ELASTIC CHEST EXPANDING STAYS. HERBERT'S ORIGINAL MANUFACTURE.

HERBERT'S ORIGINAL MANUFACTURE.

THE very favourable manner in which the CHEST EX1 PANDING BRACES, manufactured by the SubscutBER have been received, and the benefit many persons
have stated they have derived from their use, has induced
im to give much attention to remove one inconvenience
occasionally alleged by Ladies to the Braces, that they
were insufficient to make their dresses sit well, and he
now offers the CHEST EXPANDING STAYS as an article well calculated to remove this objection altogether.
They embrace all that is essential in Stays to make the
Dress sit well, with expansion of the Chest and support
of the Spine

The attention of Ladies is respectfully invited to the

bald, Budd, and Songster. PUBLICATION OF THE REVISED LAWS. -Mr. Fraser, Chairman; Messrs. McDonald, Fuiton, McLeod and Freeman.

CONSULAR FEES .- Mr. Fraser, Chairman : Messrs, Wier, Killam, Whitman, Card, Johnston, and Harrington.

After the appointment of the Committees, the Hon. Attorney General laid several Despatches on the table .- A number of Petitions were presented and questions asked of the government which will appear in our next. The House then adjourned until two o'clock to-morrow.

MUNICIPAL TOWNSHIP.

Among the despatches was a series relating to the act passed last session for incorporating Halifux into Townships, and having an elected magistraey. Earl Grev objected to the principle of having Magistrates elected, and reserved the act until his objections thereon should be laid before the Assembly.

SHIPPING FEES.

Another despatch related to the fees paid to British Consuls in foreign ports by Colonial Shipping and declined assenting to the proposition of the Assembly, by address last session, to reduce them, inasmuch as they were fixed by act of Parliament.

POST OFFICE.

Various despatches relating to the transfer of the control of the Post Office to the Colonies were read.

Mr. Fraser begged to ask whether all the British Mails to the other Colonies were to go through Halifax; because if we were now to support our own Post Office it was a question of interest whether we were to have part of the expenses attending the conveyance of the British Mails, paid into our fund for the support of the establishment.

Hon. G. R. Young replied that the despatch of 12th December, stated that the Colonial Ministers would take an early opportunity of communicating full details on the subject of the transfer. It might be expected by the next mail.

Mr. Freeman asked leave to present a petition from Mr. John Blair of Liverpool, praying protection for his Biscuit and Bread Manufactory. Mr. Freeman said that the Manufactory was capable of consuming 48 barrels of flour per day.

It was referred to Committee on Trade.

MAGISTRATES.

Mr. Freeman, asked the members of Government to lay on the table of the House a return of all the Magistrates in the County of Queen's new authorised by law to discharge the Magisterial functions.

THE FISHERIES.

Mr. Freeman also asked for a statistical return of all Fishing vessels owned in this Province, with an account of the number engaged in the mackerel and cod fisheries-the names and ton-

nage of each, and the number of men employed. Hon. Attorney General, thought, it would be impossible to procure it-very few of the vessels engaged in the fisheries giving in a record to the Custom House of their movements. A correspondence might be opened with the outports, and some information obtained.

LIGHT DUTY.

Mr. Marshall said there was one subject he felt bound to bring before the house. He had on previous occasions moved for returns relative to the collection of Light duty in the Straits of Canso whether paid by Foreign, or Provincial vessels, &c., but had never been able to get it. He had seen in the proceedings of the Portland Convention a statement by no less a person than Mr. Moses H. Perley, that 2000 American vessels had paid light duty in the straits of Canso; now, if this were the fact, as no less a sum than £1 was levied on vessels passing through the Straits on some vessels £20-how was it that the beggarly return of £100 a year was all that came to this house from that quarter? The statement at the Portland Convention was not contradicted

THE MAGISTRACY.

Hon. J. W. Johnston rose to move for a return of Magistrates throughout the Pvovince, and a return from every Magistrate, of all suits instituted by him, and the results of the same, with the distance between the residence of the parties. He complained that great oppression was occasioned by the system of secret jurisdiction adopted in various parts of the Province. Suits were brought in the private apartments of Justices-parties were brought from ong distances, for no other purpose than injustice and oppression. He wished to probe the whole system to the bottom.

Mr. Harrington thought it would be impossible to procure the information.

THE POOR.

Mr. Johnston also asked for returns of the manner in which the poor of the different counties were disposed of.

LICENCES.

Mr. Johnston also asked for a return of all li cences issued in the Province.

HALIFAX MARKET.

Hon. Attorney General moved the second reading of the Bill for enabling the City Council of Halifax to erect a new Market House, and laid before the house an estimate of the expenses and anticipated receipts of the new building.

The bill passed a second reading, and after the presentations of petitions by Mr. Campbell, from Milton, and Mr. Munro from a mail carrier in Cape Breton, the house adjourned till 2 o'clock on Tuesday.

Barbadoes papers to the 13th December state that crops of every kind were flourishing. It was expected that 35,000 hogsheads of Sugar would be shipped. The Island was remarkably healthy.

One of the most important discoveries of modern science, for the cure of pulmonary affections, is the Balsam of Wild Cherry, and the credit of its discovery is due to the celebrated Dr. Wistar. This valuable compound has restored thousands of sufferers to health. It is expectorant, tonic, and demulcent, and is said to be purely a vegetable preparation. Under its magic influence the most obstinate coughs, colds, and bronchial irritations disappear. We have used it, and can recommend it, particularly at this season, when the great cause of disease, East winds, are so prevalent.

THE ORIGINAL AND ONLY GENUINE WISTAR'S BALSAM OF WILD CHERRY was introduced in the year 1838, and has been well tested

in all the complaints for which it is recommended. For ten years it has proved more efficacious as a remedy for Coughs, Colds, Influenza, Bronchitis, Asthma, and Consumption, in its incipient stages, than any other medicine From the Dedham, Mass. Gazette, February 18, 1849.

The introduction of this famous medicine to the public by Seth W. Fowle, has been of more service, probably than any other article that has yet been discovered, and has effected more cures of various complaints that " flesh is heir to" than all the miserable compounds that have ever as yet been trumpeted throughout the country. The numerous certificates in his advertisement fully substantiate the virtues of it.

LOOK OUT FOR IMITATIONS AND COUNTERFEITS.
