

# ABOUT THE CROP OF 1901

**Total Amounts to 60,000,000 Bushels—The Country Has Realized on Last Year's Crop About \$33,000,000—First Car Graded No. 1.**

WINNIPEG, Man., Sept. 2.—Practically all of the crop of 1901 has now been moved. The last 22 cars were inspected at Winnipeg yesterday, and almost to a bushel it is possible to give the exact figures on wheat and other grain shipments from last year's crop. This amount does not include flour or any feed milled west of Winnipeg, but does include wheat milled here or at Kewatin, and all shipments, whether via Emerson or Winnipeg.

About seven millions has to be added as having been used in the country for seeding and another million for milling purposes, bringing the total crop up to sixty million bushels, including about two million bushels still in the country.

Taking an average of 55 cents per bushel for all of this the country has realized on last year's crop about \$33,000,000. This, added to those from Sep-

tember 1, makes a total amount of grain inspected at Winnipeg for this year from September 1st to August 31st of 57,500 cars, or 46,200,000 bushels of grain, calculating on only 800 bushels to the car.

This amount is greater by nearly five times what was moved in 1901-1, when only 15,405 cars were inspected here, and nearly double that of 1899-00, when 33,683 cars were inspected.

The first car of Manitoba's new wheat has been graded No. 1 hard by the chief inspector. A car of new wheat reached the city yesterday from Plum Coulee and grades No. 1 hard. The grade of the new wheat is said to be of a superior quality, and has not the slightest trace of "frost bite." It is expected that by the end of the week a number of elevators will open throughout the country, but none that could be learned of were open, as was expected yesterday.

## Much Money Received For 1902 Taxes

More than \$15,000 of this year's taxes have been paid in at the city hall, exclusive of certain arrears settled within the past month, when ratepayers adjusted their taxes for the current year. The record thus established is excellent, more than \$5000 additional having been received by the municipality in advance of the amount received at this time last year. The circumstances are radically different, however, and the existing condition of affairs is a pleasing object lesson of the improvement in local conditions.

For the past week William Harp, city treasurer, has been an exceedingly busy man. Single-handed he has attended to the collection of taxes, and for several nights past the office was kept open for the convenience of citizens who were unable to get down town during the ordinary office hours. Within a

week fully \$10,000 has been passed over the counter of the city hall for taxes. Yesterday quite \$5000 was paid in, the precincts of the city hall being more or less crowded all day by ratepayers anxious to discharge their indebtedness to the corporation with a view to securing the rebate granted on certain taxes where payment was made prior to today. Now the period for allowing rebates has closed, and the city officials have issued the statement that no extension of time will be granted, as was the case last year when the circumstances were unusual.

The new vault at the city hall came in decidedly handy last night for the reception of several thousand dollars paid in after the banks closed. The amounts thus deposited were safely enclosed within the big brick receptacle where they are as safe as within any bank.

## NEWS AND GOSSIP FROM GREENWOOD

(Special to The Miner.)

GREENWOOD, B. C., Sept. 1.—After several weeks' suspension of work on the Providence, situated just outside Greenwood city limits, half a dozen men have been put to work to get out more ore. There is about a carload awaiting shipment, and this will probably run as well as did the two cars sent to Trail last month and which averaged \$145.53 per ton for the 48 tons shipped.

Word has been received from England that Rev. W. A. Robins, M. A., rector of St. Jude's Church of England, Greenwood, who is away on a holiday trip to the old country, that he is well and thoroughly enjoying his vacation. During his temporary absence Rev. E. E. Flewelling of Phoenix is conducting Sunday morning services (two) at Greenwood, afternoon at Eholt and evening at Phoenix, thus making his Sunday duties unreasonably heavy in his zeal for the spiritual welfare of the people in his charge.

Yesterday for the first time in the history of the town the sound of a church bell calling people to service was heard in Greenwood. The Roman Catholic congregation recently obtained a sweet-toned bell, weighing about 600 pounds for their church, which, by the way, was the first church building

erected in Greenwood. For the time being the bell is hanging on a temporary stand. Later, after the bell shall have been blessed by the bishop, whose visit for this purpose is expected to take place ere long, it will probably be hung in the small tower already erected over the church.

Leonard B. Hodge, local manager of the Vernon & Nelson Telephone company's business, and brother of the district manager, George C. Hodge of Nelson, intends leaving for Winnipeg this week, to there meet and marry Miss Stark, now en route from England to Winnipeg. The wedding has been arranged to take place next Monday, 8th inst., and the newly wedded couple will spend their honeymoon at Rocky Mountain points on their way to Greenwood, where they will make their home.

The tennis tournament of the Greenwood Tennis club is still in progress, and now the second local club, known as the Rambler club, is commencing its tournament, which will comprise open and handicap singles and doubles in which 18 players will take part. The first sets will be played this afternoon. The Church of England Sunday school annual picnic held at the city park, some three miles out of town, proved an enjoyable outing to the children and a number of friends.

EHOLT AND VICINITY.

From 30,000 to 40,000 Tons of Jewel Ore to Be Smelted.

(Special to The Miner.)

EHOLT, B. C., Sept. 1.—The steam power plant lately put in at the Emma mine, Summit Camp, is now in operation and some nice looking copper ore is being stopped at the 75 foot level of the mine for shipment to the Hall Mining & Smelting Company's smelter at Nelson. W. T. Smith is persevering with the development of this property, though under difficulties, the Mackenzie & Mann syndicate, which owns the larger interest in this and several adjoining claims, pursuing its customary do-in-the-manner policy of doing nothing itself and declining to sell to any one else except at a price too high for any likely buyer to think of giving. Information has reached here to the effect that W. Stork, director of Edinburg, Scotland, a director of the Jewel Mines, Limited, who recently visited the Jewel mine, situated about four miles from Eholt, has since stated in

Vancouver that he had hopes of arranging a contract for smelting 30,000 to 40,000 tons of Jewel ore, and that J. D. Kendall, M. E., the company's consulting engineer, has under consideration the advisability of putting in a stamp mill and other plant at the Jewel. During the current year this mine has sent out some 2500 tons of gold quartz ore, the bulk of which was shipped via Eholt to the Granby company's smelter at Grand Forks, where the quartz ore was used largely for lining the shells of the copper converter. The ore is stated to carry gold values averaging about 11 dw. to the ton.

YUKON ELECTION.

Writ Will Be Issued at Once—Nomination on the 4th.

(Special to The Miner.)

VICTORIA, B. C., Sept. 2.—The 'Times' Ottawa, special says: Fitzpatrick, minister of justice, expects to leave for Winnipeg and the coast on the 9th.

Also that a writ for the Yukon election will be issued at once, nomination to be on the 4th. Governor Ross will be the liberal candidate.

### STEMWINDER MINE.

Big Shoot of Ore Being Opened Up at 300-Foot Level.

(Special to The Miner.)

FAIRHAVEN, B. C., Sept. 1.—A still further improvement in the average value of the big shoot of ore now being opened up on the 300-foot level of the Stemwinder mine by the New Fairhaven Corporation is reported. It is stated that the ore now runs \$11 per ton in gold and that this higher value appears to give promise of continuing as depth is made. C. G. Cunningham, electrician, is expected to arrive from Greenwood this week to commence on his contract, which calls for his having some 160 lights put in mine workings and mill and other buildings by October 1st.

### SHOT A HORSE.

Warrant is Out For the Arrest of W. McElroy.

(Special to The Miner.)

ROCK CREEK, B. C., Sept. 1.—A warrant has been issued for the arrest of W. McElroy on a charge of shooting a horse belonging to Barber Bros. The only evidence other than that a horse and a steer were found dead from shot wounds where indicated by the accused, is his own admission that when having a drinking bout he shot them, having been annoyed by the horse and some of Ellis's cattle trespassing on his pre-emption between this place and Midway. McElroy is thought to be across the line.

STRIKERS APPLY THE TORCH.

The Great Mines of the Pochontas Collieries Co. on Fire.

BRAMWELL, W. Va., Sept. 2.—The great mines of the Pochontas Collieries Company are on fire. This morning the strikers applied the torch to various portions of the mine near the West entrance, which is on the Virginia side, and the mine is now said to be burning furiously.

BRAMWELL, W. Va., Sept. 2.—The situation in the flat top coal field is extremely critical and the skirmish between the strikers and the guards at the Pochontas Collieries company's mines today, after the firing of the mine by the strikers, has greatly enraged the miners, from the fact that several on their side were severely injured. Adjutant General Baker, who has been in this section for a few days looking over the situation, left at midnight last night for other fields of operations. Before he left, however, he thought the presence of the militia unnecessary at that time. The outbreak of today will possibly change his opinion, and it is thought by tomorrow night troops will either be in the Flat Top region or on their way north.

SITUATION IMPROVED.

Lehigh Coal & Navigation Shops Resume Work.

TAMAQUA, Pa., Sept. 2.—This morning Company C of the Twelfth regiment escorted the non-union men in the Panther creek valley, to work without being interfered with. The company claims that almost 300 men are reported for duty, while the strike leaders say their ranks are as solid as on the first day of the strike.

This morning the Lehigh Coal & Navigation shops, which have been idle for two months, resumed work. Major Gerhard in charge of the troops said today that the situation was improved considerably.

RIOTING IN GRAM.

The Croatian Students Against the Serbian Inhabitants.

VIENNA, Sept. 2.—The rioting which occurred at Gram Sunday, in connection with a demonstration on the part of the Croatian students, against the Serbian inhabitants, during which many persons were wounded, was renewed Sunday evening and was only quelled on Monday evening after the adoption of severe military measures. Houses were wrecked, shops were plundered and over a hundred people were injured.

KING EDWARD'S HOSPITAL.

Received Gifts Sufficient to Produce \$30,000 a Year.

LONDON, Sept. 2.—King Edward's hospital fund received another magnificent gift from Lord Strathcona and Mount Royal, Canadian high commissioner in London, and Lord Mont Stephen, president of the Bank of Montreal, who have been associated with many charitable enterprises, including the endowment of a fine hospital at Montreal upon the occasion of the first jubilee of the late Queen Victoria. They have now provided jointly a sum sufficient to produce \$30,000 a year for the hospital fund, and this income is likely to increase.

GEORGE W. BISSELL.

Badly Injured in Runaway Accident—Died Soon After.

DETROIT, Mich., Sept. 2.—George W. Bissell, a prominent local capitalist, and well known in lake marine circles, was so badly injured in a runaway today that he died about noon at Harper hospital.

His pair of spirited horses were frightened by an automobile and ran away, throwing Bissell, who was 81 years of age, out on his head. Mr. Bissell, who at one time was one of the heaviest owners of vessel property on the lakes was the first to build the large steel boats now used in the ore trade. He lost three distinct fortunes during his career by wrecks, fire and other adversities, but was still a very wealthy man.

(e) To promote, acquire, construct, equip, maintain, work, improve, manage or control, or aid in or subscribe towards the promotion, acquisition, construction, equipment, maintenance, improvement, working, management or control of works, undertakings and operations of all kinds, both public and private, and in particular roads, tramways, railways, telegraphs, telephones, cables, ships, lighters, harbours, piers, docks, wharves, warehouses, bridges, viaducts, aqueducts, reservoirs, embankments, water-works, water-courses, canals, flumes, irrigations, drainage, saw-mills, crushing mills, smelting works, iron, steel, ordnance, engineering and implement works, hydraulic works, gas and electric lighting, electrical works, power supply, quarries, collieries, coke ovens, foundries, furnaces, factories, carrying undertakings by land and water, fortifications, markets, exchanges, mints, public and private buildings, newspapers and publication establishments, breweries, wineries, distilleries, hotels, residences, stores, shops and places of amusement, recreation or instruction, whether for the purposes of the Company, or for sale or hire to, or in return for any consideration from, any other companies or persons.

(f) To acquire and undertake the whole or any part of the business, property, assets and liabilities of any person or company carrying on any business or restricted (except when otherwise expressed in such paragraph) by reference to the objects indicated in any other paragraph or the name of the Company, but may be carried out in

(g) To carry on the business of bankers, company promoters, financiers and merchants, and to form and float, or assist in the formation and flotation, of any company, corporation or association, or to pay or contribute to any preliminary expenses, and to subscribe for, underwrite, place or guarantee the placing of the shares or securities of any company or corporation, and financially assist any such company or corporation, or any contractor or other person, by making it or him advances or loans, or by guaranteeing the performance by it or him or any of its or his obligations or liabilities or otherwise.

(h) To carry out any other business, whether manufacturing, trading, financial, commercial or otherwise, which may be capable of being conveniently carried on in connection with the above, or may be calculated to enhance, directly or indirectly, the value of, or render more profitable any property or business of the Company, or assist or conduct to the economical or profitable carrying on of such business.

(i) To acquire by subscription, purchase or otherwise, any shares, stock, debentures, debenture stock or securities of or any other interest in any company or corporation, or any Government, municipality or other public body, either with a view to holding or to re-selling the same at a profit, and to hold and retain any such things in connection with the above, or to dispose of the same.

(j) To undertake the management of any other work in relation to the business of any other company, on such terms as may be agreed upon.

(k) To invest any moneys of the Company not immediately required for the purposes of its business, in such manner as may be thought fit, and to lend money to such parties and on such terms, with or without security, as may be thought fit for the interests of the Company, and in particular to customers of and persons having dealings with the Company, or to companies, firms or persons carrying on any business which may be useful or beneficial to this Company.

(l) To draw, make, accept, issue, endorse, discount, buy, sell and deal in bills of exchange, promissory notes, drafts, bills of lading, warrants and other negotiable or transferable instruments.

(m) To borrow or raise money for the purposes of the Company, in such manner and upon such terms as may seem expedient, and to secure the repayment thereof and of moneys owing or obligation incurred by the Company, by redeemable or irredeemable bonds, debentures or debenture stock (such bonds, debentures or debenture stock being made payable to bearer or otherwise, and issuable or payable either at par or at a premium or discount), or by mortgage, or by any other instrument, or in such other manner as may be determined, and for any such purposes to charge all or any part of the property of the Company, both present and future, including its uncalled capital.

(n) To make donations to such persons and in such cases, and either of cash or other assets, as may be thought directly or indirectly conducive to any of the Company's objects, or otherwise expedient, and in particular to remunerate any person or corporation introducing business to this Company, and to subscribe or guarantee money for charitable or benevolent objects, or for any exhibition, or for any public, general or other object, and to aid in the establishment and support of associations for the benefit of persons employed by or having dealings with the Company, and in particular friendly or other benefit societies, and to grant any pension, either by way of an annual payment or a lump sum, to any officer or servant of the Company, or to his relatives or dependents.

(o) To enter into partnership or into any arrangement with respect to the sharing of profits, union of interests or amalgamation, reciprocal concession or co-operation, either in whole or in part, with any such company, corporation, society, partnership or persons:

(p) To sell, exchange, lease, under-lease, surrender, abandon, amalgamate, sub-divide, mortgage or otherwise deal with, either absolutely, conditionally, or for any limited interest, all or any part of the undertaking, property, rights or privileges of the Company, as a going concern or otherwise, to any public body, corporation, company, society or association, or to any person or persons, for such consideration as the Company may think fit, and in particular for any stock, shares (whether wholly or partly paid), debentures, debenture stock, securities or property of any other company;

(q) To give the call of shares, and to confer any preferential or special right to the allotment of shares, on such terms and in such manner as may seem expedient;

(r) To distribute any of the assets or property of the Company among the members, in specie or otherwise, but so that no distribution amounting to a reduction of capital be made without the sanction of the court where necessary;

(s) To do all or any of the above things as principals, agents, contractors, trustees or otherwise, and either by or through agents, sub-contractors, trustees or otherwise; with power to appoint a trustee or trustees, personal or corporate, to hold any property on behalf of the Company, and to allow any property to remain outstanding in such trusts or trustees;

(t) To do all such other things as are incidental or may be thought conducive to the attainment of the above objects, or any of them, and so that the word "Company" in this Memorandum, when applied otherwise than to this Company, shall be deemed to include any partnership or other body of persons, whether corporate or unincorporated, and whether domiciled in the United Kingdom, its Colonies and Dependencies, or elsewhere; and the objects specified in each of the paragraphs in this Memorandum shall be regarded as independent objects, and accordingly shall be in no wise limited or restricted (except when otherwise expressed in such paragraph) by reference to the objects indicated in any other paragraph or the name of the Company, but may be carried out in

as full and ample a manner, and construed in as wide a sense, as if each of the said paragraphs defined the objects of a separate, distinct and independent Company.
