#### YESTERDAY'S FOOTBALL MATCH

The Collegians and C.E.I. Feildian teams met in last evening's League football match before a goodly crowd of spectators on St. George's Field. A good exhibition of football was given The great railroad series of moving all through but the Collegians were the superior team and had the better of their opponents from the start. The C.E.I. lost some good chances of scoring, being given several penalty kicks; but the shooting was faulty.

In the first half Ellis scored for Collegians and in the second Coultos and Kendrick, The game closed with 3 goals for Collegians; C.E.I.-Feildians nil. Mr. W. Duggan refereed. The line up was:

# BLOWN OUT

Yesterday water was found coming through Water Street between J. J. Mullaly's premises ! west to the Electric Light Co.'s office. It was thought a main had broken and Inspector Donnelly, who investigated, found that the trouble was with an old connection that formerly supplied a hydrant at Newman's premises. A plug had blown out of the end of the service which had been cut out a few years ago and repairs were quickly made. Thousands of gallons of water must have

been wasted by this, Don't forget to ask your grocer about LaFrance & Satina Tablets.

### **OPORTO MARKET**

The following letter was received yesterday by the Board of Trade from Lind & Couton, Oporto:-

"Our market has lately received large quantities of codfish, both from Newfoundland and Norway and stocks are now heavy for this time of year, when the demand usually falls off. It seems a pity that shippers did not send forward more fish earlier in the year instead of holding it back until the end of the season. As a natural result of the accumulation o supplies, prices have now commenced to recede and we think that under selling pressure the decline will continue for the present. ### REPAIRING THE S.S. "POLEMHALL"

Last night till midnight and al yesterday, large gangs of men, mechanics and their helpers, were at work repairing the S.S. Polemhall, at the dry dock. For two or three nights each week, until she is finished, which will be about five weeks, the men will work till midnight. A large number of plates are being taken off the port and starboard bows, especially the former, which is most damaged and quite a number of plates are so badly split in several places that they have been definitely condemned, and will be replaced with new ones.

Using many portable electric lamp last night, the men worked under the ship's hull, the damage extending as far aft as No. 2 hold, and stripped off the plates. These are so large and heavy that special tackle had to be rigged out and they were whipped up over the skids on the dock side by the hoisters in the machine shops where the plates that require it will be rolled and otherwise made ready to go on the hull. A period of 30 days has been specified for the completion of the work, but it is thought it will occupy at least five weeks.

### Letter From Pte. Walsh, R.A.M.C.

Mr. Carew, of the Mail and Advocate had another interesting letter from his cousin, Pte. Ml. Walsh, R.A.M.C., now at the front in Flanders, by last mail. He was delighted to receive the St. John's papers, giving news from home, and said that even English comrades read them with interest. The Germans, he avers, show no more respect for the Red Cross ambulances, stretcher bearers or hospital attendants than they evince for the Tommies in the trenches, and their snipers before Mike had writen had wounded some stretcher bearers, while bringing the wounded out of the trenches. One of Mike's best friends fell seriously hurt by his side and he says the rage of the men knew no bounds. One of these treacherous scoundrels, more aggressive than the rest, received the attention he deserved and was cut in pieces by some of the best shots amongst the soldiers.

He highly praises the bravery of his comrades. He has seen them cry when they saw the wounded soldiers' moaning for help, which could not be afforded, owing to the brutality of the Germans in firing on the ambulance men. Many, disregarding life, he has seen dash out and rescue their wounded friends in the face of the most

He saw one of the stretcher bearers blinded shortly before he wrote, by the bursting of a shell over a tree under which he and others were standing. The same shell wounded ten others in a trench near. The Briish chaps swear to avenge the shootng of the wounded and the strecher
