear-
ance of the ninth number, between which period and
the publication of the twelfth, it is confidently an-
ticipated that all subscriptions will be cheerfully paid.
Should the hope of the publisher of the success of the
undertaking be realized, it is intended to enlarge
and beautify the work with Music, Engravings, &c.,
so as to render it unsurpassed by any American
publication.

The Magazine will be printed and published by
the undersigned, at Montreal, by whom all letters
and orders, postage paid, will be attended to with
gratitude and punctuality.

PROSPECTUS
QUEBEC & MEGANTIC LAND COMPANY.
CAPITAL £30,000.

In Shares of Fifty Pounds each.
PAYABLE IN TEN YEARLY INSTALLMENTS OF
TEN £4 to £7 LBS. EACH.

DURING the administration of Lord Aylmer, who
at all times was most anxious for the improve-
ment of the Eastern Townships, a purchase was
made of an unsurveyed Tract round Lake St. Fran-
cis, in the County of Megantic, on similar terms as
those granted by the His Majesty's Government to the
British American Land Company.

The purchase embraces a tract of 220,000 acres
of Land of good quality, lying contiguous to the
unsurveyed Block of the British North American
Land Company, within 50 miles of Quebec.

The projectors of the Company intended throwing
open the Stock on receiving the confirmation of the
Secretary of State for the Colonial Department to
the sale thus made by Lord Aylmer, taking it for
granted the same facilities would be given to Com-
pany, consisting of individuals either natives of or
residents in Canada, as had been conceded to the
British American Land Company, the greater part
of the Stockholders of which reside in England. No
such confirmation has as yet been given, the Secretary
being referred to the late Commission, the Secre-
tary of which in his last letter stated a report had been
sent to England, but since that period, December,
1836, nothing has been done.

It is proposed to divide the Stock into 600 shares
of £50 each, payable in ten annual instalments, vary-
ing from £4 to £7 1/2 each.

It will be well to say a few words in favour of the
project and to state at once that there will be
no exclusion whatever of any class of Her Majesty's
subjects, in the settlement of the tract, industry
and sobriety being the requisites of those whom the
Company will be anxious to encourage.

Megantic has been a long neglected, and unless
some stimulus is given, by the prospects of exten-
sive improvement, it is to be feared the well settled
country on the Chaudiere and the thriving Townships
of Leeds, Inverness, Halifax, &c. will be much re-
tarded.

To every resident in Quebec the prospect of set-
tling 220,000 Acres within a day's journey of the
city cannot fail of being interesting, for not only
will all the necessaries of life be abundant but all
property will be enhanced in value, for sooner
or later this must be the outlet of the Townships.
The Company will be carried on most economi-
cally, as only two Agents and one Surveyor will be
required, one of the former to reside at Lake St.
Francis or where the most eligible site in the tract
would be chosen for a town, and one in Quebec.

A board of three unpaid Commissioners would be
chosen by the Stockholders under whom the Agents
would act.

The British American Land Company will doubt-
less, act hand in hand with the present Company, if
formed, for every additional settler thrown in, near
their unsurveyed tract, will enhance its value, and
the projectors of the Quebec and Megantic Land
Company feel assured that if it goes into operation
it will add new life to their operations, as the Stock-
holders in England will think more favorably of
the investment they have made in this Province when
they see that residents are desirous of making simi-
lar ones precisely in the same tract of country.
Quebec, 23rd April, 1838.
