(Special Despatch to the Times.) St. Catharines, Ont., June 2 .- At the non-jury sittings of the High Court of Justice yesterday, when the case of the Niagara Con. Co., Ltd. vs. the Electrical Development Co., of Ontario, Ltd., was called, it was announced that it had been settled out of court. The suit was brought for \$109,000 damages, claimed by reason of the defendant company in-terfering with company's work on Nia-gara River, and the evidence would have revived the entire history of Nia-gara power development. The action of James Battle and Tho-mas Conlon, of Thorold, and J. H. Arm-strong, of Toronto, against the C. P. R. to compel the railway to pay the plain-tiffs, as contractors on a 12½ section between Coldwater and Severn Bridge, at the same rate as other contractors, cal Development Co., of Ontario, Ltd.,

tiffs, as contractors on a 12% section between Coldwater and Severn Bridge, at the same rate as other contractors, being tried to-day. Dr. Wm. T. Greenwood and Miss Lil-lian Jeanette Platt, daughter of Sam-uel Platt, James street, were married at the residence of the bride's parents at 3.30 o'clock this afternoon, by Rev. N. I. Perry, Rector of St. Thomas' Church. Mrs. Frank Coy, of Toronto, the bride's sister, was matron of honor, and Rich-ard -reen Mood, cousin of the groom, best man. They will spend their honey-moon on Long Island Sound and on their return will reside in this city. W. H. Spencer, of Canadigus, N. Y., arrived in the city last evening in search of a horse and buggy that had been stolen from his premises. The thief had been previously arrested in Ohio. The horse was found in the Ellis House sta-bles, where it had been left four weeks ago. The buggy had been previously sold to cover expense by the hotel pro-prietor, but was recovered by the owner, who arrived just before the horse was offered for sale by Mr. Vandusen.

FROM EAST AND WEST. It was "King's weather" which greeted the assembly trains as they entered this province and city from the sea breezes of the east and the chinooks of the west. Since early dawn of Monday many have been "on board"—old leader's whose way up to Zion on former occasions has not been too wearisome to be endured; others who combine their first holiday trip with church business, when many a ruling elder, and his equally regal wife may come to see our cities or visit their kindred who have followed the usual course_of empire. They will be here may come to see our cities or visit their kindred who have followed the usual course of empire. They will be here from Pictou-that cornerstone of the kirk in Canada, whither a marvellous number of "great folk" look as their chronological tree-from high tides, and where rivers run both ways"; from old Scotch parishes in Quebec, and up the Ottawa valley. They make happy com-panions, and by the hour that the As-sembly trains reach Hamilton they have had their "fling" at the business and other things not on the docket. From the West almost the other ex-treme prevails. It is the visit to the old Ontario home of many a household from both prairie and mountain manse. Everyone will hope that it may be a reunion, where every cup of blessing runneth over. Then because western always, the Assembly trains will show as good a sample of humanity as any excursion which comes from the "land or fortune." By 5 o'clock this evening habit and be Presbyterian "true blue."

NEW MINISTER.

MacKenzie King to be Sworn in To-day or To-morrow. (Special Despatch to the Times.) Ottawa, June 2.-Dr. J. F. Waters, of the Ottawa civil service, dropped dead at 10 o'clock this morning in the office

fluids which may accumulate into the ground. The fluids thus carried are al-lowed to run into beds of quicklime; accumulated gases are run through a tank of folmaldebyde and anticepticised. to build a mausoleum on this principle in Hamilton, and claimed that they se-cured considerable local support. They had prepared very complete plans and specifications, which they submitted to Dr. C. A. Hodgetts some time ago, but the chairman of the board was by no means enthusiastic on the subject. He objected on the grounds that such a mausoleum, containing, as it was pro-posed, the bodies of those who had died of every kind of disease, would be a menace to public health, as well as a menace to public health, as well as a menace to built health, as well as a menace to those who might visit the building. Without the board, the pro-moters could not go on with the plan, and withdrew their proposal. The whole question of the disposal of the dead is beginning to cause some attention to the authorities. In big cities there are already numerous ceme-teries which are filled up, and land being held for cemetery purposes is frequently so held at the expense of the living.
