

World-Wide Tractor Industry Established in Canada

With headquarters in Toronto,
Backed by Canadian money,
Operated by Canadian Manufacturers,

A purely Canadian tractor institution is rapidly getting under way.

This institution has purchased outright the interests of the Chase Motor Truck Co. of Syracuse, N.Y. The manufacturing and executive offices have been moved to Toronto. Chase Tractors will hereafter be manufactured in Canada. Not only the domestic trade, but export trade with Great Britain, United States and other foreign lands will be conducted from the Canadian plant in Toronto.

The CHASE TRACTORS CORPORATION, Limited, will conduct a world-wide business in Canadian-made Tractors.

In choosing Canada as the centre for this big enterprise, the manufacturers had in view the great agricultural and industrial future of Canada.

This promises to be a tremendous market in itself. For Canada's vast farm lands cannot be developed without tractors.

Convert Munitions Plant into Tractor Factory

Behind this industrial project are men in a commanding position in the manufacturing world. Not only have they proven that they could produce shells to most exacting

specifications in a highly satisfactory way—but that they could organize in an incredibly short time a plant with a tremendous output. From their plants over five million shells were sent overseas—a remarkable achievement!

The plant and the organization of engineering and mechanical experts that made this record have now been directed to the production of Chase Tractors.

Robert J. Cluff and William J. Cluff, who are organizing the new industry, have converted their large munitions plant into an efficient Tractor Factory.

Here their ideals in manufacturing will find expression in the production of Tractors that are right—in design, in construction, in adjustment.

The Tractors that leave the Chase plant will be as rigidly inspected and as thoroughly reliable as the shells which made Cluff Bros.' Munition Plants so successful.

The Chase Tractor—a tested, reliable Machine

With high ideals as manufacturers, and with literally hundreds of Tractors to choose from, Cluff Bros. chose the ideal Tractor on which to establish this business. Not, however, before they had made thorough investigation of the tractor situation, and had consulted with agriculturists in every part of the Dominion. The Chase is the ideal Tractor from the farmer's standpoint.

Simple in design, sturdy, powerful, the Chase Tractor represents nine years of constant engineering study and practical experience in Tractor building.

A low-riding Tractor, it can be used under trees for orchard work, on side-hill work and rough ground. It has no differential gears—thus it gets equal driving power on both rear wheels, giving it amazing power on hilly ground and for overcoming side-draft.

By throwing either rear wheel out of gear the driver can turn the Chase Tractor in very small radius.

The belt power comes directly from the crankshaft and is sufficient to run most farm machines, wood saws, grinders, feed choppers, ensilage cutters, anything up to a 28-inch grain separator.

This Tractor with such improvements in construction as Cluff Bros.' ideals of manufacturing demand will prove a most dependable and profitable machine for the farmers to use.

Opportunities in every farming centre for enterprising business men

The Chase Tractor Industry creates openings for men of vision to establish themselves in a profitable business.

The selling of Tractors will repeat the successes that were made in the sale of automobiles. Hundreds of big selling organizations will grow up within the next year to handle the demand for tractors, and service to tractor owners.

In the aggregate, the profits to be made from selling Tractors will greatly exceed the factory profits. Men who link their fortunes with the Chase industry, who establish themselves locally as Chase dealers, will build up local industries of magnitude.

With an organization such as the Chase Tractors Corporation, Ltd., behind them; with a dependable, efficient Tractor like the Chase to create a goodwill for them, there is no limit within reason to the business a local selling station can create.

The Chase Tractors Corporation, Limited, invites correspondence with men with the business vision and experience to build up big local selling and service organizations.

(Chase Tractors Corporation, Limited, will also manufacture Motor Trucks. Full announcement will be made in the near future)
