

SHEDD'S - IMPROVED - FENCE

U. S. Patent June 29, 1886, No. 344,413.

SAVES RAILS, LABOR, LAND, NO POST HOLES TO DIG

CHEAP, STRONG & DURABLE

LEADING FARMERS ALL OVER THE COUNTRY RECOMMEND IT

BECAUSE it only requires half the rails and takes up half the space of the common wire fence. It won't blow down any easier than your buildings. Stock cannot rub or throw it down. There are no stakes or posts in the ground to decay. It is stronger and can be built for half the cost. It is cheaper than wire fence with none of its dangers.

Any ordinary old rail fence contains enough material, with the addition of stakes and a pound of wire to a rod of fence to make a good, substantial fence that will last for years. Wire costs 3 cents a pound. Farm right, 5 cents per acre.

For farm or township rights, call on or address
