BERMIDGIAN, Feb. 20.—We are having old-fashioned winter at last. Some days last week were as cold as 26 below zero. The last two days it has been snowing and drifting, making roads almost impassible. Farm stock is wintering well so far. Prices: Hay, \$15 to \$16; straw, 35 to 36; oats, 38c to 40c; pork, 93-4c to 101-4c; beef, 74-8c. Fat cattle are in good demand, bringing from \$25 up to \$35. Butter, 25c to 30c; eggs, 18c. Our Annual Seed Fair and Coultry Show takes place at Georgetown March 7th.—H. P.

DUNEDIN CROSSING, March 3.—Splendid fighting prevails. This gives farmers a good opportunity to do the winter hauling and every one is busy. A Picton company offering to equip our factory with machinery to make factory whey butter at a three years' term contract, the machinery to be the property of factory at the end of that time. There are quite a number of pure-bred Holstein youngsters, 1- to 2-year-olds, that are fairly good performers, and would have several good uses in our neighborhood, and nearly everything is grade.—J. K.

 yesterday, buyers being present from
 United States and the Canadian West.
 own and McCulloch, cattle ranchers at
 at Falls, Montana, were the largest
 ers, and W. C. Edwards and Co., at
 Island, were the largest sellers. "Gip-
 Prince," a roan two-year-old, brought
 highest price, \$235.—C. G.

ESSEX CO. ONT.
 RNER, Feb. 22.—We are having our sleighing, and those having logs to sell are taking advantage of it. Some of the farmers have been shipping in tile the our load, which looks like more overdrainage. Stock of all kinds is winning well, and feed is plentiful; the mild weather is partly responsible for both. There has been a large number of auc-

tion sales, and stock of all kinds bring high prices. Prices are: Hay, \$10; hogs \$9.10; wheat, 50c; corn, 45c, and oats, 30c.-A. L. A.

ured by him, is sufficient introduction for them anywhere to cause informed people to sit up and take notice and realize that something interesting is before them. Mr. Rettie is placing five cows in the great Oxford Sale at Woodstock, March 25. These cows are:

Canary Butter Girl, a five-year-old, to freshen in May. She has an official record of 235. She is a grand good cow strong in dairy characteristics, and in constitution. She has a most pleasing head, with one of those great strong muzzles that mean so much in a dairy

Jeemie Posch—a good show cow and one that has captured quite a few prizes. She is straight and good to look upon, as may well be imagined, and she has that constitution and general strength indicating capacity elsewhere, that

Olive Schulling 3rd, a great straight, deep cow that will be tested, as will the others be again, before the day of sale. Ellorée 2nd, recently calved when we saw her. Her mother won first at Quelpin

Oliver Mercena—a daughter of Olive Schuiling 3rd, she being her first daughter. She has an A. R. O. record, 14.65 lbs. butter as a three-year-old. She is a very persistent milker, and was not dry over a month. She has just calved.

Mr. Rettie's stock, as Farm and Dairy readers may well suppose, was looking in a l shape. We were much taken with a number of heifer calves, and his young stock, from his herd sire, Francy 3rd's Delamity De Kol, his dam having a record of 29 lbs. in 7 days. His get are striking evidence in the way of testimony

The new bull as a coming herd sire, which Mr. Rettie has recently procured from Ohio, Royalty King De Kol, also interested us greatly. He is out of a cow with a record of 119 lbs. milk in a day, over 25,600 lbs. milk in one year, 3,000 lbs. in 30 days. Backed with a record like his and being good as an individual, what could you expect but that he would attract
