

# SEAGER WHEELER

## HAS DEVELOPED A NEW WHEAT

This wheat ripens from 5 to 16 days earlier than Marquis.

Over a period of seven years it has outyielded Marquis. Many tests show that it is equal to Marquis in milling value. The Chief Dominion Inspector grades it as a No. 1 Hard Wheat. Because it matures early it is not apt to be damaged by rust or frost. It is called:

## "RED BOBS"

### HIS WHEAT

## WINS

## WORLD'S CHAMPIONSHIP 1918

"Red Bobs" Wheat again demonstrated its superiority by carrying off "sweepstakes" at the International Soil Products Exhibition at Kansas City in October, 1918.

The competition was open to the world. The championship was awarded to a 30-pound sample of "Red Bobs" Wheat, exhibited by Seager Wheeler, of Rosthern, Sask.

This 30 pounds of wheat won prizes for Mr. Wheeler valued at more than \$900.00.

A sheaf of "Red Bobs" wheat won the first prize in the sheaf class.

Taken together with other evidence, the placing of these awards definitely establishes the supremacy of "Red Bobs" wheat.

Last year Mr. Wheeler sold a limited amount of "Red Bobs" Wheat for \$48.00 per bushel. He turned down hundreds of orders that he could not fill.

The Grain Growers' Guide is distributing all of Mr. Wheeler's seed this year.

There is a limited amount of the "Red Bobs" Wheat.

Once our supply is exhausted, it will be impossible to secure seed of this early maturing, superior milling, heavy-yielding variety.

We can supply you with "Red Bobs" seed at the present time.

Place your order early or you will be disappointed.

## HOW TO GET "RED BOBS"

Full details of The Guide's plan for supplying its readers with the most highly-developed, heavy-yielding variety of seed and how \$2,500,000 in seed will be distributed in 1919 for seed plots, will be found in The Grain Growers' Guide issue of December 11. If you did not see this issue it is now **HERE!** If you have subscribed your copy or desire additional copies of this announcement, fill in the coupon in the margin and mail to us TODAY. We will forward the additional copies by return of post. You do not have to invest one cent. Under any circumstances you would have the seed. Some persons will secure \$500 for seedling **ONE ACRE** with Guide seed in 1919. Why not send in a reservation for 50 pounds of this seed **NOW!**

The Grain Growers' Guide

Winnipeg, Man.

"Red Bobs" Seed enlarged one-and-a-half diameters.

## LETTERS FROM PRACTICAL FARMERS

G. R. Haglof, of Haglof, Sask., writes: "From 40 pounds of 'Red Bobs' Wheat I secured 25 bushels. From 60 pounds of 'Kitchener,' 20 bushels. My main crop seeded on summerfallow, yielded 12 bushels per acre."

Douglas Smith, of Edgerton, Alta., writes: "The 'Red Bobs' held up better than the 'Marquis.' With favorable conditions it is far superior to any wheat grown in this district."

C. Rice-Jones, of Veteran, Alta., writes: "The 'Red Bobs' stood the drought better than the 'Kitchener' and 'Marquis' wheat grown on adjacent land. I feel satisfied that had my crop all been 'Red Bobs,' I should have saved a lot more wheat than I did."

J. J. Bieck, of Foxwarren, Man., says: "I think 'Red Bobs' will be the wheat. It ripens 16 days earlier than 'Marquis.'"

J. W. T. Cook, of Southey, Sask., writes: "'Red Bobs' is certainly a great wheat, far superior to recommendations. If it is possible for me to buy some from you, state the price, as the price is the smallest item on that 'Red Bobs.'"
