Progressives Win Race And Hockey

Visitors Victorious in Third And Last Game of Series

WILL LEAVE TO-NIGHT

Spectators Disgusted With Treatment Given Squires

The 3-mile race and hockey match at the Prince's Rink last night, both went in favor of Halifax.

The visitors won the hockey easily; there was no doubt about that, but the race was given to Patterson by those in charge.

A more arefaced euchering of a competitor out of a race was never seen in St. John's, and those in charge have a lot to explain.

The three-mile race opened the programme. Patterson, of Halifax, G. Squires and M. Evans started.

Patterson was last in the start but after half a dozen laps it was apparent that the race would be between Patterson and Squires.

They passed and repassed two or three times. Patterson tried to break away from him but could not do so. When the bell sounded denoting three laps before the finish, Squires was leading with Patterson at his heels, while Evans was a lap behind.

Pulled Him Back

On the last lap but one, when turning the eastern end of the rink, Patterson passed Squires on the inside, and in doing so hauled him back. Had Patterson not touched Squires, he never would have secured the leading position.

Halifax Again Victors

The third and final match between Halifax and St. John's last night resulted in a victory for Halifax by 5 goal to 3.

The visitors were in excellent trim and put up a pretty exhibition in spite of the fact that the ice was heavy and covered with water.

The visitors were superior to their opponents in all points of the game. At the conclusion they were loudly applauded.

They leave for home this evening, taking with them the best wishes of their many friends.

HORRIBLE INHUMANITY.

Rumors that a landed proprietor at Macon, France, was keeping his wife hidden away led the authorities to pay him a visit. Asked where his wife was, the man at first vacillated. Then he led the party to a shed a little way from the house.

When the visitors entered a frightful odor drove them back. The place was dark. They found a heap of rubbish and plates. In a corner of the cabin a woman, scantily clad and in a filthy condition, lay on a mattress. She uttered inarticulate cries. Questions were put to her, but no one could make anything of her incoherent replies.

When her husband was questioned he declared that she was mad, and it was for this reason that he had kept her hidden away. The landowner's daughter and a servant girl were questioned in turn. They asserted that the woman had been concealed in this place without air, fire and light for five years.

FRENCHMEN AND COM. EVANS.

Frenchmen paid a well-deserved compliment to Commander Evans, the heroic companion of Captain Scott in the Antarctic, at a reception given in the Hotel de Ville by the Paris Municipal Council.

M. Chassaigne-Goyon, the President of the Council, recalled the glorious part the Lieutenant had played in one of the greatest exploits on which humanity could pride itself. After paying an affecting tribute to the late Captain Scott the president handed to Commander Evans the gold medal of the City of Paris.

Commander Evans, who spoke in French, credited to his brave leader and dear companions the praise that had been paid to him.

LAUGHED AT SOLDIERS.

An echo of the Zabern court-martial dictum, that a civilian may not laugh at a soldier, was heard at Strasburg on Tuesday, when a young man was arrested by soldiers for making a remark which aroused the ire of a Lieutenant.

The young man was passing through the Kleber Platz with a companion as the guard was changing, and was reported to have said either, "Why are they presenting arms?" or "Look at those fellows standing at attention," and to have laughed.

He was immediately handed over to the police, according to whom the arrest was justified, as the youth had been "grossly insolent" to the officer.

NEW CHICAGO OCTOPUS.

An electrical octopus is to embrace Chicago and keep at a distance of ten miles from the centre of the city all coal engines.

The forty railways entering the city have joined in planning a vast co-operative system of electric motive power for both passengers and freight transportation in the city and in the industrial zones surrounding it.

Within a ten-mile radius all motive power will be electric.

PRINCE'S BETROTHAL.

Prince Francis Joseph of Thurn and Taxis, heir to Prince Albert of Thurn and Taxis, is betrothed to the seventeen-year-old Archduchess Hedwig, granddaughter of the Emperor Francis Joseph of Austria.

The Prince, who attains his majority this year, is heir to the greatest private fortune in Germany, estimated at between £16,000,000 and £20,000,000.

FRANCE HONORS CAPT. SCOTT.

A monument to Captain Scott will be unveiled at Lautaret, where in 1908 the hero of the Antarctic spent several weeks testing the motor sledges which he afterwards used on his last expedition.

The monument has been erected by a committee, at the head of which is Dr. Jean Charcot, the famous French explorer.

TRAIN LOST IN FLOOD.

More than 100 passengers on the Santa Fe mail-train were marooned by floods in California, and, after being rescued by boats, were ferried across the flooded region to Los Angeles. The train had been lost for several hours.

Nearly all California was flooded, partly by rains and partly by melting snow from the mountains, and eight persons are reported to have been drowned.

£600 FOR SCARS.

Mme. Cara Georgiades, the wife of a doctor and former Government official of Vichy, and a friend, Mme. Pichez, were in the Paris law courts, each awarded £600 damages owing to a motor-car accident which left slight, permanent disfigurements in the form of scars on the face.

FIRE DARTS FOR ARMY.

Experiments are shortly to be made (says the "Main") with a form of fire dart to be used in the French army. These darts contain a spirit which bursts into flame when they strike a hard object.

GREEKS BORROW £20,000,000.

The "Liberte" states that M. Zenevalos during his stay in Paris reached an agreement with the French Government and big French credit houses regarding the terms of a Greek loan of £20,000,000 to be floated in the French market.

Owing to reasons of domestic finance the issue of this loan does not seem feasible before the second fortnight in March.
