GOW SENT FOR TRIAL.

Though Two Witnesses Swore Stewart Murphy Did the Shooting.

Peterboro, Sept. 7.—Charles Gow, who received his preliminary hearing at Peterboro yesterday on the charge of manslaughter in connection with the shooting of Thomas Hill of Dummer, was, after the evidence of several witnesses had been heard, committed for trial by County Magistrate Edmondson.

The evidence of William Hill and his sister, who was shot in the hand, both exonerate Gow. Both swore positively to recognizing Stewart Murphy as the man who did the shooting.

In Stock by Saturday.

Winnipeg, Sept. 7.—The weather at noon yesterday was hot enough for midsummer, and magnificent for the few fields of late grain still standing. The outlook is that everything will be in stock by the end of the week. In the Brandon district the crop will be very valuable.

Miss Annie Stewart Hurt.

Toronto Junction, Sept. 7.—Miss Annie Stewart of Teaswater was thrown off the platform of a C. P. R. passenger coach about noon yesterday and was badly cut about the head and had her arm broken in three places.

THE FARMING INTEREST

Gets Very Considerable Attention
From the Politicians.

Deputation From the Farmers' Association Meets Premier, Whitney, and Outlines Their Views.—Ontario's First Minister Concurs With Them On Many Points.—Hon. Nelson Monteth Speaks on Farmers' Ideals.

Toronto, Sept. 7.—At noon yesterday a deputation from the convention, headed by Mr. L. E. Annis, the Vice-President, waited upon Premier Whitney, and urged the adoption of legislation along the lines of several of the resolutions passed.

They were briefly: The abolition of the bonus system to railways, coupled with an equitable taxation, the control by Government of all water power and electrical rates, the husbanding of the forest reserves and the placing of a royalty on minerals.

The Premier's Reply.
In reply to the deputation, Premier Whitney declared that the views presented were identical with those of the Government. Some effort, the Premier said, should be made to equalize the assessment. The views presented with regard to the control of water power and electric rates were fully in accord with the views of the Government. Bona fide railways the Government was directly opposed to, and continued Mr. Whitney, if the change of Government had been further prolonged there would soon have been no public domain to give away. A money grant might, in exceptional cases, be given, but a land grant, never.

Views on Pettypiece Bill.
The bill proposed by Mr. Pettypiece, he did not regard as binding upon the Government, in that it did not go far enough.

A royalty on minerals was a part of the policy of the Government. The situation in Cobalt was a perplexing one. The interest of the individual ought not alone to be considered. The Province of Ontario ought to get something from the mineral wealth. Continuing, Mr. Whitney said: "I do not think it is right that the man who finds a spot with gold should forthwith take up 40 acres at \$3.50 an acre."

Regarding Referendum.
Touching briefly on the referendum, Mr. Whitney declared that whether the referendum was or was not a better system than that of Canada, it was antagonistic to British Government and could not be successfully operated under it. Canada has representation—through the Cabinet. In conclusion the Premier expressed his hearty sympathy with the views presented, and his pleasure of meeting with the members. The deputation withdrew after thanking the Premier and the other members of the Cabinet.

Officers Elected.
At the afternoon session, James McEwing of West Wellington was selected to succeed J. Lockie Wilson as President. Mr. Wilson declined re-nomination.

The other officers were re-elected by acclamation. They are: Levi Annis, Vice-President (Scarboro); J. W. Hyatt (Wentworth) and W. C. Good (Brantford), directors; W. R. Douglas and W. C. Goodfellow, auditors; W. L. Smith, secretary.

FARMERS' DAY.

Hon. Nelson Monteth Speaks of Farmer's Ideals At the Fair.

Toronto, Sept. 7.—Yesterday, Farmers' Day, saw 80,000 people at the Canada National Exhibition. All the demonstrations given in the various departments were of educational value, and the fruit packing by experts for export was keenly enjoyed.

At the directors' luncheon, Hon. Nelson Monteth referred to the time when the farmer was a creator of wealth, but not a manufacturer in the sense that he now was. In almost

HON. NELSON MONTEITH.

every product the farmer displayed a certain amount of skill in finishing the product. Ideals were being made for the farmer to work toward, and one great aim was for the farmer to so breed as to get the maximum figure. There was one thing the farmer was not sufficiently alive to, the possibilities of co-operation. Much had been done in the line of the dairy, but more still remained in this, as in other lines.

The speaker referred to Denmark as an example of the carrying out of the co-operative plan. He had noticed that farmers were specializing in certain lines. To some extent this would solve many difficulties. While the west was doing much, it should not be forgotten that Ontario was the banner Province in making wealth along agricultural lines, declared the Minister of Agriculture amid loud applause. Hon. John Dwyer made graceful allusions to himself as representing a body that had been and now was not, that had been "destroyed in a day by freaks of the bad peasant." Speaking seriously, he said that he would never lose interest in agriculture and would always do his best to advance the interests that lay close to his heart. If he could not be Minister of Agriculture himself he was glad to know that

so good a man had taken his place. He would be a credit to the office, was the expression of the ex-Minister's overflowing generosity.

President E. C. Creelman of the Ontario Agriculture College, Guelph, referred to Ontario's great agricultural production of \$250,000,000 yearly and the large proportion, expected. Prof. Day also spoke.

INDEPENDENT TELEPHONES.

Resolution Passed at the Meeting Held In Toronto.

Toronto, Sept. 7.—The independent telephone companies of Canada have formed an organization for the purpose of protecting their interests and extending their influence in the country. This decision was arrived at at a convention which opened yesterday morning at the City Hall. More than sixty delegates were present, after discussion, it was:

Resolved, to wait upon the Dominion Government and urge consideration for the nationalization of long-distance telephone lines, and giving access thereto to all telephone organizations doing business in Canada upon equitable terms.

Resolved, that Parliament legislate to keep the railway and navigation companies or any others from contracting in such a way as to practically constitute a monopoly in connection with transportation companies, and that such companies be forced to give access to all telephone companies.

Resolved, that reciprocal agreements between municipalities or telephone companies are undesirable, as are exclusive franchises granted until a final report is received from the telephone committee.

A constitution was adopted in which the name of the organization is set forth as the Canadian Independent Telephone Association. Under its provisions, A. Hoover of Green River was elected president and B. F. Wilson of Markham secretary-treasurer. A strong executive was also named.

Railway Rates Changed.

Ottawa, Sept. 7.—The Railway Commission has refused to accede to the request of the American Cereal Co. of Peterboro for the establishment of a head of freight rates on ex-lake grain. The board has changed its order of July 25, fixing railway rates on grain and grain products for export from Ontario points to the seaboard.

Not Asked to Resign.

Toronto, Sept. 7.—Dr. Daniel Clarke, medical superintendent of the Toronto Insane Asylum, writes stating that some misrepresentations have been made in regard to his resignation. He says he did not resign when the last Government was in power in order to make room for a relative, nor had he a relative applying for the position. Dr. Clarke states, furthermore, that the present Government did not insist on his resignation, but that on account of ill-health he voluntarily resigned last April, and was asked to remain in office until his successor was appointed.

"So far," says Dr. Clarke, "I have received no notice of acceptance of my resignation. I have been treated very considerably by the present Government."

Cat Island Submerged.

Port William, Sept. 7.—The Booth fishing station on Cat Island was washed into Lake Superior by the great storm of Sunday. The island was completely submerged, and the inhabitants would have been drowned had not a fish tug been at the station. They were loaded in the tug, and taken to the shelter of a neighboring island. There is nothing now left to indicate the location of the station except part of the pier.

Michael Croake Drowns.

Toronto, Sept. 7.—Meagre details were received yesterday of the drowning of Michael Croake of 31 John street, at Halleybury. He left Toronto nearly a month ago in the company of a man named Lockie, to prospect for minerals in the Temiskaming district. How the drowning happened the despatch received did not state. The corner of the town is conducting an investigation.

Mr. McIsaac Honored.

Halifax, Sept. 7.—Hon. C. F. McIsaac, who for nearly 25 years represented Antigonish in the local and Federal Parliaments, and who has been appointed to the Transcontinental Railway Commission, was yesterday presented with a handsome silverware cabinet by the members from Nova Scotia in the House of Commons.

Cholera Bulletin.

Berlin, Sept. 7.—An official says that 17 new cases of cholera and two deaths were reported during the 24 hours ending at noon yesterday, making the total 90 cases and 26 deaths. The infected area was sensibly widened yesterday. The river Oder has become tainted. Sharp sanitary precautions have been taken throughout the district.

Dynamite Ship Aflame.

London, Sept. 7.—A despatch from Port Said states that the British steamer Chatham, from London for Yokohama, is afire in the Suez Canal, and is holding up all canal traffic, as the Chatham has 70 tons of dynamite on board. The fire on board the Chatham was later extinguished and canal traffic was re-opened.

Sultan Climbing Down.

Paris, Sept. 7.—The Temps last evening printed a despatch from Tangier saying that couriers from Fez report that the Sultan is seeking to reconcile the French Minister by granting partial satisfaction to the demands of France, so as to prevent the departure of the legation.

Lena Going Home.

Vallejo, Cal., Sept. 7.—The Russian cruiser Lena, which has been interned at Mare Island navy yard for nearly a year, will leave for San Francisco next Saturday, where she will go into dry dock. It is expected that she will sail for Vladivostok about September 20.

Robbed of \$1,500.

Ottawa, Sept. 7.—Stewart Hamilton, who is on his way from Cuba, mourns the loss of \$1,500, having lost his pocketbook between here and Montreal.

SCHOOL SUITS..
