Messrs. Crawford & Co. I avail myself of this present opportunity of penning you a few lines to let you know how I like your machine. I like it better than any I have seen or worked with. That is the I like your machine. It cannot be surpassed in doing good work and it has NO SIDE DRAFT, that is one thing I like. I like its splendid durability. I have tried it on the roughest of ground, on Peas and Weeds that a great many said no machine could cut. I cut it clean, so they all around here say it could not be beat, and it was no heavier on the horses than if I was cutting grass. I don't think any machine can be made to beat it, for it is no trouble for a man of light horses to work it all day and it cuts so clean and even, and is so easily adjusted. It works well in down grain. I recommend it to every farmer.
