# FARM AND DAIRY

## RURAL HOME

PETERBORO, ONT.

NOVEMBER 23

1911.

MUCH CREDIT IS DUE THE FRUIT GROWERS WHO WERE RESPONSIBLE FOR THIS EXHIBIT

The progress of the fruit growing industry in Northumberland and Durham counties of Ontario, is reflected in their exhibits at the Ontario Horticultural exhibition. Two years ago with little assistance and less organization a few of the apple growers of those counties made their first exhibit at this show. Last year, with more assistance and better organization they made a fine exhibit and this year the exhibit of the well organized fruit growers of the two counties was the admiration of all visitors at the Fruit Show last week. The good ship Duke of Connaught, of the N. and D. Line here illustrated, was made of 18 barrels of choice apples grown in the two counties. In the entire exhibit were over 500 boxes of apples. Cooperative enterprise on the part of the growers made this exhibit possible.
