

1898, to Mr. White, \$175. The bulls sold at from \$75 to \$140 each.

The big sale of Holsteins and Holstein grades, the property of the E. D. Tilton estate, Tillsonburg, Ont., to be held on March 5th, is worthy of special attention. It furnishes a splendid opportunity to secure some of the best strains of dairy cattle to be found in the Dominion. The late E. D. Tilton had made a special study of the dairy cow, not only of the breed, but also of the individual animal. For years he had, perhaps, one of the best milking herds on the continent. His annual reports of the work at Annandale Farm, which were frequently published in these columns, always attracted interest. The records, though large, were genuine, and Mr. Tilton's cows were taken as standards for many a farmer to reach up to.

It is this same herd and descendants of it that are to be sold. Parties desiring good Holsteins and grades with the milking qualities specially developed cannot do better than attend this sale. As will be seen in the announcement elsewhere in this issue, a number of high-class males and females will be offered, including DeKol's, Mercedes and other noted strains. The sire of most of the younger stock is Calanthes Abberkirk 2nd, No. 1110, Vol. 3, of the 11th year at the head of the Annandale herd. Twenty-two pure-bred and seventeen grades will be sold.

#### HORSES

Among the many noted sales made at the recent stallion show, was that of J. M. Gardhouse, Highfield, Ont. He sold to Mr. Warren, of the Northwest Territories, one stallion, one mare and one yearling filley, all Shires, six Shorthorn cows, ten registered Leicester ewes and one ram. All Mr. Gardhouse's stock are of good quality and our Western friend had to pay a good round sum in order to secure this lot.

Our Annual poultry number will be out on March 1st. Look out for it!
