PROTECTION BRAND ASPHALT READY ROOFING

Gravel Coated Sand Coated

Is a wonderfully substantial roofing, combining every quality that should commend it to those who would roof well.

It contains no tar or paper, wool felt and pure asphalt, from Lake Trinidad, being the chief features of this splendid roofing.

When laid it presents a most pleasing and attractive appearance as all nails are covered. When properly laid it remains perfectly flat, requires no painting and carries a ten year guarantee from the manufacturers, which is by no means the life of it. Each roll has a six-inch smooth underlap through which the nails are driven, and is adhered to the overlapping sheet by means of the asphalt cement which we furnish with each roll.

The Price is Low for a Good Roofing. It is especially adapted for flat roofs on factories, warehouses, stores, etc., and is also suitable for steep roofs on houses, barns, and stables. Call and see it, for we have not told you here half of what you ought to know before you buy a roof.

"The Margaret," of Boston, one of the finest equipped electric launches that has been in port this season, arrived at the Eau Saturday morning. The launch is a perfect little palace, being elegantly and comfortably fitted up with everything necessary for a long trip. She has a nine horse power engine in her. Capt. Phillipott, of Boston, is the proud possessor of this little craft and is accompanied on his trip by an old lake captain and an expert electrician. The two captains are both over seventy years of age and are enjoying the outing like two boys. In fact Capt. Phillipott is giving his friends a birthday party in Lake Erie to-day to celebrate his seventy-third birthday. The two hearty old captains never go faster than eight miles an hour, and when going up the lakes keep close to shore in order to get acquainted with the districts through which they are passing.

"The Margaret" left Boston some weeks ago and was fortunate to get good weather while rounding Cape Cod on her way to New York. From New York she has come via Hudson River, Erie Canal and Lake Erie. ney Seale Company, Hamilton, and were valued at \$20. The second prize was an umbrella from Thornton & Douglas.

At about five o'clock a boxing contest between James Flowers, engineer, St. Thomas, and Ed. McCarthy, yardmaster, St. Thomas, took place. The gloves were blackened for the occasion and when the contest was over both men resembled very much the shady or negro race. They were well matched, each weighing over 200 pounds. McCarthy is somewhat professional with the mits and seemed to have the better of the scrap. Three rounds were fought and the combat ended with a draw. McCarthy seemed to have the better of his man all through, winning the first two rounds.

The fire department gave an exhibition run in the afternoon along William street. The alarm was given in from the box at the Park House, and in two minutes the teams were speeding by. This is extra good time, as the distance is long and there are some very bad corners to turn. The Maple City fire department is the best west of Toronto.

STRIKE AT PAPER MILLS.

Employees of Imperial Co. At Sturgeon Falls Go Out.

North Bay, July 22.—The Imperial Paper Mills at Sturgeon Falls are closed on account of labor troubles, which have been brewing for some time.

The paper-makers were discharged some time ago for refusing to do Sunday work unless paid time and one-half, which they claim was part of the paper-makers' Union agreement with the mill.

The mill management sent Superintendent Bellinger to the United States to engage non-union paper-makers, and were successful in securing enough to start up one machine.

The introduction of non-union labor in the paper mill caused the union pulp workers to walk out and the entire plant is shut down.

The mill management have made no statement of their position, beyond saying in the local paper, owned by officials of the paper company, that the men do not know what they are striking for. Virtually the paper makers are locked out, and the pulp workers walked out.

President Carey of the Paper-makers' Union is on his way to Sturgeon Falls, and it is hoped for the good of the town that the trouble will be adjusted.

The strike or lockout is a very peaceable one, with no disturbance whatever.

True merit, like the pearl inside the oyster, is content to remain quiet until it finds an opening.

ORCHARD TOLD TRUTH

crowd leaned forward to catch the speaker's every word.

Mr. Hawley's peroration was impressive. There was no attempt at oratory, but only a strong note of deep sincerity and great earnestness when he pleaded for an honest judgment. Mr. Hawley did not charge that a majority, or even that many of the members of the Western Federation of Miners were criminals, but that the evil deeds of the officers and of the scum of the organization had brought discredit on the rank and file. The time had come when decent men should rise and make war on the evil influences that were the curse of all labor organizations.

On the adjournment of court until this morning, Mr. Hawley was showered with congratulations.

CHATHAM OLD BOY

Wm. N. Smith, who for nearly a quarter of a century was in the employ of J. & W. McKough, and now a resident of Sarnia, is spending a few days with his sister, Mrs. Harry Poile, Raleigh street. Mr. Smith is 79 years of age and is carrying his appointment in his pocket to the first fire company ever organized in this city in 1881, which is signed by George Witherspoon, who was the first Reeve. In 1880 he was presented with a silver trumpet on behalf of the municipality by the late Hon. Walter McCrea, the then Mayor, for valuable services as chief of the fire department, and this trumpet he carried in London in procession on the occasion of the visit of the then Prince of Wales, his fire company having been invited to join in the demonstration. Mr. Smith is one of Chatham's old boys, who was unable to visit the city on the occasion of the reunion owing to illness.

MAD DOG CAUSES PANIC

A mad dog caused considerable excitement in the vicinity of Water street, Friday evening. The animal, which was a bull terrier, was frothing at the mouth, and ran in and out of houses along the street, scaring women and children half to death.

The dog was finally cornered by Chief of Police Holmes and Stanley Taylor, and shot before it did any harm. The dog ran into Mrs. Dean's house on Stanley avenue during the evening, and as it was going out of the door it knocked one of the children down, but did not attempt to bite it.

It takes the long green to paint the town red.
