LET US REASON TOGETHER.

HOLLOWAY'S PILLS.

WHY ARE WE SICK?

It has been the lot of the human race to be weighed down by disease and suffering. HOLLOWAY'S PILLS are especially adapted to the relief of the WEAK, the NERVOUS, the DELICATE, and the INFIRM, of all climes, ages, sexes and constitutions. Professor Holloway personally superintends the manufacture of his medicines, and offers them to a free and enlightened people, as the best remedy the world ever saw for the removal of disease.

THESE PILLS PURIFY THE BLOOD.

These famous Pills are expressly combined to operate on the stomach, the liver, the kidneys, the lungs, the skin, and the bowels, correcting any derangement in their functions, purifying the blood, the very fountain of life, and thus curing disease in all its forms.

DYSPEPSIA AND LIVER COMPLAINTS.

Nearly half the human race have taken these Pills. It has been proved in all parts of the world, that nothing has been found equal to them in cases of disorders of the liver, dyspepsia, and stomach complaints generally. They soon give a healthy tone to those organs, however much deranged, and when all other means have failed.

GENERAL DEBILITY.—ILL HEALTH.

Many of the most despotic Governments have opened their Custom Houses to the introduction of these Pills, that they may become the medicine of the masses. Learned Colleges admit, that this medicine is the best remedy ever known for persons of delicate health, or where the system has been impaired, as its invigorating properties never fail to afford relief.

FEMALE COMPLAINTS.

No Female, young or old, should be without this celebrated medicine. It corrects and regulates the monthly course at all periods, acting in many cases like a charm. It is also the best and safest medicine that can be given to children of all ages, and for any complaint; consequently no family should be without it.

Holloway's Pills are the best remedy known in the world for the following Diseases:—

GENERAL INTELLIGENCE.

RETRIBUTIVE JUSTICE.—About thirty years ago, a new city gaol was built at Norwich. A gallows was made by a man of the name of Stratford, to be used when required, over the gateway. Within a few years, this Stratford was hung on it for poisoning, and there has never been any occasion to use it since. He thus became his own first and last victim.

THE CURRENCY.—The rumour that Ministers are discussing the propriety of an issue of one pound notes has been current in numerous circles during the last fortnight. The object is the withdrawal of an equal amount of gold coin. By this plan, it is suggested the metallic reserve of the Bank might be increased, and after making due provision for the convertibility of the new one pound notes, a portion of the gold thus obtained might be rendered available for the exigencies of the war. We must repeat, however, that no authoritative information of any description has been put forward.—*Daily News.*

Discovery of a New Island.—On the outer voyage to Australia of the *Ben Nevis*, Capt. Heron, in latitude 44 41 south, and in same longitude as the Crozets, came unexpectedly upon land. Supposing it was the Crozets, he steered 150 miles south, and was astonished to find himself at the highest he had ever seen, for the mountain ridge on it seemed to be as high as the Andes. The Crozets are in a line with Prince Edward's Island, Marian, and Kerguelin's Island.

EXTRAORDINARY STORY.—During the stay of the Persian Ambassador in Moscow, a fire of charcoal, lighted by his servant in a stove of the room where his son and the servant slept, caused the death of the former by suffocation, while the latter narrowly escaped with his life. The ambassador, in order to avenge the death of his son, commanded the servant, to whose carelessness the accident was attributed, to be flayed alive. The Russian police, however, interfered, alleging that such a punishment could not be allowed in their country. Accordingly, his excellency ordered a box with airholes to be made, for the purpose of transporting his unfortunate servant to Persia, there to suffer the fearful death which even Russian civilisation prohibited!

THE SULTAN AS PATER FAMILIAS.—We find the following curious bit of gossip in the Paris letter of the *Globe*:—"According to the letter from Constantinople, it seems that the Sultan has brought up the ladies of his family in extravagant habits, which, it seems, lead their august father into difficulties. One of his Highness's daughters, whose marriage with a son of Reschid Pacha was not long since recorded, is, it seems, in debt to the amount of 10,000 pistres, and Alide Sultana is 'down' in the books of Stamboul tradesmen for a large sum. It seems rather hard to a Western mind, that the Sultan should be made responsible for the 'little accounts' of his married daughters; but this, it appears, is the case, as the *Patrie* gives us to understand that in consequence of these drains upon his purse, the Pacha's allowance has been increased by several thousand pistres."

SWEDEN.—A private letter from Hamburg, dated the 10th, states that orders have been just given by the Swedish government to fit out at once in the port of Carlsrona two ships of the line, three frigates, and four corvettes.

PERSONAL.—Lady Ellenborough, who has not been assassinated in Arabia, was "at one time the star of London fashion, whose beauty and wit, the champagne of conversation, full of sparkle and vivacity, gathered round her all that was distinguished in English society. Among her special admirers were George Canning and the Duke of Wellington, but the discovery of her amours with Prince Schwartzburg, which led to a trial that some years since created an intense sensation among the aristocratic circles of Europe, was owing her separation and divorce from the haughty and arrogant lord, who became so memorable by the pomp and majesty of his short rule in India. For years, she had not been heard of."

Indigestion with all its attendant evils cured in eight weeks.—Wm. Henry Harris, Esq., a contributor to many of the leading Canadian Papers, was afflicted with indigestion, the most simple food caused him hours of uneasiness by day, and want of rest by night, his sedentary profession also tended in no wise to mitigate the disorder, so that life became, as it were, a burden to him; he had recourse to a variety of means to alleviate his sufferings, but without avail; however, he commenced using Holloway's Pills, and this extraordinary remedy restored him to health, after he had despaired of ever being cured, and to the astonishment of all who knew him. He can now eat with gusto any kind of food without experiencing the slightest symptoms of his old complaint.

The Great American Hair Tonic.
Bogie's celebrated Hyperion Hair, for the growth and preservation of the Hair is well known to be without a rival on this continent. Hundreds of imitations have started into an ephemeral existence, since the introduction of this unrivalled Hair restorative, and their doom been sealed, whilst Bogie's Hyperion Hair Fluid, with a popularity never stained by any other article, goes on "conquering and to conquer." There is no malady, which can affect the Hair, but can be cured by this incomparable preparation. To ladies it is invaluable; and on children's heads it lays the foundation of a good head of Hair. It is now patronized by Her Majesty the Queen of Great Britain, and commands an extensive sale throughout Europe.
Bogie's Electric Hair Dye converts red or grey hair into a beautiful black or brown, the moment it is applied, literally dyeing the hair without staining the skin and leaving the hair soft and glossy without injuring its texture in the least; a decided superiority over all other Hair dyes.
Bogie's Amole Shaving compound renders that usually unpleasant operation (shaving) a decided luxury.
Bogie's Hebeonina removes freckles and tan from the face in the shortest possible time, and is acknowledged to be the very best article for beautifying the complexion.
To be had, wholesale or retail, of W. Bogie, 227, Washington street, Boston, U. S.
And by all Druggists and Perfumers throughout the Canada, United States and Great Britain. W. R. WATSON, Agent for P. E. I.

GILMAN'S HAIR DYE.
The best article ever used, as hundreds can testify in this city and surrounding country. Read! GILMAN'S LIQUID HAIR DYE instantaneously changed the hair to a brilliant jet black or glossy Brown, which is permanent—Does not catch or in any way injure the skin. No article ever yet invented which will compare with it. We would advise all who have grey hairs to buy it, for it never fails.
