STEWART BROTHERS IN THE ENGLISH COURTS.

(Canadian Gazette London, July 18)

London Bankruptcy Court. Before Mr. Registrar Linklater. Re Stewart Brothers

The failure in this case, which came before the court on Tuesday, occurred in March, 1887, the bankrupts trading as timber merchants in Fen Court, City, and at Canada, and they now applied for their discharge. It appears that proofs have been made for £192,894, in addition to which the trustee has notice of claims amounting to  $\pounds 121,400$ , and the assets have at present realized £6,709, and have yielded a dividend of 31d. in the pound.

The bankrupts began business in partner-ship in 1878, with a capital of about  $\pounds 40,000$ , and the official receiver report-ed that they had brought on their failure by rash and hazardous speculation, and that they had given an undue prefer-ence to the New Brunswick Trading

Company. Mr. S. Woolf said that he appeared for the trustee, for Messrs. Barclay, Bevan & Co., and other ereditors, and he al-leged the bankrupts had committed other offences besides those which were men-tioned in the Official Build of the second tioned in the Official Receiver's report. Mr. H. Reed appeared for the bank-rupts and Mr. F. C. Willis, Mr. Garett, and Mr. Tatham on behalf of the creditors.

we copy below. That the Advance quarter :-editor still hails as a grit is proved by his appointment as one of the Vice-Presidents of the New Brunswick Liberal Association.

What the Domigion Government expect to gain by giving aid and assistance o a virulent opposition paper is best known to themselves, but to life-long Liberal Conservatives it is difficult to understand why the Government should lend its aid to maintain and keep up a paper second to no other in the Dcminion for misrepresentation of their policy and acts.

OUR JIM CROW CONTEMPORARY.

The Advance, which has hitherto posed as the Liberal organ, and attacked Conservative papers as subsidized sheets, has been apparently bought up by the party it abused for so long a time. It is now a subsidized organ, under the patronage of the Tory Government whose wickedness it has so often pic-tured, and is ready, to lick the hand that once lashed it and now feeds it. What are the Liberals going to do

that once lashed it and now feeds it. What are the Liberals going to do about it? Are they to do without an organ or start another paper? The Ad-conce's usefulness as an opponent of the Government is gone, now that it is en-joying the Government patronage. A curious public is waiting for light on the corrupt bargain which has wrought the transformation scene in the Advance office. That it is a corrupt bargain everybody knows, but the terms have not been divulged. A C.--Miss Ferguson. I. S.--W. Allan. O. S.-J. Patterson. P. W. P.-J. McMillan. Obituary. The death of Hon.
