HOMEMADE FURNISHING.

Clever Improvements on the Ordi-Where there is a large family and in ufficiency of closet space the problem of accommodating the children's gar-ments often becomes serious. Some kind of wardrobe is a necessity, and a practical and not unsightly one, of which a Ladies' World writer tells, may e constructed at a small cost. shelves fifteen inches wide and four feet long are secured to the wall, one above the other, by iron brackets screwed to firmly nailed cleats. The first shelf is six feet from the floor,

CURTAINED WARDROBE

the second shelf twelve inches beneath the first. On the underside of the lower shelf two large steel hooks are screwed, one hook close to each end of the shelf and midway of its width that is, if the shelf is fifteen inches wide the hooks will be seven and onehalf inches from the front edge. A pièce of galvanized iron piping, such as may be obtained at any plumber shop, is supported in the loop of the hooks. It is one inch in diameter and a little less than four feet long. The garments are placed upon coat hangers which are hung upon this bar, space being thus economized and the clothes kept in shape and in good condition, as they cannot be when they are hung limply upon an ordinary hook. The curtains which inclose the ward-

robe are nailed to the edges of the shelves by ornamental furniture tacks.
This is greatly preferable to having the curtains run on rods, as the rod arrangement leaves a top opening through which a great deal of dust passes. The long curtain is fastened to the lower shelf, a shorter curtain like a valance being tacked to the top shelf, so that the upper and lower parts of the wardrobe may be opened separately. The upper division is for the accommodation of hats.

Of course the length of the shelves is optional, and the size of the room and the number of garments to be sheltered are to be considered in planning the wardrobe. The width must not be less than fifteen inches, however, as coat hangers take up fully that space and will assert themselves through the drapery if the shelves are too narrow.

The curtains may be of cretonne to match the other hangings of the room, or portieres may be effectively used.

Dress For Young People. Cashmere or henrietta in both dark and light colors suggests the prettiest of youthful modes, and when tucked, smocked or shirred or elaborated with fancy stitches very little additional trimming is required. The pale colors and white in these soft woolens make charming party frocks. A simple little dress for house or school wear has a becomingly full blouse waist attached to a straight skirt, the front of which may be arranged in a double box plait.
This would be attractive in challis, sither figured or plain, while a light-field serge would perhaps be liked even better. The standing collar and deep cuffs might be of plain or em broidered linen.—Delineator.

A Breakfast Detail. Breakfast, although the simplest meal of the day, demands as much care in the setting of the table, the spotles ness of the cloth, the daintiness of dishes and the generally attractive ap pearance of everything, as if guests were to be entertained. The appetite at breakfast has to be tempted, with an elaborateness of courses, but with the daintiness of service. As

COVER FOR BREAKFAST.

rule everything is put on the table fo this meal. Nothing is served from the side, all the dishes being set in their order before the master and mistress order before the master and mistress of the house. At each cover lay a service plate, knife, fork, two teaspoons (one for the cereal, the other for the coffee), a water glass, table napkin, butter plate and a fruit knife, should fruit be served which requires cutting, or another teaspoon if berries are the first course.—Good Housekeeping.

Pretty designs in variegated shades of small bead embroidery introduced on a dark cloth gown are original and on a dark cloth gown are original and effective. Another notion is the hand beadwork appearing on the center of the large cloth buttons which decorate the straight front of some of the princess gowns. The redlingote and directoire coat are also embellished with velvet buttons embroidered with this delicate colored beadwork, which gives a charming touch of brightness to a severely cut plain dark cloth costume.

The Samakuir. are weather prophets and weather prophets, but there is a stone which it is asserted unfailingly foretells changes in the weather. This stone was found in Finland many years ago by an explorer and has been watched by scientists with great inter-est. It is known as the samakuir and presents a white mottled appearance in gradually turning from gray black as a rainstorm approaches The samakuir is made up of clay, niter and rock salt. In dry weather the salt in the stone is prominent, but when the air is filled with moisture the salt absorbs the meisture and turns black, thus acting 28's barometer

WEARY DAYS AND SLEEPLESS NIGHTS

Many mon and women toss night after night upon sleepless beds until near dawn. Their eyes do not close in the sweet and refreshing repose that comes to those whose heart and nerves are right. Worry or disease has so debilitated and irritated the nervous system the circums. or disease has so debilitated and irritated the nervous system that it cannot he quieted. Or, again, you have heart palpitation and sensation of sinking, a feeling you are going to die; or perhaps you wake up from your sleep feeling as though you were about to choke or smother, and rest leaves you for the night. Allow these cenditions to continue and you will feel your health declining.

It is the nerves and heart that are not acting properly.

They can be set right by the use of MILBURN'S HEART

AND NERVE PILLS They soon induce healthful, refreshin sleep, not by deadening the nerves, but by restoring them to healthy action and removing all symptoms of heart trouble which is often the cause of nervousness and

aleeplessness.

Mrs. Ennis Chambers, Massey Station, Ont., writes: "I was troubled with dizziness, weak spells and fluttering of the heart. I was so bad at times I could not lie down in hed at nicks but would have the lie down in bed at nights but would have to sit up. I doctored for a whole year and got no relief. I took three boxes of Milburn's Heart and Nerve Pills and was so completely cured I have not been troubled since. I cannot recommend them too highly."

Milburn's Heart and Nerve Pills are 50 cents per box or three boxes for \$1.25 at all dealers or sent direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

Senor Quesada, Cuban Minister to the United States, is an orator born. In an article in The Outlook for July, 1899, by George Kennan, who heard Quesada speak at the Esteban Theater, Mantanzas, Cuba, he said: "I have seen many speak at the Esteban Theater, Mantanzas, Cuba, he said: "I have seen many addences under the spell of eloquent speech and in the grip of strong emotional excitement; but I have rarely witnessed such a scene as at the close of Quesada's eulogy upon the dead patriot, Marti." In a letter to The Peruna Medicine Company, written from Washington, D. C., Senor Quesada says:

"Peruna I can recommend as a very good medicine. It is an excellent strengthening tonic, and it is also an efficacious cure for the almost universal complaint of catarrh." --- Gonzalo De Quesada.

Congressman J. H. Bankhead, of Alabama, one of the most influential members of the House of Representatives, in a letter written from Washington, D. C., gives his endorsement to the great catarrh remedy, Peruna, in the following words:

There is but a single medicine which is a radical specific for catarrh. It is Peruna, which has stood a half century test and cured thousands of cases. If you do not derive prompt and satisfactory results from the use of Peruna, write at once to Dr. Hartman, giving a second of the most influential members of the House of Representatives, in a radical specific for catarrh.
