

# Improvement All Along The Line

**That is what a Telephone on the Farm means---  
Improvement of the Domestic, Social and  
Business Life of the Community**

A Telephone will improve all your other farm improvements, because it will enable you to get the best service out of them all, whether they are for your own use or for the general good.

By this we mean that your improved farm implements could be repaired promptly if you have a telephone to reach your market town. With a telephone you could get your supplies for your windmill or your automobile or your dairy machinery at the time they are required. Your Farmers' Club, your School affairs, your roads and bridges will all be better and more economically managed if your community is served by a local telephone system.

## Have You A Telephone?

You are doing without one of the greatest conveniences and benefits of the age if your community is without telephone service. If such is the case, write us, and we will tell you how to proceed in order to secure telephones for your locality. We will tell you how local telephone companies are organized, and give you information showing what they have done for their communities. If you think there is any chance of your township taking up the matter of a municipally-owned system, it will be advantageous to get our advice. We have been actively identified in the starting of the majority of municipal systems, and are in a position to supply very valuable information.

## Are You Operating A Line?

No matter whether the telephone system you are operating is owned by a local company or the municipality, it will pay you to write us when you are in the market for telephones and materials. Our telephones have made a great record for satisfactory service. We claim and are prepared to demonstrate, that our telephones are superior in design, material and workmanship to any others on the market. We stand behind and guarantee that everything we make is first-class in every particular. OUR FREE TRIAL OFFER, whereby you can judge the quality and efficiency of our telephones on your own line before risking a cent, insures satisfaction.

## Estimates Supplied

We will gladly supply you with any information you desire about telephones and telephone materials. Cost estimates will also be supplied on request.

We are directly interested in the success of every local telephone enterprise, and offer a co-operation service that will go a long way towards insuring the success of any new company or municipality entering into the telephone business.

We have issued a new bulletin, which gives full particulars about building rural telephone lines. This is the latest telephone

book published. Send for a copy. Ask for the No. 3 Bulletin.

Our famous booklet, entitled "Canada and the Telephone," shows by graphically drawn pictures how the telephone can benefit the whole social and business life of a community. This booklet cost us a great deal of money to compile, but we will cheerfully mail you a copy free.

Let us quote you on your year's supply of Dry Cell Batteries.
